NOTES TO THE FINANCIAL STATEMENTS**Note 1 – Summary of Significant Accounting Policies and Going Concern****A. Accounting Practices**

The accompanying statutory financial statements of National Casualty Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The NAIC's *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no statutory accounting practices that differ from NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Federal Income Taxes. The Company's parent, Nationwide Mutual Insurance Company (Mutual), files a consolidated federal income tax return, which includes all eligible U.S. subsidiaries and affiliates. In this regard, the included subsidiaries and affiliates pay to Mutual the amount which would have been payable on a separate return basis without regard to the alternative minimum tax. Mutual pays tax due on a consolidated basis.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements, which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. DTAs and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

Reinsurance Recoverables. The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserve deductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2020 and 2019.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. As of December 31, 2020 and 2019, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies:

1. Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
2. Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with an NAIC designation of "3" through "6", which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method. The Company does not hold any mandatory convertible securities or SVO-identified investments.
3. Unaffiliated common stocks are reported at fair value.
4. Redeemable preferred stocks are stated at amortized cost, except those with an NAIC designation of "3" through "6", which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value, except those with an NAIC designation of "3" through "6", which are stated at the lower of amortized cost or fair value.
5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums and discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management's best estimate of probable credit losses.

NOTES TO THE FINANCIAL STATEMENTS

6. Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles (SSAP) No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method.
7. Not applicable – The Company does not have any subsidiaries.
8. Other invested assets consist primarily of alternative investments in hedge funds, private equity funds, private and emerging market debt funds, tax credit funds and real estate partnerships. Except for investments in certain tax credit funds, these investments are recorded using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in tax credit funds are held at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized.
9. Not applicable – The Company does not have derivatives.
10. Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2020 and 2019, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.
11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties). Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.
12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13. Not applicable as the Company does not write major medical insurance with prescription drug coverage.

D. Going Concern

Not applicable.

Note 2 - Accounting Changes and Corrections of Errors

In December 2020, the Company adopted revisions to SSAP No. 2R, Cash Equivalent – Cash and Liquidity Pools. The adopted revisions require internal cash pooling arrangements to meet certain criteria to be considered qualified cash pools, with investments in qualifying pools reported as cash and cash equivalents on Page 2 within line 5. The Company's cash pool meets the criteria to be considered a qualified cash pool under SSAP No. 2R. The internal cash pooling arrangement with Nationwide Cash Management Company (NCMC) was historically classified as short-term investments, resulting in a change in classification to cash and cash equivalents. See Note 10 for more information on the Company's relationship with NCMC.

Note 3 - Business Combinations and Goodwill

5. Investments in impaired loans with or without allowance for credit losses and impaired loans subject to a participant or co-lender mortgage loan agreement for which the reporting entity is restricted from unilaterally foreclosing on the mortgage loan

Not applicable.

6. Investment in impaired loans - Average recorded investment, interest income recognized, recorded investment in nonaccrual status and amount of interest income recognized using a cash-basis method of accounting

Not applicable.

NOTES TO THE FINANCIAL STATEMENTS

7. Allowance for Credit Losses

Not applicable.

8. Mortgage Loans Derecognized as a result of foreclosure

Not applicable.

9. The Company accrues interest income on impaired loans to the extent it is deemed collectible and the loan continues to perform under its original or restructured contractual terms. Interest received on non-accrual status mortgage loans on real estate is included in net investment income in the period received.

B. Troubled Debt Restructuring

Not applicable.

C. Reverse Mortgages

Not applicable.

D. Loan-Backed Securities

1. Prepayment assumptions are generally obtained using a model provided by a third-party vendor.

2. Not applicable

3. Not applicable.

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$ (70,527)
2. 12 Months or Longer	\$ -

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$ 2,459,529
2. 12 Months or Longer	\$ -

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security. If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security, then the security is deemed not to be other-than-temporarily impaired.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

Not applicable, as the Company does not participate in a securities lending program and has no open dollar repurchase agreements as of year-end.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Not applicable.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

Not applicable.

H. Repurchase Agreements Transactions Accounted for as a Sale

Not applicable.

I. Reverse Repurchase Agreements Transactions Accounted for as a Sale

Not applicable.

J. Real Estate

Not applicable.

I. Alternative Minimum Tax (AMT)

Not applicable.

Note 10 - Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties**A. Nature of Relationships**

All outstanding shares of the Company are owned by Mutual, domiciled in the State of Ohio.

Bonds and stocks, if any owned, acquired or disposed of in any year by the Company in any subsidiary or affiliate are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company is a party to various reinsurance agreements including a quota share agreement with several affiliated companies. See Note 26.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$11,443,015 and \$7,249,556 as of December 31, 2020 and 2019, respectively.

B. Detail of Transactions Greater than 1/2 % of Admitted Assets

Not applicable. See Note 26 for details on changes to the terms of intercompany arrangements.

C. Transactions with Related Party who are not Reported on Schedule Y

Not applicable.

NOTES TO THE FINANCIAL STATEMENTS**D. Amounts Due to or from Related Parties**

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The gross amounts due from affiliates were \$22,627,613 and \$20,607,746 as of December 31, 2020 and 2019, respectively. The gross amounts due to affiliates were \$20,822,572 and \$19,405,706 as of December 31, 2020 and 2019, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than indicated in Note 14 A.

F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

NOTES TO THE FINANCIAL STATEMENTS**E. Defined Contribution Plans**

NMIC sponsors a defined contribution retirement savings plan (401(k)) which covers substantially all employees. Employees may make salary deferral contributions of up to 80% provided this deferral does not exceed the maximum annual amount allowed by the IRS. Salary deferrals of up to 8% receive a 50% company match and salary deferrals up to 7% receive a 50% company match for the years ended December 31, 2020 and 2019, respectively, 20% of which vests each year until the participant has five years of vesting service. The Company match is funded on a biweekly basis and the expense for contributions are allocated to the Company based on employee contributions. The Company's allocated expense for contributions was \$688,119 and \$- for the years ended December 31, 2020 and 2019, respectively. Individuals are subject to a dollar limit on salary deferrals per IRS Section 402(g) (\$19,500 in 2020 and \$19,000 in 2019). Other limits also apply.

F. Multiemployer Plans

Not applicable.

G. Consolidated/Holding Company Plans

The Company, together with other affiliated companies, participates in a qualified defined benefit pension plan (the Nationwide Retirement Plan or the NRP) sponsored by Mutual. The Company funds pension costs accrued for direct employees plus an allocation of pension costs accrued for employees of affiliates whose work benefits the Company. The Company also participates in a non-qualified defined benefit supplemental executive retirement plan sponsored by Mutual that covers certain executives with at least one year of service. The Company's portion of expense relating to these plans was \$250,903 and \$- for the years ended December 31, 2020 and 2019, respectively.

In addition to the defined benefit plans, the Company and certain affiliated companies participate in health care benefit plans sponsored by Mutual for qualifying retirees, which are generally available to retirees who were full time who have attained age 55 and have at least 15 years of service with the Company. The Company's portion of the expense relating to these plans was \$37,111 and \$- for the years ended December 31, 2020 and 2019, respectively.

Note 14 – Contingencies**A. Contingent Commitments**

The Company has no commitments or contingent commitment to affiliates or other entities. As indicated in Note 10 E, the Company has made no guarantees on behalf of affiliates.

B. Assessments

1. The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessment or in the case of premium based assessments, at the time the premiums were written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

As of December 31, 2020 and 2019, the Company accrued a liability for guaranty fund and other assessments of \$24,562 and \$0, respectively. These represent management's best estimates based on information received from the states in which the Company writes business and may change due to many factors including the Company's share of the ultimate cost of current insolvencies.

Note 20 – Fair Value Measurements

A. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes assets and liabilities held at fair value in the statutory statements of assets and liabilities, surplus and other funds as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, London Interbank Offered Rate, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimates of the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

NOTES TO THE FINANCIAL STATEMENTS

Independent pricing services are most often utilized to determine the fair value of bonds and stocks for which market quotations or quotations on comparable securities are available. For these bonds and stocks, the Company obtains the pricing services' methodologies, pricing from additional sources, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix is used in valuing certain corporate bonds. The corporate pricing matrix was developed using publicly available spreads for privately placed corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when deemed appropriate or when quotes are not available from independent pricing services or a corporate pricing matrix. These bonds are classified with the lowest priority in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. At least annually, the Company performs reviews and tests to ensure that quotes are a reasonable estimate of the investments' fair value. Price movements of broker quotes are subject to validation and require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

The Company carries short-term investments at amortized cost, which approximates fair value.

The following table summarizes assets held at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Net Asset Value (NAV)		Total

Note 21 - Other Items

A. Unusual or Infrequent Items

On March 11, 2020, the World Health Organization declared COVID-19 a pandemic. The conditions as a result of the pandemic have and may continue to impact the Company's operations and financial condition. The extent to which the COVID-19 pandemic may impact the Company's operations and financial condition will depend on future developments which are evolving and uncertain.

B. Troubled Debt Restructuring for Debtors

Not applicable.

C. Other Disclosures

Property catastrophe occurrence reinsurance provides protection against loss and loss adjustment expense for large, single-event loss occurrences countrywide. For losses between \$500 million and \$750 million, the Company recovers approximately 78% of losses. For losses between \$750 million and \$3.2 billion, the Company recovers 88% of losses, a portion of which is covered through a catastrophe bond. For losses between \$3.2 billion and \$3.4 billion, the Company recovers 75% of losses. Following a single loss event over \$500 million, the retention would be reduced from \$500 million to \$250 million for a second loss event in the treaty year.

D. Business Interruption Insurance Recoveries

Not applicable.

Note 24 - Retrospectively Rated Contracts and Contracts Subject to Redetermination

A. Method Used to Estimate

The Company sells accident and health policies for which the premiums vary based on loss experience. Future premium adjustments for these retrospective policies are estimated and accrued. The Company estimates these accrued retrospective premium adjustments through the review of each individual retrospectively rated risk, comparing case basis loss development with that anticipated in the policy contracts to arrive at the best estimates of return or additional premiums.

B. Method Used to Record

The Company records retrospective premium accruals as earned by adjusting unearned premiums. These amounts are not recorded as premiums written until they are billed to the policyholders. Return premiums are recorded as liabilities and additional premiums are recorded as assets.

C. Amount and Percent of Net Retrospective Premiums

Net premiums written for the current year on retrospective accident and health policies were \$920, or 0.000% of accident and health premiums written.

D. Medical Loss Ratio Rebates

Note 25 - Changes in Incurred Losses and Loss Adjustment Expenses

A. As of December 31, 2019, loss and loss adjustment expense reserves, net of reinsurance recoveries, were \$0. On January 1, 2020, loss and loss adjustment expense reserves of \$141.9 million were transferred to the Company as a result of the pooling and quota share agreements that were effective January 1, 2020. See Note 26 for details. Payments for incurred claims and claim adjustment expenses attributable to insured events of prior years were \$55.9 million for the year ended December 31, 2020. As of December 31, 2020, remaining loss and loss adjustment expense reserves attributable to insured events of prior years were \$92.2 million. The Company experienced unfavorable prior-year development of \$6.2 million during the year ended December 31, 2020, primarily driven by higher than expected emergence in excess and surplus lines, standard auto and agribusiness.

B. During 2020, the Company did not make any significant changes in methodologies and assumptions used in calculating the liability for unpaid losses and loss adjustment expenses.

NOTES TO THE FINANCIAL STATEMENTS**Note 26 - Intercompany Pooling Arrangements**

NOTES TO THE FINANCIAL STATEMENTS

As of December 31, 2020, Colonial County Mutual Insurance Company and Victoria Select Insurance Company remain covered under separate 100% quota share reinsurance agreements with Nationwide Mutual Insurance Company. Nationwide Mutual Insurance Company then cedes 100% of this business to the Nationwide Pool.

As of December 31, 2020, Scottsdale Surplus Lines Insurance Company, Scottsdale Indemnity Company and Freedom Specialty Insurance Company remain covered under a separate 100% quota share reinsurance agreement with Scottsdale Insurance Company. Scottsdale Insurance Company then cedes 100% of this business to the Nationwide Pool.

In connection with the above pooling structure change effective January 1, 2020, assets and liabilities were transferred between Nationwide Mutual Insurance Company, Nationwide Agribusiness, Scottsdale Insurance Company, Nationwide Insurance Company of America and the Company. The Company received assets of \$46.4 million and liabilities of \$232.1 million, primarily consisting of loss and loss expense reserves of \$141.9 million and unearned premiums of \$77.2 million.

In addition, the Company received ceding commissions of \$135.5 million.

Furthermore, the Company paid securities of \$142.5 million and cash of \$29.6 million to settle these transactions.

Note 27 - Structured Settlements

A. Reserves Released due to Purchases of Annuities

The Company has settled certain losses with structured settlement agreements whereby the Company has purchased an annuity with the claimant as the payee. The structured settlement agreements are considered qualified assignments, and therefore the Company is not contingently liable if the annuity issuing company is unable to meet the payment obligations.

NOTES TO THE FINANCIAL STATEMENTS**Note 32 - Discounting of Liabilities for Unpaid Losses or Unpaid Loss Adjustment Expenses**

The Company discounts the liabilities for unpaid losses and loss expenses for long-term accident and health claims. The Company does not discount IBNR for accident and health claims. Third party administrators service the Company's long-term accident and health unpaid disability claims and supply the reserves and tabular discount; thus, different methodologies have been utilized.

A. Tabular Discounts

Reserves for long-term accident and health claims have been discounted on a tabular basis using the 1987 Commissioner's Group Disability Table (CGDT). The rate used was the maximum interest rate permitted by law in the valuation of a single premium immediate annuity issued on the same date as the claim incurrable date, reduced by one hundred basis points (rates used vary from 3.00% to 10.25%). As of December 31, 2020 and 2019, liabilities include \$5,881 and \$0 of such discounted reserves, respectively. During 2020, the Company recognized \$215 of interest accretion related to tabular discount, which is included within the Statement of Income on Line 2.

The table below represents the amount of tabular discount for case and IBNR reserves as of December 31, 2020:

NOTES TO THE FINANCIAL STATEMENTS**Note 33 - Asbestos/Environmental Reserves**

A. The Company has exposure to asbestos and environmental claims through either the direct issuance of general liability policies or through reinsurance assumptions. The Company estimates the full impact of its asbestos and environmental exposure by establishing case reserves when sufficient information has been developed to indicate the involvement of a specific insurance policy. In addition, incurred but not reported reserves have been established to cover additional exposures on both known and unasserted claims, primarily utilizing historical information.

The Company's asbestos and environmental related losses for calendar years 2016-2019 have been restated to reflect the pooling changes that were effective January 1, 2017, January 1, 2019 and January 1, 2020. See Note 26 for details.

30.4 Describe the sources or methods utilized in determining the fair values:

For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular fixed maturity security. Nationwide also utilized broker quotes to assist in pricing securities or to validate modeled prices.

31.1 Was the rate used to calculate fair value determined by a broker or custodian for any of the securities in Schedule D? Yes [X] No []

31.2 If the answer to 31.1 is yes, does the reporting entity have a copy of the broker's or custodian's pricing policy (hard copy or electronic copy) for all brokers or custodians used as a pricing source? Yes [] No [X]

31.3 If the answer to 31.2 is no, describe the reporting entity's process for determining a reliable pricing source for purposes of disclosure of fair value for Schedule D:

Nationwide relies on broker valuations only when an approved third party vendor evaluation is not available. Any exceptions are approved by Risk Management and the Middle Office and reviewed by the Investments Pricing Committee. The brokers used to value securities are deemed to be main market makers for each individual security and therefore have in depth knowledge of the particular issue.

32.1 Have all the filing requirements of the *Purposes and Procedures Manual of the NAIC Investment Analysis Office* been followed? Yes [X] No []
