NOTES TO FINANCIAL STATEMENTS**Note 1 – Summary of Significant Accounting Policies and Going Concern****A. Accounting Practices**

The accompanying statutory-basis financial statements of Progressive Advanced Insurance Company (the "Company") were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance ("DOI").

The DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the DOI. No deviations from NAIC statutory accounting practices ("NAIC SAP") were used in preparing these statutory-basis financial statements, except for the NAIC's limited-time exception allowing the classification of policyholder credits related to COVID-19 as an underwriting expense instead of a reduction of premium. The NAIC issued INT 20-08 providing a limited-time exception to NAIC SAP which allows the Company to recognize policyholder credits related to COVID-19 as an underwriting expense (Page 4, Line 4) rather than a reduction of premium (Page 4, Line 1) when a policy endorsement allowing for discretionary payments to policyholders due to COVID-19 related issues was filed, if required by the state, prior to June 15, 2020. This limited-time exception will expire on January 1, 2021.

As of September 30, 2020, the Company reported \$18,291,527 in policyholder credits to personal auto policyholders in response to the expected reduction in auto accident frequency and the financial hardships imposed by the impact of COVID-19 social distancing and shelter-in-place restrictions ("COVID-19 restrictions"). In accordance with INT 20-08, the Company has included these policyholder credits in underwriting expense (Page 4, Line 4) rather than a reduction of premium (Page 4, Line 1) due to the Company filing policy endorsements, if required by the state, prior to June 15, 2020. The table below illustrates that there were no other deviations from NAIC SAP and that the permitted practice described above has no net impact on either Net Income or Surplus.

The following table illustrates the impact of reporting the policyholder credits related to COVID-19 restrictions as an underwriting expense rather than a reduction of premium on the operating percentages and other percentages reported in the Five-Year Historical Data Exhibit:

	Policyholder Credits as an Underwriting Expense	Policyholder Credits as a Reduction of Premium
Operating Percentages:

Other Percentages:		
Other underwriting expenses to net premiums written	24.8	21.6
Losses and loss expenses incurred to premiums earned	61.0	63.8
Net premiums written to policyholders' surplus	119.4	114.5

B. Use of Estimates in the Preparation of the Financial Statement

No significant changes

C. Accounting Policy**2. Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method**

Not Applicable

6. Loan-backed securities

Loan-backed and structured securities are accounted for as prescribed by Statement of Statutory Accounting Principles No. 43R, Loan-backed and Structured Securities. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends. See Note 5.D.

D. Going Concern

Management continuously monitors the Company's financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

A - C Not Applicable

D. Loan-Backed Securities

1. The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company's portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2. Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment
Not Applicable
3. The Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.
4. The Company does not own any loan-backed or structured debt securities in an unrealized loss position
5. Additional information

Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

E-F No significant changes

G. All Other Contingencies

The Company routinely assesses the collectibility of premiums and agents' balances receivable and records a bad debt reserve for amounts exceeding the nonadmitted balance that the Company believes are uncollectible.

The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and LAE reserves. The Company also has, on a net basis, potential exposure relating to lawsuits due to its participation in a 100% pooling reinsurance agreement for which it is allocated litigation expenses.

The following is a discussion of potentially significant pending cases at the reporting date. Unless specifically noted, the Company does not consider a loss from these cases to be probable and is unable to estimate a range of loss, if any, at this time.

There were two cases consolidated into multi-district proceedings alleging that the Company improperly steers automobile repair work to certain auto body repair shops and challenging the labor rates the Company pays to auto body repair shops.

There was a putative class action lawsuit alleging that the Company's uninsured motorist coverage is illusory.

There were two putative class action lawsuits alleging the Company fails to pay the required amount of tag and title transfer fees, and taxes, following a total loss.

There was one individual lawsuit challenging the Company's Medicaid reimbursement or, in the alternative, requesting a pure bill of discovery.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. government obligations, which are continually priced on a daily basis, active exchange-traded equity securities, and certain short-term securities).

NOTES TO FINANCIAL STATEMENTS

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain corporate and municipal bonds and certain preferred stocks). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect our subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

Determining the fair value of the investment portfolio is the responsibility of management. As part of the responsibility, management evaluates whether a market is distressed or inactive in determining the fair value for our portfolio. Management reviews certain market level inputs to evaluate whether sufficient activity, volume, and new issuances exist to create an active market. Based on this evaluation, management concluded that there was sufficient activity related to the sectors and securities for which we obtained valuations.

As of the reporting date, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Rollforward of Level 3 Items

Not Applicable

3. Policy on Transfers Into and Out of Level 3

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

See Note 20.A.1 above.

5. Derivative Fair Values

B. Other Fair Value Disclosures

C. Fair Values for all Financial Instruments by Levels 1, 2, and 3

The table below represents the fair value of all financial instruments at the reporting date, however, not all financial instruments are reported at fair value in the Company's financial statements.

Note 21 – Other Items

A. Unusual or Infrequent Items

The Company issued policyholder credits to personal auto policyholders in response to the expected reduction in auto accident frequency and the financial hardships imposed by the impact of COVID-19 restrictions. In accordance with INT 20-08, the Company included these policyholder credits in underwriting expense on Page 4, Line 4 (See Note 1A).

The Company's expense ratio was adversely impacted by the policyholder credits described above as well as additional bad debt expense related to our billing leniency efforts, such as suspending cancellations and non-renewals for non-payment and pausing collection activities. These practices were put in place to help policyholders who were experiencing financial hardships as a result of COVID-19 restrictions and the impact it has had on the economy.

C. Other Disclosures

Agents' Balances Certification, Florida Statute 625.012 (5):

For the reporting period, the Company reported net admitted premiums and agents' balances in the course of collection of \$46,947,268. Of this amount there were no premiums due from a controlled or controlling person as defined in Florida statute 625.012 (5).

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

A. Change in Incurred Losses and Loss Adjustment Expenses

Incurred losses and LAE attributable to insured events of prior accident years increased by \$1,221,418 in 2020, which is less than 1.0% of the total prior year net unpaid losses and LAE of \$190,868,352. The unfavorable development is primarily due to adjusting and other expense reserves strengthening during the first quarter of 2020. This is to account for lower than anticipated productivity in claims due to COVID -19 social distancing and shelter-in-place restrictions, and lower than originally anticipated existing claims inventory. In addition, December 2019 claims reported in January 2020 were higher than originally anticipated.
