NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

The COVID-19 pandemic has pervasively impacted the economy, financial markets and the global health care delivery systems, including significant deferral of care of our customers resulting in lower claims paid in the second quarter. These impacts were first noted in April 2020, moderating in subsequent months, with healthcare utilization returning to nearly normal levels by the end of September 2020. There were no other material pandemic related impacts to the Company as of or for the nine months ended September 30, 2020.

Additionally, the Coronavirus Aid, Relief, and Economic Security Act ("the Act") was enacted on March 27, 2020. The legislation did not have a material impact on the Company's results of operations for the nine months ended September 30, 2020. The Company has not requested any funding under the Act.

A. Accounting Practices

The financial statements of Cigna National Health Insurance Company ("CNHIC" or "the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Ohio.

A reconciliation of the Company net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

(8) NAIC SAP (5 – 6 – 7 = 8)	XXX	XXX	XXX	\$ 15,755,988	\$ 14,604,423

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

(1) Basis for Short-Term Investments

(2) Basis for Bonds and Amortization Schedule

Investments in bonds and short-term investments are carried at amortized cost, except those in or near default that are carried at the lesser of cost or fair value. Amortization of bond premium or discount is calculated using the scientific (constant yield) interest method. Bonds containing call provisions are amortized to call date which produces the lowest asset value (yield to worst). Investments with original maturities of one year or less from the time of purchase are classified as short-term. Bonds are considered impaired and their cost basis is written down to fair value through an asset valuation reserve for credit-related losses or an interest maintenance reserve for interest-related losses, when management expects a decline in value to persist (i.e., the decline is other-than-temporary).

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed bonds and structured securities are valued at amortized cost using the constant level yield method. Significant changes in estimated cash flows from the original purchase assumptions are accounted for generally using the retrospective adjustment method. Significant changes in estimated cash flows from the original purchase assumptions for loan-backed and structured securities that have potential for loss of a significant portion of the original investment are accounted for using the prospective method. These securities are presented on the balance sheet as bonds.

Prepayment assumptions for loan-backed and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.

When the Company determines it does not expect to recover the amortized cost basis of loan-backed or structured securities with declines in fair value (even if it does not intend to sell and has the intent and ability to hold), the non-interest portion of the impairment loss is recognized in realized investment losses. The non-interest portion is the difference between the amortized cost basis of the loan-backed or structured security and the net present value of its expected future cash flows. Expected future cash flows are based on assumptions about the collateral attributes, including prepayment speeds, default rates and changes in value.

D. Going Concern

In accordance with SSAP No. 1, "Accounting Policies, Risks and Uncertainties, and Other Disclosures," management has made an evaluation of the Company's ability to continue as a going concern, including such factors as its current financial position, recent earnings and cash flow trends and projections, liquidity and capital requirements, readily available sources of liquidity and such other factors deemed by management to be appropriate under the circumstances. As a result of management's evaluation, no conditions, events or trends have been identified that causes substantial doubt as to the ability of the Company to continue as a going concern and, accordingly, the accompanying financial statements have been prepared on the going concern basis.

Note 5 – Investments**D. Loan-Backed Securities**

- (1) **Description of Sources Used to Determine Prepayment Assumptions**
Prepayment assumptions for loan-backed and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.
- (2) **Securities with Recognized Other-Than-Temporary Impairments**
As of September 30, 2020, the Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the Company had the intent to sell or does not have the intent and ability to retain the investment for a period of time sufficient to recover the amortized cost basis.
- (3) **Recognized OTTI securities**
As of September 30, 2020, the Company had no loan-backed and structured securities with recognized other-than-temporary impairments where the present value of cash flow expected to be collected is less than the amortized cost basis.
- (4) **All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):**
As of September 30, 2020, there were no loan-backed and structured securities with a fair value lower than amortized cost.
- (5) **Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary**
Management reviews loan-backed and structured securities with a decline in fair value from cost for impairment based on criteria that include:
 - Length of time and severity of decline.
 - Financial and specific near term prospects of the issuer.
 - Changes in the regulatory, economic or general market environment of the issuer's industry or geographic region.
 - The Company's intent to sell or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost.

F. All Other Contingencies
Other Legal Matters.

In the normal course of its business operations, the Company is involved in litigation and other regulatory matters from time to time with claimants, beneficiaries, and other parties. When the Company, in the normal course of its regular review of such matters has determined that a material loss is reasonably possible, the matter is disclosed. In accordance with Statutory Accounting Principles, when litigation or other regulatory matters result in loss contingencies that are both probable and estimable, the Company accrues the estimated loss by a charge to operations. The amount accrued represents management's best estimate of the probable loss at the time. If only a range of estimated losses can be determined, the Company accrues an amount within the range that, in management's

NOTES TO FINANCIAL STATEMENTS

judgment, reflects the most likely outcome. If none of the estimates within the range is a better estimate than any other amount, the Company accrues the mid-point of the range.

Management does not believe that litigation or other matters currently pending against the Company would have a material adverse effect on the Company's results of operations, financial condition or liquidity based on its current knowledge of those matters.

In response to the COVID-19 pandemic, U.S. federal and state governments have increasingly enacted new regulatory requirements, as well as provided additional flexibility to industry participants. These regulatory actions primarily provide for:

- client and customer premium relief to avoid the cancellation or non-renewal of policies;
- mandating or requesting waiver of customer cost-sharing and other associated costs related to COVID-19 testing or treatment, as well as establishing provider reimbursement and future vaccine immunizations coverage requirements
- extending claims filing deadlines for providers, customers and facilities;
- mandating or encouraging waiver of customer cost-share related to telemedicine services, as well as requiring certain reimbursement levels for telemedicine providers to encourage its utilization;
- enacting coverage and reimbursement requirements at in-network levels for certain services received from out-of-network providers;
- revising or suspending the use of certain medical management procedures; and
- mandating prescription drug benefit administration requirements primarily related to formulary exceptions and restrictions, and prior authorization and prescription drug refill limits.

The Company continues to monitor COVID-19 regulatory developments.

Note 20 – Fair Value Measurements

- A. Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

- Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.
- Level 2 Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities, spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.
- Level 3 Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

SSAP 100 allows the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

NOTES TO FINANCIAL STATEMENTS

The Company provides additional fair value information in Notes 1 and 5.

C. Fair Value Level

The following tables provide the fair value, carrying value, and classification in the fair value hierarchy of the Company's financial instruments as of September 30, 2020 and December 31, 2019.

Cash, Cash Equivalents, and Short-Term Investments	\$ 2,616,848	\$ 2,616,848	\$ 568,868	\$ 2,047,980	\$	\$	\$

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds

The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

Cash, Cash Equivalents, and Short-Term Investments

Short-term investments, cash equivalents, and cash are carried at cost which approximates fair value. Short-term investments and cash equivalents are classified in Level 2, and cash is classified in Level 1.

D. Not Practicable to Estimate Fair Value

None.

E. NAV Practical Expedient Investments
