ANNUAL STATEMENT FOR THE YEAR 2020 OF THE GRANGE INSURANCE COMPANY

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern:

A. Accounting Practices:

Grange Insurance Company (the "Company") prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by The Ohio Department of Insurance (the "Department"). The Department requires that insurance companies domiciled in the State of Ohio prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") subject to any deviations prescribed or permitted by the Department. The Company does not employ accounting practices that depart from the NAIC SAP, except for the NAIC's INT 20-08, a limited-time exception allowing the classification of policyholder credits related to COVID-19 as an other underwriting expense (Page 4, Line 4) instead of a reduction of premium (Page 4, Line 1) when a policy endorsement allowing for discretionary payments to policyholders due to COVID-19 related issues was filed, if required by the state, prior to June 15, 2020. This limited-time exception will expire on January 1, 2021.

In April 2020, after experiencing reduced losses as a result of less miles driven during the COVID-19 pandemic, the Company and its subsidiaries and its affiliate, Integrity Insurance Company ("IIC"), and its subsidiaries, the Grange Insurance Operations, announced a payback to all active personal auto and businessowners (BOP) policyholders, throughout all 13 operating states, in the form of a 25% and 20% premium payback, respectively, for the months of April and May. Where required, Grange Insurance Operations filed a policy endorsement, not a rate filing, and was subsequently approved for the paybacks which were paid to policyholders in a onetime check. As these paybacks would have conflicted with rate filings currently in place and would reduce premium taxes, agent commissions and other assessments, of which a return has not been requested, Grange Insurance Operations has treated these paybacks as an other underwriting expense (Page 4, Line 4) utilizing the limited-time exception accounting guidance under NAIC SAP INT 20-08; the Company's portion of the total expense was \$25,686,887, of which \$23,263,107 was for personal auto and \$2,423,780 was for BOP.

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below; the reconciliation illustrates that the permitted practice described above has no impact on either net income or surplus:

	SSAP #	F/S Page	F/S Line #	Amount (\$)	
				2020	2019
NET INCOME					
(1) Company state basis (Page 4, Line 20, Columns 1 & 2)	xxx	xxx	xxx	138,177,670	97,165,777
(2) State Prescribed Practices that increase/(decrease) NAIC SAP				0	0
(3) State Permitted Practices that increase/(decrease) NAIC SAP				0	0
(4) NAIC SAP (1-2-3=4)	xxx	xxx	xxx	138,177,670	97,165,777
SURPLUS					
(5) Company state basis (Page 3, Line 37, Columns 1 & 2)	xxx	xxx	xxx	1,504,940,733	1,447,843,924
(6) State Prescribed Practices that increase/(decrease) NAIC SAP				0	0
(7) State Permitted Practices that increase/(decrease) NAIC SAP				0	0
(8) NAIC SAP (5-6-7=8)	xxx	xxx	xxx	1,504,940,733	1,447,843,924

The following table illustrates the impact of reporting the paybacks as an other underwriting expense rather than a reduction of premium on the operating percentages and other percentages reported in the five-year historical data exhibit (Pages 17-18):

	Paybacks as an Other Underwriting Expense	Paybacks as a Reduction of Premium
Operating Percentages		
Net premiums earned	100.0	100.0
Net losses incurred	48.3	49.3
Net loss adjustment expenses incurred	9.9	10.1
Other underwriting expenses incurred	33.3	31.9
Net underwriting gains	8.5	8.7
Other Percentages		
Other underwriting expenses to net premiums written	32.4	31.0
Losses and loss expenses incurred to premiums earned	58.2	59.5
Net premiums written to policyholders' surplus	84.5	82.8

B. Use of Estimates in the Preparation of the Financial Statements:

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy:

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost, which approximates fair value.
2. Bonds not backed by other loans are stated at amortized cost using the scientific method. Securities Valuation Office ("SVO") identified investments in SSAP 26R are stated at fair value.
3. Common stocks, other than investments in stocks of subsidiaries, are stated at fair value.
4. Preferred stocks are stated at cost.
5. The Company has no investments in mortgage loans.
6. Loan-backed securities are stated at either amortized cost or the lower or amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, those are valued using the prospective method.
7. Investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the statutory equity basis.
8. The Company has minor investments in joint ventures. The Company carries these interest based on the underlying audited GAAP equity of the investee.
9. The Company has no investments in derivative instruments.
10. The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. 12. Retirement Plans, Deferred Compensation, Postemployment Benefits and Compensated Absences and Other Postretirement Benefit Plans:

Effective April 1, 2019, the qualified defined benefit pension plans of the Company and IIC were merged together under the Company and were subsequently moved, via dividend, to the parent company, GHI, who will be the sponsor of the consolidated qualified defined benefit pension plan ("Plan") moving forward. The Plan was currently fully funded as of December 31, 2020 and 2019, with no contributions in 2020 or 2019. As a result, all costs associated with this plan are held at GHI. If the Plan is underfunded in future periods and contributions into the Plan are required, the cost of those future contributions will be allocated via the pooling agreement.

There are two nonqualified plans also sponsored by GHI.

The postretirement healthcare benefit plan ("Postretirement Plan") is still sponsored by the Company and all annual costs for 2020 are shared via the pooling

agreement. In August 2020, the Company announced the following changes to the Postretirement Plan: 1) benefits provided under the Postretirement Plan will be terminated for any active associate participating in the Postretirement Plan who has not yet reached 50 years of age by December 31, 2020 and 2) the Company will no longer self-insure healthcare benefits provided to retirees who are age 65 or older, with coverage for those participants instead moving to Medicare exchanges with Health Reimbursement Accounts ("HRA") effective January 1, 2021. The Company's policy is to pay the cost of the HRA (previously the benefits) with cash flows from current operations; therefore, there were no Postretirement Plan assets as of December 31, 2020 or 2019. The Company uses a December 31 measurement date for the Postretirement Plan.

E. Defined Contribution Plan:

The Company sponsors a defined contribution plan that covers all full-time employees ("DC Plan") in which newly hired employees who have not made an election whether to participate or not are automatically enrolled with a 6% of base pay contribution rate following thirty days of employment. The Company contributes a 50% match of each participant's contributions that does not exceed 6% of compensation. Such contributions made by the Company were approximately \$2.8 million in both 2020 and 2019.

The DC Plan also provides that additional employer contributions (as defined) may be made in such amounts as determined by the Board. Additional employer contributions were approximately \$1.3 million and \$0.4 million in 2020 and 2019, respectively.

All employee contributions to the DC Plan are 100% vested at all times. All employer matching and additional employer contributions are 100% vested after a participant has completed 2 years of service with the Company. There were no amendments to the DC Plan during the years ended December 31, 2020 and 2019.

In addition to the DC Plan described in the preceding paragraphs, the Company offers a defined contribution plan, referred to as Retirement Accumulation Accounts ("RA Account"), to employees of the Company who are hired on or after January 1, 2007, as they are not eligible to participate in the Plan sponsored by GHI. Employer contributions to the RA Accounts become 100% vested upon the employee completing three years of credited service. The Company contributed approximately \$2.1 million and \$1.9 million to the eligible participants' RA Accounts in 2020 and 2019, respectively.

Effective January 1, 2021, the sponsorship of the DC Plan will move from the Company to GHI. The DC Plan will still cover all full-time employees in which newly hired employees who have not made an election whether to participate or not are automatically enrolled at a 6% of base pay contribution rate following thirty days of employment. The Company's matching contribution will increase to be a 100% match (from 50% previously) of each participants contributions that do not exceed 6% of compensation for employees who are not eligible to participate in the Plan and a 50% match of each participants contributions that do not exceed 6% of compensation for employees who are eligible to participate in the Plan. The DC Plan will still provide that additional employer contributions (as defined) may be made in such amounts as determined by the Board. Additionally, with the change in the DC Plan, the RA Account will no longer be contributed to beyond 2020 the benefit earned by participants in 2020.

F. Multiemployer Plan: Not Applicable

NOTES TO FINANCIAL STATEMENTS

G. Consolidating/Holding Company Plans:

As discussed above, in 2019, sponsorship of the Plan was transferred to GHI. The Plan covers full-time employees of the Company and IIC that were hired on or before December 31, 2006 and June 30, 2008, respectively. Under the terms of the Plan, participants are eligible to receive normal retirement benefits upon reaching age 65. A participant may elect an early retirement date at a reduced benefit upon reaching age 55 and completing 5 years of credited service. Under the provisions of the Plan, benefits are determined by applying factors specified in the Plan to a participant's defined average monthly compensation. GHI uses a December 31 measurement date for the Plan. GHI's funding policy is to annually contribute into the Plan an amount equal to the minimum required contribution per IRS rules and regulations, plus any discretionary amount deemed appropriate. As of December 31, 2020, the Plan was fully funded, and no contribution is expected to be made in 2021. If the Plan is underfunded in future periods and contributions into the Plan are required, the cost of those future contributions will be allocated between the Company and GIC proportionately based on the remaining participants in the Plan. The Plan's total net periodic benefit cost recorded by GHI in 2020 and 2019 was \$3.6 million and \$4.5 million, respectively.

As a supplement to the benefits provided under the Plan, GHI sponsors a supplemental defined benefit pension plan (the "Supplemental Plan") for certain highly compensated employees (as defined). GHI's policy is to pay the cost of benefits with cash flows from current operations; therefore, there were no Supplemental Plan assets as of December 31, 2020 or 2019. The net periodic benefit cost recorded by GHI in 2020 and 2019 was \$38 thousand and \$43 thousand, respectively.

GHI also sponsors a defined benefit pension plan (the "Board Plan"), for non-employee members of the Board who were first elected to the Board on or before January 1, 1996. GHI's policy is to pay the cost of benefits with cash flows from current operations; therefore, there were no Board Plan assets as of December 31, 2020 or 2019. The net periodic benefit cost recorded by GHI in both 2020 and 2019 was \$0.2 million.

H. Postemployment Benefits and Compensated Absences:

The Company believes there are no insolvencies that will have a material financial impact on the results of the Company. This amount includes assessments against all companies discussed in Note 1C.

3. The Company's policy is to recognize transfers in and out as of the end of the reporting period.

4. As of December 31, 2020, the reported fair value of the entity's investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

Bonds – According to statutory accounting rules, fixed income securities with a rating of NAIC 1 or 2 are reported at amortized cost. Securities with a rating of NAIC 3 thru 6, or non-investment grade ratings, are measured and reported at the lower of amortized cost or fair value on the statement of financial position. At the end of every quarter and at year end, the Company utilizes fair values provided by its custodian. Fair value is determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, credit spreads, interest rate yield curves, and other market-observable information. Thus, fixed income securities measured and reported at fair value are included in the amounts disclosed in Level 2 of the hierarchy.

Common Stocks, Industrial & Misc. – According to statutory accounting rules, common stocks are reported at fair value. The Company holds two positions not actively traded. One represents membership in National Association of Mutual Insurance Company and is valued by the SVO. The other represents membership with FHLB of Cincinnati. Therefore, these securities are included in level 2.

Parent, Subsidiaries, and Affiliates – The Company's investments in four subsidiaries are measured and reported at fair value, as of December 31, 2020 for each respective entity, totaling \$234.4 million. Fair value measurement is determined by the individual entity's surplus at the end of a period, or the amount by which assets exceed liabilities. All subsidiaries are in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent payables related to current federal income taxes and deferred taxes. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement and result in disclosure at Level 3.

E. Investments Measured using NAV:

Mutual Funds

BMO Pyrford International Stock Fund (\$68.7 million) – The fund seeks capital appreciation by investing in equity securities of companies located in a number of countries outside the United States. The fund may meet redemption requests by redeeming shares in-kind, especially in stressed market conditions, although the fund does not intend to do so.

DFA International Core Equity Portfolio (\$73.1 million) – The portfolio purchases a broad and diverse group of securities of non-U.S. companies in developed markets with a greater emphasis on small capitalization, value and high profitability companies as compared to their representation in the international universe. The portfolio reserves the right to meet redemption requests through an in-kind redemption, typically in response to a particularly large redemption, at the request of a client or in stressed market conditions.

TCW Emerging Markets Income Fund (\$98.0 million) – The fund invests primarily in debt securities issued or guaranteed by companies, financial institutions and government entities in emerging market countries. The fund reserves the right to make a "redemption in kind" (payment in portfolio securities) rather than cash if the amount redeemed in any 90-day period is large enough to effect fund operations.

Transamerica International Equity Fund (\$71.9 million) – The fund seeks maximum long-term total return, consistent with reasonable risk to principal, by investing in a diversified portfolio of common stocks of primarily non-U.S. issuers. Shares will normally be redeemed for cash, although each fund retains the right to wholly or partly redeem its shares in kind, under unusual circumstances (such as adverse or unstable market, economic, or political conditions), in an effort to protect the interests of shareholders by the delivery of securities selected from its assets at its discretion.

Other Invested Assets

Eaton Vance Institutional Senior Loans Fund (\$96.8 million) – The Fund's investment objective is to provide as high a level of current income as is consistent with the preservation of capital, by investing in a portfolio primarily of senior floating-rate loans. The Company does not have any unfunded commitments as of December 31, 2020. Redemption requests must be for amounts of \$100,000 or more. Upon commencement of redemption privileges, a Shareholder may redeem its Shares upon advance written notice to the Fund pursuant to the following schedule: for amounts up to one-third of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than thirty (30) days after the Fund receives the redemption request (the "Notice Date"); for amounts up to two-thirds of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than sixty (60) days after the Notice Date; and for amounts greater than two-thirds of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than ninety (90) days after the Notice Date. For the avoidance of doubt, a Notice Date must be a day on which the NYSE is open for trading. Notwithstanding the foregoing, if cash is available to pay redemption

requests sooner than hereinbefore provided, the Fund may do so to remain more fully invested. Redemption proceeds will equal the net asset value of Shares redeemed on the date of redemption and will be paid by wire.

Q-Black Appreciation Fund II (\$23.3 million) – The Fund's objective is to provide its investors with capital appreciation while endeavoring to minimize corresponding risk. The Fund seeks to achieve its objective through direct and/or indirect investments that pursue a variety of investment strategies. The Company does not have any unfunded commitments as of December 31, 2020. A Committed Interest Member may withdraw its capital on the third anniversary of the end of the fiscal quarter in which the contribution was made, with at least 370 days written notice. On each 3-year anniversary any committed capital account that is not withdrawn will automatically be re-committed for an additional 3-year lock-up period. In the event the Managing Member permits a withdrawal prior to the lapse of 3 years, the member shall be assessed an early withdrawal fee. Members may convert all or a portion of their capital account to a Standard Interest Member with shorter lock-up periods.

Goldentree Partners, LP (\$14.0 million) – The principal investment objective of the Partnership is to achieve superior risk-adjusted total returns by investing, directly or through its investment in the Master Fund, primarily in public and private non-investment grade and non-rated debt securities. Securities and other instruments acquired by the Partnership may include, but are not limited to, all types of debt obligations including bank debt, public and private equity, options, swaps, and real estate related instruments. The Partnership may acquire the foregoing instruments through the Master Fund, directly, or indirectly through investments in securitizations, structured financings, special purpose vehicles or other collective investment vehicles, some of which may be managed by the Investment Manager or its affiliates. The Company does not have any unfunded commitments as of December 31, 2020. Each limited partner upon 90 days' notice has the right to withdraw all or any portion of their capital account (excluding its pro rata share in any Special Investments) subject to the lock up provisions in which the class the Company is an investor (Class F) has a lock-up period of 1 year with semi-annual withdrawal frequency after the lock-up period.

Goldentree Partners II, LP (\$0.8 million) – Effective February 22, 2017, the General Partner, in consultation with the Investment Manager, authorized the commencement of the wind down of the Partnership. On March 31, 2017, the Partnership sold all of its securities, excluding Special Investments, to funds affiliated with the Investment Manager, and redeemed its investment in the Master Fund. All partners' interests were redeemed with the exception of interests associated with Special Investments. Prior to liquidation, the principal investment objective of the Partnership was to achieve superior risk-adjusted total returns by investing primarily in public and private non-investment grade and non-rated debt securities. Securities and other instruments acquired by the Partnership may include, but are not limited to, all types of debt obligations, including bank debt, public and private equity, options, swaps and real estate related instruments. The Company does not have any unfunded commitments as of December 31, 2020. All partners' interests were redeemed with the exception of interests associated with Special Investments and no further subscriptions or redemption requests will be accepted.

Updata Venture Partners II, LP (\$0.2 million) – The primary objective of the Partnership is to achieve returns for their partners by investing in equity and equity-related securities in privately negotiated transactions, across the full investment life cycle, in the information technology industry. The Company does not have any unfunded commitments as of December 31, 2020. No transfer of a Limited Partner's interest in the Partnership, in whole or in part, shall be made without prior written consent of the General Partner. Consent, which will not be unreasonably withheld or delayed, shall be required for any transfer of part or all of any Limited Partner's economic interest in the Partnership.

21. Other Items:

A. Unusual or Infrequent Items:

The Grange Insurance Operations issued paybacks to personal auto and BOP policyholders in the second quarter of 2020 in response to the expected reduction in loss frequency and the financial hardships encountered as a result of the COVID-19 pandemic. In accordance with NAIC SAP INT 20-08, the paybacks were included in other underwriting expenses incurred on Page 4, Line 4, see Note 1A.

The Company's expense ratio was adversely impacted by the paybacks as was bad debt expense arising during the pandemic related to our billing leniency efforts, such as suspending cancellations, non-renewals for non-payments and pausing collection activities (Page 4, Line 12).

B. Trouble Debt Restructuring: Not applicable

C. Other Disclosures:

The Company utilizes a variety of catastrophe mitigation techniques including exposure management, catastrophe modeling, transfer of risk via reinsurance and claims staff preparation. Exposure management includes active management of exposures and loss potentials such as monitoring of changes in insured values, peril avoidance, pricing actions and/or agency realignments. The Company primarily relies on two probabilistic catastrophe models to identify PML and TVaR estimates on an annual basis. A deterministic model augments this effort. The Company has a comprehensive catastrophic reinsurance program in place and we currently purchase coverage up to our 250-year event outcome. The Company places an emphasis on settlement of claims by Company personnel and these associates receive ongoing training on property claims practices.
