Property and casualty insurance reserves are estimates based on historical experience patterns and current economic trends. Actual loss experience and loss trends are likely to differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends. Upon concluding, based on the data available, that an emerging loss trend will continue, the Company adjusts its property and casualty insurance reserves to reflect such trend. These changes in loss trend are reflected in the results of the period of change and included in the Company's financial statements net of reinsurance. The business to which this development relates is not retrospectively rated; therefore, they are not subject to premium adjustments. As the Company losses are ultimately ceded to its affiliate, Trinity Universal Insurance Company, net reserves as of September 30, 2021 and December 31, 2020 were \$0, and the Company experienced no reserve development.
