### Note 21 – Other Items

A. Unusual or Infrequent Items

In March 2020, the World Health Organization declared the outbreak of a novel coronavirus (“COVID-19”) as a pandemic, which continues to spread throughout the United States. Management continues to evaluate the impact of the COVID-19 pandemic on the industry and has concluded that while it is possible that the virus could have a negative effect on the Company’s financial position, results of its operations, the specific impact is not readily determinable as of the date of these financial statements.

The Company is believed to have ample liquidity to fund claims payments for the near term. Additionally, the average duration of the portfolio is matched against portfolios with long tails, further enabling these entities to ride out the market volatility.

In assessing the overall impact of COVID-19 on earnings, profits, capital and liquidity, the global impact of COVID-19 is still developing. The Company believes it has sufficient liquidity to carry itself through the crisis and Initial analysis indicates that this will not have a material impact to the Company’s financial statements. The Company has elaborated on its analysis and the assumptions used in assessing its impact from COVID-19, in its response to the NAIC COVID-19 survey and to the various regulators who have inquired. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
