C. Accounting Policy

1. No change.
2. Investment grade bonds (NAIC designations 1 or 2) not backed by other loans are valued at amortized cost using the scientific (constant yield) method. Bonds containing call provisions, except "make whole" call provisions, are amortized to the call or maturity value/date which produces the lowest asset value (yield to worst). Bonds which are below investment grade (NAIC designation 3 to 6) are carried at the lower of amortized cost or fair value.
- 3-5. No change.
6. Loan-backed securities are carried at amortized cost. Adjustments are applied prospectively.
- 7-13. No change.
- D. Going Concern - The Company's management has not identified any conditions or events that raise substantial doubt about its ability to continue as a going concern.

D. Loan-Backed Securities

1. Prepayment assumptions were obtained from Moody's.
2. There are no securities within the scope of this statement with a recognized other-than-temporary impairment.
3. There are no securities with a recognized other-than-temporary impairment.
4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a. The aggregate amount of unrealized losses:
 1. Less than 12 Months \$7,515
 2. 12 Months or Longer \$196,653
 - b. The aggregate related fair value of securities with unrealized losses:
 1. Less than 12 Months \$6,806,966
 2. 12 Months or Longer \$5,250,939
5. For any security in an unrealized loss position, the Company assesses whether it intends to sell the security or if it is more likely than not that the Company will be required to sell the security before recovery of the amortized cost basis for reasons such as liquidity, contractual, or regulatory purposes. If the security meets this criterion, the decline in fair value is other-than-temporary and is recorded in earnings.

For loan-backed securities in an unrealized loss position, management further evaluates whether the collection of all cash flows is probable. Management utilizes the prospective adjustment method to evaluate the present value of future cash flows. For those loan-backed and structured securities (NAIC designated 1 or 2) where management has determined that collection of all contractual cash flows is not probable, the securities are considered other than temporarily impaired to the extent amortized cost is greater than the present value of future cash flows.

(25) Change in Incurred Claims and Claims Adjustment Expenses

A. Reserves for incurred claims and claim adjustment expenses as of December 31, 2020 were \$313.7 million and \$4.0 million. As of June 30, 2021, \$235.9 million and \$3.7 million have been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$18.5 million and \$234 thousand as a result of the reestimation of unpaid claims and claim adjustment expenses. Therefore, there has been \$59.3 million in favorable prior-year development. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
