A. Accounting Practices

The financial statements of Central Mutual Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining solvency under the Ohio Insurance Law. B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, Central Mutual Insurance Company uses the following accounting policies:

1. Short-term investments are stated at amortized cost.
2. Bonds not backed by other loans are stated at the lower of amortized cost or fair value using the interest method.
3. Common stocks are stated at market value except investments in stocks of uncombined subsidiaries and affiliates in which Central Mutual Insurance Company has an interest of 20% or more are carried on the equity basis.
4. Preferred stocks are stated at market value except qualified sinking fund preferred stocks which are stated at amortized cost.
5. Central Mutual Insurance Company has no mortgage loans on real estate.
6. Loan-backed securities are stated at amortized cost. Prepayment assumptions for loan-backed bonds and structured securities are obtained from dealer surveys. These assumptions are consistent with the current interest rate and economic environment. The prospective adjustment method is used to value these securities.
7. Central Mutual Insurance Company owns 100% of the common stock of All America Insurance Company, a property and casualty insurance company. Central Mutual Insurance Company owns 100% of Security Central, a holding company. Stocks held in all subsidiaries are carried at their Admitted Asset Equivalent.
8. Central Mutual Insurance Company has no investments in joint ventures, partnerships or limited liability companies.
9. Central Mutual Insurance Company owns no derivatives.
10. Central Mutual Insurance Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
11. Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate,

the ultimate liability may be in excess of or less than the amount provided. (1) The Company uses Clearwater Analytics for investments reporting. For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.

25. Changes in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2020 were $493.4 million. As of March 31, 202, $43.4 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now $435.4 million as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Personal Auto, Commercial Auto, Homeowners, and Work Comp lines of insurance. Therefore, there has been a $14.6 million favorable prior-year development since December 31, 2020 to March 31, 2021. The decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, the Company experienced $0 million of unfavorable (favorable) prior year claim development on retrospectively rated policies. However, the business to which it relates is subject to premium adjustments.

There were no changes in the methodologies and assumptions used in calculating the liability for unpaid losses and loss adjusting expenses for the most recent reporting period.
