B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

- (1) Basis for Short-Term Investments
Short term investments are stated at fair value, which approximates cost.
- (2) Basis for Bonds and Amortization Schedule
Bonds (NAIC designations 1 & 2) are stated at amortized cost using the effective interest method. Bonds designated 3 to 6 are carried at the lower of amortized cost or fair value.
- (3) Basis for Common Stocks
Common stocks are stated at market.
- (4) Basis for Preferred Stocks
Not Applicable
- (5) Basis for Mortgage Loans
Not Applicable
- (6) Basis for Loan-Backed Securities and Adjustment Methodology
Loan backed securities are stated at amortized cost or the lower of amortized cost or fair market value, using the interest method. The retrospective method is used to value all securities except for interest only securities, which are valued using the prospective method.
- (7) Accounting Policies for Investments in Subsidiaries, Controlled and Affiliated Entities
Investments in Subsidiary, Controlled or Affiliated companies are valued based on the statutory equity of the related entity.
- (8) Accounting Policies for Investments in Joint Ventures, Partnerships and Limited Liability Entities
Not Applicable
- (9) Accounting Policies for Derivatives
Not Applicable
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation
Not Applicable
- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses
Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. There are various methods used to estimate reserves and due to the general volatility, judgement is applied within our methods and selections. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period

Note 2 – Accounting Changes and Corrections of Errors

Historically, the Company has taken credit on Schedule F Part 3 for the impact of the protection from its retroactive reinsurance agreement with National Indemnity Company (NICO). This impact was reported in the form of other collateral on Schedule F Part 3 for the balances that inure to the NICO cover. During the course of the financial examination by the Ohio Department of Insurance, it was determined that the Company had continued to take credit on Schedule F Part 3 for the protection the retroactive reinsurance cover provided without recognizing that the penalty being absorbed by the cover started to exceed the remaining limit on the retroactive agreement. The 2019 Annual Statement has been amended to reflect the impact of the Schedule F penalty on the remaining ceded balance associated with the NICO cover. This balance is reported on the write-in line on the balance sheet as an offset to the retroactive reinsurance ceded balance with the current year change in that balance reflected in the write in line on the income statement. The impact for 2018 was reflected as a write in to the 2019 Surplus.
