There were no transfers in to Level 3 and no transfers out of Level 3 as of March 31, 2020. Transfers occur when there is a lack of observable market information.

## (4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

Level 1 - Valuation is based upon quoted prices for identical assets or liabilities in active markets that the Company is able to access. Level 1 fair value is not subject to valuation adjustments.

Level 2 - Valuation is based upon quoted prices for similar assets and liabilities in active markets or quoted prices for identical or similar instruments in markets that are not active. In addition, the Company may use various valuation techniques or pricing models that use observable inputs to measure fair value.

Unobservable inputs reflect the Company's own assumptions about the inputs that market participants would use in pricing the asset or liability.

**Note 21 – Other Items****21A. Unusual or Infrequent Items**

During March 2020, a global pandemic was declared by the World Health Organization related to the rapidly growing outbreak of a novel strain of coronavirus (COVID-19). The pandemic has significantly impacted the economic conditions in the U.S. and globally, accelerating during the first half of March, as federal, state, and local governments react to the public health crisis, creating significant uncertainties in the U.S. economy. The Company has not experienced a slow-down in activities related to the contracted work, however government restrictions and client-imposed delays are evaluated daily and this could change. While the disruption is currently expected to be temporary, there is uncertainty around the duration. The Company cannot at this time predict the ultimate impact the pandemic will have on its results of operations, financial position, liquidity, or capital resources but such impact could be material.
