B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the un-expired portion of premiums written. (1) Short-term investments

Short-term investments are stated at amortized cost.

(2) Bonds, mandatory convertible securities, and SVO-identified investments per SSAP No. 26R

Bonds not backed by other loans are stated at amortized cost using the straight-line method.

(3) Common stocks - Not Applicable

(4) Preferred stocks - Not Applicable

(5) Mortgage loans - Not Applicable

(6) Loan-backed securities

Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities.

(7) Investments in subsidiaries, controlled and affiliated entities - Not Applicable

(8) Investments in joint ventures, partnerships and limited liability companies - Not Applicable

(9) Derivatives - Not Applicable

(10) Investment income as a factor in the premium deficiency calculation

(11) Liabilities for losses and loss adjustment expenses

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience and actuarial input, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.

All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. These conclusions are based on each security's NAIC designation, a NRSRO credit rating, severity of unrealized loss and cash flow forecasting results. It is possible that the Company could recognize OTTI in the future on some of the securities, if future events, information and the passage of time cause it to conclude that declines in value are other-than-temporary.

20. Fair Value Measurements

A. Fair Value Measurement

The Company has categorized its assets and liabilities that are measured at fair value into three-level fair value hierarchy. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows.

Level 1 - Quoted Prices in Active Markets for Identical Assets and Liabilities: This category, for items measured at fair value on a recurring basis, includes exchange-traded preferred and common stocks. It also includes derivative liabilities for written call options on common stock which are also exchange traded. The estimated fair value of the equity securities and derivatives within this category are based on quoted prices in active markets and are thus classified as Level 1.

Level 2 - Significant Other Observable Inputs: This category for items measured at fair value on a recurring basis includes bonds, preferred stocks and common stocks which are not exchange-traded. The estimated fair values of some of these items were determined by independent pricing services using observable inputs. A. Unusual or Infrequent Items

The spread of COVID-19, which was declared by the World Health Organization to be a pandemic on March 11, 2020, and actions taken globally in response to it have disrupted business activities throughout the world. Since the beginning of the pandemic, the Company has closely monitored the impact of COVID-19 on all aspects of its business and operations. The Company has taken measures to continue operations to support and service our policyholders and agents with little to no disruption during this unprecedented period. To date, the underwriting results of our principal line of business, medical professional liability insurance, has been relatively unaffected by COVID-19. However, there remains a risk that labor shortages within the medical community affecting the quality of medical care, shortages of medical equipment, negligent transmission, failure to diagnose, and missed diagnoses may result in increased claims volume. Offsetting this potential risk, is that fact that many elective procedures were postponed or even cancelled, reducing the potential professional negligence claims during this period. Throughout 2020, the Company has been able to take premium rate increases where needed, while also adding new business. Some states have granted medical practitioners immunity from civil liability for injuries and/or deaths allegedly resulting from acts or omissions of the provider in the course of providing medical services in response to the COVID-19 outbreak, except in the case of gross negligence. The Company continues to monitor for adoption of similar measures by other states or at the federal level.

Additionally, through December 31, 2020, the Company has provided approximately \$108,000 of premium reductions on 16 policies as a result of reduced exposure associated with COVID-19 (e.g. office closures, cancelled elective procedures).

On March 27, 2020 the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted in response to the COVID-19 pandemic. The CARES Act includes tax provisions relevant to businesses that during 2020 will impact taxes related to 2018 and 2019. Some of the significant changes are reducing the interest expense disallowance for 2019 and 2020, allowing the five-year carryback of net operating losses for 2018-2020, suspension of the 80% limitation of taxable income for net operating loss carryforwards for 2018-2020, and the acceleration of depreciation expense from 2018 and forward on qualified improvement property. The Company is required to recognize the effect on the financial statements in the period the law was enacted, which is 2020. At this time, for the 2018 and 2019 tax years, the Company does not expect the impact of the CARES Act on the Company's financial position or results of operations to be material.

The Company does not underwrite Workers Compensation policies.

The Company's primary line of business is medical malpractice, and does not underwrite property risks. Thus, no calculation is made of a probable maximum loss.

Yes [] No [X]

(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [] No [X]
