NOTES TO FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

The COVID-19 pandemic has pervasively impacted the economy, financial markets and the global health care delivery systems, including significant deferral of care of our customers resulting in lower claims paid in 2020, and through September 30, 2021. The Company closely monitors its financial instruments and maintains effective controls to identify risks and evaluate potential exposures. As of September 30, 2021, the Company has not experienced a material decline in fair value relating to its financial instruments including investments, or a material decline in accounts receivable and reinsurance recoverables as a result of COVID-19. In response the Coronavirus Aid, Relief, and Economic Security Act ("the Act") was enacted on March 27, 2020. The legislation did not have a material impact on the Company's results of operations for the nine months ended September 30, 2021. The Company has not requested any funding under the Act.

Recent proposals related to corporate tax reform propose raising corporate tax rates, among other things. Some proposed reforms could have an impact on the Company's future results of operations. The Company will continue to monitor developments.

A. Accounting Practices

The financial Statements of Cigna National Health Insurance Company ("CNHIC" or "the Company" are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures manual, ("NAIC SAP") has been adopted as a component of prescribed or permitted practices by the State of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statement

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Health premiums are earned ratably over the terms of the related insurance. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. The Company pays dividends to participating policyholders.

The Company uses the following accounting policies:

(2) Basis for Short-Term Investments, Bonds and Amortization

Investments in bonds and short-term investments are carried at amortized cost, except those in or near default that are carried at the lesser of cost or fair value. Amortization of bond premium or discount is calculated using the scientific (constant yield) interest method. Bonds containing call provisions are amortized to call date which produces the lowest asset value (yield to worst). Investments with original maturities of one year or less from the time of purchase are classified as short-term. Bonds are considered impaired and their cost basis is written down to fair value through an asset valuation reserve for credit-related losses or an interest maintenance reserve for interest-related losses, when management expects a decline in value to persist (i.e., the decline is other-than-temporary).

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed bonds and structured securities are valued at amortized cost using the constant level yield method. Significant changes in estimated cash flows from the original purchase assumptions are accounted for generally using the retrospective adjustment method. For loan-backed and structured securities that have potential for loss of a significant portion of the original investment, significant changes in estimated cash flows from the original purchase assumptions are accounted for using the prospective method. These securities are presented on the balance sheet as bonds.

Prepayment assumptions for loan-backed securities and other structured securities were obtained from external financial data sources. These assumptions are consistent with the current interest rate and economic environment.

When the Company determines it does not expect to recover the amortized cost basis of loan-backed or structured securities with declines in fair value (even if it does not intend to sell and has the intent and ability to hold), the non-interest portion of the impairment loss is recognized in realized investment losses. The non-interest portion is the difference between the amortized cost basis of the loan-backed or structured security and the net

NOTES TO FINANCIAL STATEMENTS

present value of its expected future cash flows. Expected future cash flows are based on assumptions about the collateral attributes, including prepayment speeds, default rates and changes in value.

D. Going Concern

In accordance with SSAP No. 1, "Accounting Policies, Risks and Uncertainties, and Other Disclosures," management has made an evaluation of the Company's ability to continue as a going concern, including such factors as its current financial position, recent earnings and cash flow trends and projections, liquidity and capital requirements, readily available sources of liquidity and such other factors deemed by management to be appropriate under the circumstances. Management has assessed and concluded that there were no conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern within one year after the date the financial statements are issued. Accordingly, the accompanying financial statements have been prepared on the going concern basis.

NOTES TO FINANCIAL STATEMENTS

F. All Other Contingencies

Other Legal Matters

In the normal course of its business operations, the Company is involved in litigation and other regulatory matters from time to time with claimants, beneficiaries, and other parties. When the Company, in the normal course of its regular review of such matters has determined that a material loss is reasonably possible, the matter is disclosed. In accordance with Statutory Accounting Principles, when litigation or other regulatory matters result in loss contingencies that are both probable and estimable, the Company accrues the estimated loss by a charge to operations. The amount accrued represents management's best estimate of the probable loss at the time. If only a range of estimated losses can be determined, the Company accrues an amount within the range that, in management's judgment, reflects the most likely outcome. If none of the estimates within the range is a better estimate than any other amount, the Company accrues the mid-point of the range.

Management does not believe that litigation or other matters currently pending against the Company would have a material adverse effect on the Company's results of operations, financial condition or liquidity based on its current knowledge of those matters.

Note 20 – Fair Value Measurements

A. Fair Value Measurements

Fair value is defined as the price at which an asset could be exchanged in an orderly transaction between market participants at the balance sheet date. The Company's financial assets have been classified based upon a hierarchy defined by SAP. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's or a liability's classification is based on the lowest level input that is significant to its measurement. For example, a financial asset or liability carried at fair value would be classified in Level 3 if unobservable inputs were significant to the instrument's fair value, even though the measurement may be derived using inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

Level 1 Inputs for instruments classified in Level 1 include unadjusted quoted prices for identical assets in active markets accessible at the measurement date. Active markets provide pricing data for trades occurring at least weekly and include exchanges and dealer markets.

Level 2 Inputs for instruments classified in Level 2 include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are market observable or can be corroborated by market data for the term of the instrument. Such other inputs include market interest rates and volatilities, spreads and yield curves. An instrument is classified in Level 2 if the Company determines that unobservable inputs are insignificant. Level 2 assets primarily include corporate bonds valued using recent trades of similar securities or pricing models that discount future cash flows at estimated market interest rates.

Level 3 Certain inputs for instruments classified in Level 3 are unobservable (supported by little or no market activity) and significant to their resulting fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

SSAP 100 allows the use of net asset value (NAV) as a practical expedient to fair value for investments in investment companies where there is no readily determinable fair value. There were no such investments owned by the Company for either period presented.

B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements

The Company provides additional fair value information in Notes 1 and 5.

C. Fair Value Level

The following tables provide the fair value, carrying value, and classification in the fair value hierarchy of the Company's financial instruments as of September 30, 2021 and December 31, 2020.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)
September 30, 2021							
Bonds	\$ 4,462,272	\$ 4,466,296	\$ 4,462,272	\$	\$	\$	\$
Cash, Cash Equivalents, and Short-term Investments	\$ 2,721,383	\$ 2,721,383	\$ 2,721,345	\$ 38	\$	\$	\$
December 31, 2020							
Bonds	\$ 4,542,566	\$ 4,457,780	\$ 4,542,566	\$	\$	\$	\$
Cash, Cash Equivalents, and Short-term Investments	\$ 3,267,573	\$ 3,267,573	\$ 403,136	\$ 2,864,437	\$	\$	\$

The following valuation methodologies and significant assumptions are used by the Company to determine fair value for each instrument.

Bonds

The Company estimates fair values using prices from third parties or internal pricing methods. Fair value estimates received from third-party pricing services are based on reported trade activity and quoted market prices when available, and other market information that a market participant may use to estimate fair value. Such other inputs include market interest rates and volatilities, spreads, and yield curves. The internal pricing methods are performed by the Company's investment professionals and generally involve using discounted cash flow analyses, incorporating current market inputs for similar financial instruments with comparable terms and credit quality, as well as other qualitative factors. In instances where there is little or no market activity for the same or similar instruments, the fair value is estimated using methods, models, and assumptions that the Company believes a hypothetical market participant would use to determine a current transaction price.

Short-Term Investments, Cash Equivalents, and Cash

Short-term investments, cash equivalents, and cash are carried at cost which approximates fair value. Short-term investments and cash equivalents are classified in Level 2 and cash is classified in Level 1.

D. Not Practicable to Estimate Fair Value
None.

E. NAV Practical Expedient Investments
None.

Note 25 – Change in Incurred Losses and Loss Adjustment Expenses

A. Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2020 were \$305,886. As of September 30, 2021, \$250,238 has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$7,577 as a result of re-estimation of unpaid claims and claim adjustment expenses principally on Medicare Supplement business. Therefore, there has been a \$48,070 favorable prior year development since December 31, 2020 to September 30, 2021. The change is generally the result of ongoing analysis of recent loss development trends.
