NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive Mountain Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The Ohio DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the Ohio DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements, except for the NAIC's limited-time exception allowing the classification of policyholder credits related to COVID-19 as an underwriting expense instead of a reduction of premium. The NAIC issued INT 20-08 providing a limited-time exception to NAIC SAP which allows the Company to recognize policyholder credits related to COVID-19 as an underwriting expense (Page 4, Line 4) rather than a reduction of premium (Page 4, Line 1) when a policy endorsement allowing for discretionary payments to policyholders due to COVID-19 related issues was filed with the DOI prior to June 15, 2020. This limited-time exception will expire on January 1, 2021.

During the quarter ended June 30, 2020, the Company reported \$5,295,091 in policyholder credits to personal auto policyholders in response to the expected reduction in auto accident frequency and the financial hardships imposed by the impact of COVID-19 social distancing and shelter-in-place restrictions ("COVID-19 restrictions"). These credits represented 20% of monthly premiums for customers with a policy in force each of April 30 and May 31, 2020. In accordance with INT 20-08, the Company has included these policyholder credits in underwriting expense (Page 4, Line 4) rather than a reduction of premium (Page 4, Line 1) due to the Company filing a policy endorsement with the DOI to provide these credits to policyholders. The table below illustrates that there were no other deviations from NAIC SAP and that the permitted practice described above has no net impact on either Net Income or Surplus.

6. Loan-backed securities

Loan-backed and structured securities are accounted for as prescribed by Statement of Statutory Accounting Principles No. 43R, Loan-backed and Structured Securities. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends. See Note 5.D.

D. Going Concern

Management continuously monitors the Company's financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

A - F No significant changes

G. All Other Contingencies

The Company routinely assesses the collectibility of premiums and agents' balances receivable and records a bad debt reserve for amounts exceeding the nonadmitted balance that the Company believes are uncollectible.

All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and loss adjustment expense ("LAE") reserves. The Company also has, on a net basis, potential exposure relating to lawsuits due to its participation in the 100% pooling reinsurance agreement for which it is allocated litigation expenses.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. government obligations, which are continually priced on a daily basis, active exchange-traded equity securities, and certain short-term securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain corporate and municipal bonds and certain preferred stocks). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect our subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

Determining the fair value of the investment portfolio is the responsibility of management. As part of the responsibility, management evaluates whether a market is distressed or inactive in determining the fair value for our portfolio. Management reviews certain market level inputs to evaluate whether sufficient activity, volume, and new issuances exist to create an active market. Based on this evaluation, management concluded that there was sufficient activity related to the sectors and securities for which we obtained valuations.

As of the reporting date, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

Note 21 – Other Items

A. Unusual or Infrequent Items

During the quarter ended June 30, 2020, the Company issued policyholder credits to personal auto policyholders in response to the expected reduction in auto accident frequency and the financial hardships imposed by the impact of COVID-19 restrictions. These credits represented 20% of monthly premiums for customers with a policy in force each of April 30 and May 31, 2020. In accordance with INT 20-08, the Company included these policyholder credits in underwriting expense on Page 4, Line 4 (See Note 1A).

The Company's expense ratio was adversely impacted by the policyholder credits described above as well as additional bad debt expense related to our billing leniency efforts, such as suspending cancellations and non-renewals for non-payment and pausing collection activities. These practices have been put in place to help policyholders who may be experiencing financial hardships as a result of COVID-19 restrictions and the impact it has had on the economy (See Note 22).

B - G Not Applicable

Note 22 – Events Subsequent

Subsequent events have been considered through August 10, 2020 for the statutory statement that was available for issuance by August 17, 2020.

While there has been some improvement in the economy as restrictions related to COVID-19 begin to be lifted, there remains significant uncertainty regarding the potential for and timing of any economic recovery, whether and when driving and insurance shopping patterns will return to historical patterns, and the near-term and longer-term impacts on insurance markets, small businesses, critical vendors, counterparties, and the investment markets, among many other issues and, ultimately, how the Company's businesses and financial results will be impacted during these recovery periods. Although the nature of these impacts may change over time, we cannot predict the likely duration or extent of these impacts.

The Company's expense ratio may continue to be adversely impacted for the bad debt reserves relating to our billing leniency efforts, such as suspending cancellations and non-renewals for non-payment and pausing collection activities that were put in place through May 15, 2020, as well as the issuance of additional policyholder credits as warranted (see Note 21A). These practices were put in place to help policyholders who may be experiencing financial hardships as a result of COVID-19 restrictions and the impact on the economy. There still remains state mandated moratoriums in several states.

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

A. Change in Incurred Losses and Loss Adjustment Expenses

Incurred losses and LAE attributable to insured events of prior accident years increased by \$472,194 in 2020, which is 1.0% of the total prior year net unpaid losses and LAE of \$72,868,965. The unfavorable development is primarily due to adjusting and other expense reserves strengthening during the first quarter of 2020. This is to account for lower than anticipated productivity in claims due to COVID -19 social distancing and shelter-in-place restrictions, and lower than originally anticipated existing claims inventory. In addition, December 2019 claims reported in January 2020 were higher than originally anticipated.
