NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Excess Share Insurance Corporation (the Company, or ESI) are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department and in accordance with the NAIC Statutory Principles (NAIC SAP). All of the Company's significant statutory accounting practices are prescribed practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

In March 2020, the World Health Organization declared a global pandemic related to the outbreak of a respiratory illness caused by the coronavirus, COVID-19. Related impacts and disruptions are being experienced in the geographical areas in which we operate, and the ultimate duration and intensity of this global health emergency is unclear. Given the dynamic nature of the emergency, its impact on the Company's operations, cash flows, and financial condition cannot be reasonably estimated at this time.

C. Accounting Policy

No significant changes for 1,3,4,5,7,8 and 9

(2). Investments – The Company accounts for its investments in bonds at amortized cost. Bonds consist of obligations issued and guaranteed by the U.S. Government or its agencies. The Company utilizes the level-yield method to amortize premiums and accrete discounts over the stated maturity period of the related investment and is reported in net investment income.

Gains or losses on investments sold are based on the specific identification method and are included in investment income net of tax. Investment purchases and sales are recorded on the trade date. Interest income is accrued when earned.

The Company employs a systematic methodology that considers available evidence in evaluating potential other-than-temporary impairment of investments. In the event that the cost of an investment exceeds its fair value, the Company evaluates, among other factors, the magnitude and duration of the decline in fair value; the financial health of and business outlook for the issuer; changes to the debt rating of the issuer, or specific security, by a rating agency; and the performance of the underlying assets. For debt investments, the ability and intent to hold the security, and the probability that the Company will be unable to collect all amounts due according to contractual terms of a debt security in effect at the date of acquisition is assessed. Once a decline in fair value of an investment security is determined to be other than temporary, an impairment charge is recorded to net realized capital gains and losses, in the statement of income, and a new cost basis in the investment is established.

(6). Federal Income Taxes – The Company files a Federal income tax return separate from its Parent. The total income taxes of \$140,000 was paid during 2020 (none for 2021).

The Company accounts for deferred income taxes using the asset and liability method, which requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of events that have been included in the financial statements. Deferred tax assets that are not anticipated to be realized within three years are treated as non-admitted assets in the accompanying statutory-basis financial statements. All of the Company's deferred tax assets (\$522,000 at March 31, 2021 and December 31, 2020, relating primarily to its reserve for guaranty losses) are treated as non-admitted assets.

D. Going Concern

Based upon an evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

NOTE 19 Direct Premium Written/Produced by Managing General Agents/Third Party Administrators - Does not apply.

NOTE 20 Fair Value Measurements

- A. (1) Fair Value Measurements at Reporting Date
With regard to the Company's financial assets that are disclosed at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, the Company uses various valuation approaches, including quoted market prices and discounted cash flows. The Accounting Standards Codification ("ASC") and SSAP No. 100 "Fair Value Measurement" establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are obtained from independent sources and can be validated by a third party, whereas, unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability. The fair value hierarchy is broken down into three levels based on the reliability of inputs as follows:

NOTES TO FINANCIAL STATEMENTS

Level 1 - Valuations based on quoted prices in active markets for identical instruments that the Company is able to access. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

Level 2 - Valuations based on quoted prices in active markets for instruments that are similar, or quoted prices in markets that are not active for identical or similar instruments, and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets.

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Reclassification of certain financial instruments may occur when observability of inputs change. There were no transfers between assets carried at fair value classified within Level 1 and Level 2 of the fair value hierarchy during the periods ended March 31, 2021 and December 31,2020.

There were no purchases, sales, transfers into, or transfers out of assets carried at fair value and classified within Level 3 of the fair value hierarchy during the periods ended March 31, 2021 and December 31, 2020.

The Company does not have any material financial assets or liabilities carried at fair value.

There were no assets or liabilities measured and reported at fair value on a non-recurring basis in 2021 or 2020.

Fair Value of Financial Instruments:

The following methods and assumptions were used to estimate the fair value of financial instruments.

Level 1 - Financial assets include cash and cash equivalents. Unadjusted quoted prices for these securities are provided by an independent pricing service.

Level 2 - Financial assets include US Treasury and US Government agency bonds. Prices are provided using third-party pricing services, such as model-based pricing methods that utilize observable market data as inputs. Broker-dealer bids or quotes of securities with similar characteristics may also be used.

NOTE 23 Reinsurance - Does not apply.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination - Does not apply.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

The Company writes only one line of business, "Other" (excess share insurance) and sets loss reserves on a prudent basis for potential claims events. Excess insurance claims events are infrequent (rare) but potentially severe and as a result, upon consultation with the Company's independent actuary, the Company provides annual loss reserve additions so that cumulative loss reserves are within an actuarially accepted range. Further, since the Company has no specific loss events identified, for which a loss reserve would normally be established, all of the Company's loss reserves are unallocated IBNR loss reserves. As a result, for purposes of Schedule P, in any given year the cumulative loss reserves held are considered to have occurred as follows: (1) 60% in current year; (2) 30% in the previous year; and (3)10% in the second previous year and have been allocated as such in Schedule P, which is comparable to methods used by other insurance companies with infrequent claims events. Since claims events are rare (infrequent but potentially severe), the typical year shows favorable development. A summary of the favorable loss development for the Company's single line of business ("Other") follows (dollars in thousands):

NOTE 26 Intercompany Pooling Arrangements - Does not apply.

NOTE 27 Structured Settlements - Does not apply.

NOTE 28 Health Care Receivables - Does not apply.

NOTE 29 Participating Policies - Does not apply.

NOTE 30 Premium Deficiency Reserves

The Company provides deposit insurance to participating credit unions generally for up to \$250,000 in excess of the insurance limit imposed by the credit union's primary insurer. Credit unions insured under the Company's excess insurance contract are required to maintain a premium deposit with the company equal to 1% of the aggregate limits of liability. The premium deposits are recorded as a liability by the Company and are non-interest bearing. The investment earnings therefrom in addition to a monthly risk-based premium charge are used to fund the Company's deposit insurance program. The premium deposits are at-risk to the insured credit unions and ultimately can act as a reserve that is available to pay claims if needed. The aggregate of premium deposits that are available to pay claims are \$35,650,000 at March 31, 2021. Therefore the Company has determined there is not a need for a premium deficiency reserve and none has been recorded at March 31, 2021. This evaluation was completed on May 6, 2021. The Company considers investment income when evaluating the need for premium deficiency reserves.
