CINCINNATI EQUITABLE LIFE INSURANCE COMPANY
Exhibit 5 interrogatories related to Determination Procedures for Dividends
For the Year Ended December 31, 2020

Process of Dividend Determination

The Company's participating business block is quite small with less than 100 policies inforce and less than \$600 dividends paid during 2020. All the policies were issued prior to 1968. The Company has not changed the dividend scale in more than twenty years and does not have any documentation on the determination of the current dividend scale.

Description of Experience Factors

As noted previously, the derivation of the current dividend scale is not documented so it is not possible to comment on the impact of experience factors on the current dividend scale.

Interrogatories

I. Has the contribution principle been followed in determining the dividends or refunds? If not, describe.

Since there is no record of how the current dividend scale was developed over twenty years ago, it is not possible to say if the contribution principle was followed in determining the dividends.

II. Has any material change occurred with respect to the determination of contract factors? If yes, describe.

No dividend factor changes have occurred in the last twenty years.

III. Have there been any changes in the scales of dividends or refunds on new or existing business authorized for illustration by the reporting entity? If yes, describe in general the changes that were made.

During 2020, the Company did not change the illustrated dividend scale.

IV. Have there been any changes in the scales of dividends or refunds apportioned for payment? If yes, describe in general the changes that were made.

During 2020, the Company did not change the dividend scale for dividends payable in 2020 and later.

V. For each major block of business, indicate when the dividend or refund scale was last changed (including changes described in IV, above), and indicate the extent of such change in terms of the percentage by which dividends or refunds payable under the new scaled exceeded or were less than those that would have been paid in the year of change had the scale not been changed.

The dividend scale has not been changed in more than twenty years.

VI. Does the dividend or refund scale incorporate the use of projections or forecasts of experience factors for any period in excess of two years beyond the effective date of the scale? If yes, describe.

No, the current dividend scale does not incorporate the use of projections or forecasts of experience factors for any period in excess of two years beyond the effective date of the scale.

VII. In the basis of determining investment income experience factors, state whether the reporting entity uses (a) a portfolio average approach, (b) an investment generation approach, or (c) a combination of the two approaches. If (b) or (c), describe the general basis used, including the issue year groupings.

It is unknown which type of investment income experience factors were used in determining the current dividend scale.

VIII. With respect to contract loan provisions:

Describe how differences in such provisions affect dividends or refunds.

Does the dividend or refund scale contain any provision for varying the amount of dividend or refund in accordance with the extent to which an individual contract's loan provision is utilized? If yes, indicate the blocks of business where this treatment pertains, and describe the basis of variation used.

The company does not explicitly reflect policy loans in their dividend determination process.

IX. Does the reporting entity pay termination dividends or refunds on its contracts?

The Company does not pay termination dividends on its policies.

X. Does the reporting entity maintain separate participating and non-participating accounts? If yes, describe the basis.

The Company does not maintain separate participating and non-participating accounts.

XI. Are any transfers made from a participating account to another participating, non-participating, or shareholders' account? If yes, describe the basis for the transfers.

No transfers are made since separate accounts are not maintained.

XII. Does the undersigned believe there is a substantial probability that, because of expected deterioration of experience or for any other reason, the dividends or refunds illustrated on new or existing business cannot be supported for at least two years? If yes, explain why.

No.

XIII. Describe any aspects of the determination of the dividend or refund scale not covered above that involve material departures from the Actuarial Standards of Practice issued by the Actuarial Standards Board applicable to the determination of dividends or refunds.

The dividend scale was determined over 20 years ago and the basis of its determination is unknown and therefore cannot be commented upon.

XIV. Describe any material changes in the basis of determination of the dividend or refund scale that are not covered above.

None.

STATEMENT OF ACTUARIAL OPINION
CONCERNING POLICYHOLDER DIVIDENDS OF
CINCINNATI EQUITABLE LIFE INSURANCE COMPANY
For the Year Ended December 31, 2020

I, Jared Meehan, Life Actuary & Manager, am an employee of Farm Bureau Life Insurance Company of Michigan and a member of the American Academy of Actuaries. I am the appointed actuary for Cincinnati Equitable Life Insurance Company and have been involved in the preparation of Cincinnati Equitable Life Insurance Company's Annual Statement. I meet the Academy qualification standards for rendering the opinion. Cincinnati Equitable has less than 100 participating policies in force. All these policies were issued prior to 1968. During 2020, the company paid less than \$600 in dividends on their participating policies. The dividend scale for these policies has not been changed in over twenty years and the documentation of the derivation of the current dividend scale is not available. Given the size of the participating policies block of business and the lack of information regarding the derivation of the current dividend scale, I have not been able nor do I feel it practical to examine the actuarial assumptions and methods used in determining dividends under the dividend scale for the individual participating life insurance policies of the company issued for delivery in the United States. The dividends encompassed by this scale include:

- i. Apportioned for payment during 2021; and
- ii. in effect as of January 1, 2021 that are illustrated for payment on new or existing business in 2022 and later that are authorized for illustration by the company.

I relied upon Gregory A Baker, Chief Financial Officer, Cincinnati Equitable Life Insurance Company, as to the accuracy and completeness of the participating policies in force and the dividend determination procedure, illustration practices, and actual current dividends.

As noted previously, given the immaterial size of the block of participating policies and lack of information concerning the derivation of the current dividend scale, it is not considered necessary to perform the normal examination and review of the actuarial assumptions and methods, of the underlying basis records relevant to the determination of the dividends specified above, and such tests of actuarial calculation. Therefore in my opinion, I do not feel it necessary to state that these dividends, described above, have been determined in accordance with the Actuarial Standards of Practice issued by the Actuarial Standards Board applicable to the determination of dividends.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Cincinnati Equitable Life Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual, version effective January 1, 2020, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The State of Ohio has not adopted any prescribed or permitted practices that differ from NAIC SAP.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized cost using the interest method.
The Company does not hold any SVO Identified Bond ETFs on Schedule D-1.
- (3) Common Stocks at market except that investments in stocks of uncombined subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the equity basis.
- (4) Preferred stocks are stated in accordance with guidance provided in SSAP No. 32.
- (5) Mortgage loans on real estate are stated at the aggregate carrying value less accrued interest
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative; these are valued using the prospective method.
- (7) The Company owns 100% of the outstanding stock of Cincinnati Equitable Insurance Company, an Ohio domiciled property casualty insurance company. The stock of Cincinnati Equitable Insurance Company was contributed to the Company by their common parent Cincinnati Equitable Companies, Inc. in 2007.
- (8) The Company has no interest in Joint Ventures.
- (9) All derivatives, if any, are stated at fair value.
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmaceutical rebate receivables - None

D. Going Concern

The Company has no Going Concern issues.
