Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory-basis financial statements of Progressive American Insurance Company (the “Company”) were prepared on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (“DOI”).

The DOI requires insurance companies domiciled in the state of Ohio to prepare their statutory-basis financial statements in accordance with the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures Manual* subject to any deviations prescribed or permitted by the DOI. No deviations from NAIC statutory accounting practices (“NAIC SAP”) were used in preparing these statutory-basis financial statements as illustrated in the table below:

C. Accounting Policy

2. Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

No significant changes

6. Loan-backed securities

Loan-backed and structured securities are accounted for as prescribed by Statement of Statutory Accounting Principles No. 43R, Loan-backed and Structured Securities. These securities are generally stated at amortized cost as determined by the estimated value of future cash flows. Prepayment assumptions for loan-backed and structured debt securities are obtained from available market data, broker/dealers, and/or internal estimates, and are consistent with current interest rate and economic trends. See Note 5.D.

D. Going Concern

Management continuously monitors the Company’s financial results and compliance with regulatory requirements and found no reason to expect the Company to not continue as a going concern.

D. Loan-Backed Securities

NOTES TO FINANCIAL STATEMENTS

1.

The sources used to determine prepayment assumptions are derived from updated cash flows from widely utilized reputable industry sources. The Company’s portfolio managers review the available cash flow data and prepayment assumptions and make adjustments based on current performance indicators on the underlying assets (e.g., delinquency rates, foreclosure rates, and default rates), credit support (via current levels of subordination), and historical credit ratings.
2.

Intent to Sell or Inability to Hold Securities with a Recognized Other-Than-Temporary Impairment

Not applicable
3.

The Company has not recorded an other-than-temporary impairment for loan-backed and structured debt securities during the current year.
4.

At the end of the reporting period, the composition of fair value and gross unrealized losses on loan-backed and structured debt securities by the length of time that individual securities have been in a continuous unrealized loss position is as follows:

a.	The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ 37,841
		2. 12 Months or Longer	\$
b.	The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 11,973,600
		2. 12 Months or Longer	\$

5.

Additional information

Under SSAP No. 43R, the Company analyzes its structured debt securities to determine if the Company intends to sell, or if it is more likely than not that the Company will be required to sell, the security prior to recovery and, if so, the Company writes down the security to its current fair market value with the entire amount of the write-down recorded as a realized loss. To the extent that it is more likely than not that the Company will hold the debt security until recovery (which could be maturity), the Company determines if any of the decline in value is due to a credit loss (i.e., where the present value of cash flows expected to be collected is lower than the amortized cost basis of the security) and, if so, the Company recognizes that portion of the impairment as a realized loss.

G. All Other Contingencies

The Company routinely assesses the collectability of premiums and agents' balances receivable and records a bad debt reserve for amounts exceeding the nonadmitted balance that the Company believes are uncollectible.

The Company is named as defendant in various lawsuits arising out of its insurance operations. All legal actions relating to claims made under insurance policies are considered by the Company in establishing its loss and LAE reserves. The Company also has, on a net basis, potential exposure relating to lawsuits due to its participation in a 100% pooling reinsurance agreement for which it is allocated litigation expenses.

The pending lawsuits summarized below are in various stages of development, and the outcomes are uncertain or, if probable and estimable, are accrued in these statutory-basis financial statements. At the statement date, except to the extent an accrual has been established, the Company does not consider the losses from these pending cases to be both probable and estimable and is unable to estimate a range of loss at this time.

There were three putative class action lawsuits challenging the Company's practice in Florida of adjusting personal injury protection and first-party medical payments.

There was a putative class action lawsuit alleging the Company undervalues total loss claims through the use of certain valuation tools.

There was a certified class action lawsuit alleging the Company fails to pay the required amount of tag and title transfer fees, and taxes, following a total loss.

There were two putative class action lawsuits challenging the Company's reimbursement to Medicare Advantage Plans on first-party medical claims and settlements with insureds and claimants.

There was an individual lawsuit challenging the Company's Medicaid reimbursement or, in the alternative, requesting a pure bill of discovery.

There was an individual lawsuit alleging the Company perpetrated fraud alongside its codefendants by illegally withholding coordination of benefits information from governmental entities.

Note 20 – Fair Value Measurements

A. Inputs Used for Assets and Liabilities Measured at Fair Value

1. Fair Value Measurements by Levels 1, 2 and 3

The Company categorizes its financial instruments, based on the degree of subjectivity inherent in the method by which they are valued, into a fair value hierarchy of three levels, as follows:

Level 1 - Inputs are unadjusted, quoted prices in active markets for identical instruments at the measurement date (e.g., U.S. government obligations, which are continually priced on a daily basis, active exchange-traded equity securities, and certain short-term securities).

Level 2 - Inputs (other than quoted prices included within Level 1) that are observable for the instrument either directly or indirectly (e.g., certain corporate and municipal bonds and certain preferred stocks). This includes: (i) quoted prices for similar instruments in active markets, (ii) quoted prices for identical or similar instruments in markets that are not active, (iii) inputs other than quoted prices that are observable for the instruments, and (iv) inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable. Unobservable inputs reflect our subjective evaluation about the assumptions market participants would use in pricing the financial instrument (e.g., certain structured securities and privately held investments).

Determining the fair value of the investment portfolio is the responsibility of management. As part of the responsibility, management evaluates whether a market is distressed or inactive in determining the fair value for our portfolio. Management reviews certain market level inputs to evaluate whether sufficient activity, volume, and new issuances exist to create an active market. Based on this evaluation, management concluded that there was sufficient activity related to the sectors and securities for which we obtained valuations.

As of the reporting date, the Company did not measure and report any securities at fair value on the balance sheet. All bonds were carried at amortized cost.

2. Rollforward of Level 3 Items

Not applicable

3. Policy on Transfers Into and Out of Level 3

NOTES TO FINANCIAL STATEMENTS

At the end of each reporting period, the Company evaluates whether or not any event has occurred or circumstances have changed that would cause an instrument to be transferred into or out of Level 3.

4. Inputs and Techniques Used for Level 2 and Level 3 Fair Values

See Note 20.A.1 above.

5. Derivative Fair Values

B. Other Fair Value Disclosures

C. Fair Values for all Financial Instruments by Levels 1, 2, and 3
