## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies

#### A. Accounting Practices

The financial statements of Western Reserve Mutual Casualty Company (WRMCC) are presented on the basis of accounting principles prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under Ohio Insurance Law. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

The financial statements of the Company are presented solely on the basis of accounting principles prescribed by the Ohio Department of Insurance. As such, there are no increases or decreases to net income nor surplus on a statutory accounting basis as shown by the reconciliation below:

	State of Domicile	2020	2019

(4) NAIC SAP (5-6-7=8)		<u>\$ 125,360,398</u>	<u>\$ 120,358,337</u>

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short—term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method; U.S. Treasury Inflation—Indexed bonds are stated at amortized cost adjusted for unrealized inflation factor gains. Bonds rated at 3 or below by the NAIC are stated at the lower of cost or fair market value.
- (3) Common stocks are stated at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis. Fair values were determined from year-end market valuation.
- (4) The Company has no preferred stocks.
- (5) The Company has no mortgage loans.
- (6) The Company has no loan—backed securities.
- (7) The Company carries investments in subsidiaries, Forward Agencies, Inc. and Western Reserve Financial Corporation, at statutory equity as reported on Schedule D; these assets are reported as nonadmitted on page 2, column 2.

## NOTES TO FINANCIAL STATEMENTS

- (8) Other invested assets consist primarily of investments in limited liability companies. Underlying investments primarily include hedge funds, private equity funds and emerging market and private debt funds. Interests are reported using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Realized gains and losses are generally recognized through income at the time of disposal or when operating distributions are received.
- (9) The Company has no derivatives.
- (10) The Company does not utilize anticipated investment income in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company has no pharmaceutical rebate receivables.

## NOTES TO FINANCIAL STATEMENTS

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 months	\$ (765)
2. 12 months or Longer	\$ --

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months	\$ 438,266
2. 12 months or longer	\$ --

5. The Company reviews all loan-backed and structured securities in which the fair value of a given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security.

If the severity and duration of the security's unrealized loss indicates a risk of other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

### 20. Fair Value Measurements

A. The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by FASB ASC 820 (SFAS No. 157), *Fair Value Measurements*. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

## NOTES TO FINANCIAL STATEMENTS

### *Level 1:*

Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

### *Level 2:*

Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

### *Level 3:*

Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

### 21. Other Items

A. Unusual or Infrequent Items

During 2020, equity and financial markets experienced significant volatility and interest rates have continued to decline due to the COVID-19 pandemic. Additionally, there is uncertainty with respect to potential state and/or federal legislative actions impacting property and casualty insurance coverages. Furthermore, insured risks like personal auto and commercial auto as well as commercial property and liability have significantly changed and, in some cases, been reduced in the COVID-19 environment, and insurance organizations are evaluating premium refunds and other measures as the risks evolve. In response to COVID-19 and certain reductions in claim activity, the Company instituted a premium rate revision program for new and renewal personal auto business that was effective July 1, 2020. The impact of these revisions was an average rate decrease of 5%.

On March 27, 2020, H.R. 748, the Coronavirus Aid, Relief, and Economic Security Act, "the CARES ACT", was signed into legislation which includes tax provisions relevant to businesses that during 2020 will impact taxes related to 2018 and 2019. Some of the significant changes are reducing the interest expense disallowance for 2019 and 2020, allowing the five year carryback of net operating losses for 2018-2020, suspension of the 80% limitation of taxable income for net operating loss carryforwards for 2018-2020, and the acceleration of depreciation expense from 2018 and forward on qualified improvement property. The Company is required to recognize the effect on the financial statements in the period the law was enacted, which is 2020. The impact of the CARES ACT on the Company's financial position or results of operations was not material.

## NOTES TO FINANCIAL STATEMENTS

### 25. Changes in Incurred Losses and Loss Adjustment Expense

Reserves as of December 31, 2019 were \$39.6 million. During 2020, \$17.5 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$19.4 million as a result of re-estimation of unpaid claims and claim adjusting expenses. Therefore, there has been \$2.7 million of favorable prior year development from December 31, 2019 to December 31, 2020. Favorable development in auto physical damage, commercial multi-peril, commercial auto liability, and personal auto liability lines of insurance were offset, in part, by unfavorable development in homeowners/farmowners lines of insurance. The re-estimation is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.
