Notes to Financial Statements

- C. The Company had no unusual items to disclose.
- D. Not applicable.
- E. The Company has no state tax credits.
- F. Subprime-Mortgage-Related Risk Exposure

1. The Company considers a number of factors when determining exposure to subprime mortgages and the risk that this presents to the portfolio. For classification purposes, the Company evaluates the percentage of loans by current balance with a credit score of 700 or lower. In addition, the Company considers loans with characteristics that might elevate the risk including low or limited documentation loans, investor loans, high LTV loans, NonQM loans, and those with other similar characteristics. The Company does not currently hold any bonds that have experienced principal loss due to default on the underlying loans.

The Company employs a number of strategies to mitigate risk exposure to subprime mortgages. First, the current holdings only have exposure to loans that are considered “legacy”. This means that they have been outstanding since before the financial crisis of 2007-2008. Therefore, the borrowers have a long history of over 10 years of making their mortgage payments. Second, the credit enhancement of the securities is high and growing. In all cases, the credit enhancement of the current holdings is multiples of any delinquent loans in the pools. This indicates an ability to withstand a significant increase in stress on the underlying loans and still pay off with zero losses.

Type I – Recognized Subsequent Events

The large-scale COVID-19 pandemic has not yet impacted the Company's workforce or business operations, but may cause disruptions in commerce and economic activity if the pandemic expands over an extended period of time.

Type II – Nonrecognized Subsequent Events

On January 1, 2020, the Company was subject to an annual fee under section 9010 of the Affordable Care Act (ACA). This annual fee was allocated to individual health insurers based on the ratio of the amount of the entity's net premium written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. As of January 1, 2021, the ACA assessment has been repealed.

25. Change in Incurred Claims and Claim Adjustment Expenses

- A. Reserves as of December 31, 2019 were \$9,452,691. As of December 31, 2020, \$8,532,868 had been paid for incurred claims and claim adjustment expense attributable to insured events of prior years. Remaining reserves for prior years are now \$172,623 as a result of re-estimation of unpaid claims and claim adjustment expenses. Therefore, there has been a \$747,200 favorable prior-year loss development since December 31, 2019 to December 31, 2020. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims. The business to which this relates does not include retrospectively rated policies, therefore there was no return premium accrued as a result of the prior year effects.
