NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Nationwide Indemnity Company (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance law. The NAIC’s *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no statutory accounting practices that differ from NAIC SAP.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

	SSAP #	F/S Page	F/S Line #		2021	2020

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Federal Income Taxes. The Company’s parent, Nationwide Mutual Insurance Company (Mutual), files a consolidated federal income tax return, which includes all eligible U.S. subsidiaries and affiliates. In this regard, the included subsidiaries and affiliates pay to Mutual the amount which would have been payable on a separate return basis without regard to the alternative minimum tax. Mutual pays tax due on a consolidated basis.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements, which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any non-admitted portion and statutory valuation allowance, and deferred tax liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. DTAs and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

Reinsurance Recoverables. The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserve deductions partially offset claim costs in the Company’s statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2021 and 2020.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. As of December 31, 2021 and 2020, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies:

- Short-term investments consist of investments with maturities of twelve months or less at acquisition and are stated at amortized cost, which approximates fair value.
- Bonds, excluding loan-backed and structured securities, are stated at amortized cost except those with an NAIC designation of “3” through “6”, which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts is calculated using the effective yield method. The Company does not hold any mandatory convertible securities or SVO-identified investments.
- Unaffiliated common stocks are reported at fair value.
- Redeemable preferred stocks are stated at amortized cost, except those with an NAIC designation of “3” through “6”, which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value, except those with an NAIC designation of “3” through “6”, which are stated at the lower of amortized cost or fair value.
- Mortgage loans are carried at the unpaid principal balance adjusted for premiums and discounts, less a valuation allowance. The valuation allowance for mortgage loans reflects management’s best estimate of probable credit losses.

NOTES TO THE FINANCIAL STATEMENTS

6.

Loan-backed and structured securities (collectively, loan-backed securities) are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles (SSAP) No. 43-Revised and the Purposes and Procedures Manual of the NAIC Securities Valuation Office. The retrospective adjustment method is used to value loan-backed securities where the collection of all contractual cash flows is probable. For all other loan-backed securities, the Company uses the prospective adjustment method. Refer to Note 5(D) for a discussion of the other-than-temporary impairment policy for loan-backed securities.
7.

Investments in subsidiary and affiliated companies are stated as follows:

The admitted investments in all subsidiary, controlled, and affiliated (SCA) entities are valued using an equity method approach. Under this approach, investments in insurance affiliated companies are stated at underlying audited statutory surplus adjusted for unamortized goodwill. Investments in non-insurance affiliated companies that have no significant ongoing operations other than to hold assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity adjusted to a statutory basis of accounting. Investments in non-insurance affiliated companies that have significant ongoing operations beyond holding assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity. Unaudited affiliated companies of the reporting entity or its affiliates are non-admitted under prescribed SAP accounting practices. Investments in affiliated companies are generally included in stocks.
8.

Other invested assets consist primarily of alternative investments in hedge funds, private equity funds, private and emerging market debt funds, tax credit funds and real estate partnerships. Except for investments in certain tax credit funds, these investments are recorded using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in tax credit funds are held at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized. Refer to Note 1(C)7 above for the accounting treatment for the Company's investment in a limited liability company, which is a wholly-owned subsidiary.
9.

Not applicable – The Company does not have derivatives.
10.

Insurance premiums are generally earned ratably over the policy term. The liability for unearned premiums represents the portion of premiums written relating to the unexpired terms of coverage. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed. Premiums in course of collection represent agent balances and uncollected premiums from policyholders for current policies in force and policy premiums assumed from others, including amounts placed with affiliates. As of December 31, 2021 and 2020, the Company had no liabilities related to premium deficiency reserves. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts – Premiums.
11.

The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.
12.

The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13.

Not applicable as the Company does not write major medical insurance with prescription drug coverage.

D. Going Concern

Not applicable.

Note 2 – Accounting Changes and Corrections of Errors

In December 2020, the Company adopted revisions to SSAP No. 2R, Cash Equivalent – Cash and Liquidity Pools. The adopted revisions require internal cash pooling arrangements to meet certain criteria to be considered qualified cash pools, with investments in qualifying pools reported as cash equivalents on Page 2 within line 5. The Company's cash pool meets the criteria to be considered a qualified cash pool under SSAP No. 2R. The internal cash pooling arrangement with Nationwide Cash Management Company (NCMC) was historically classified as short-term investments, resulting in a change in classification to cash equivalents. See Note 10 for more information on the Company's relationship with NCMC.

3. Not applicable.
4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:	1. Less than 12 Months	\$ (81,845)
	2. 12 Months or Longer	\$ (1,230,241)
b. The aggregate related fair value of securities with unrealized losses:	1. Less than 12 Months	\$ 10,661,777
	2. 12 Months or Longer	\$ 11,699,285

5. The Company reviews all loan-backed and structured securities in which the fair value of the given security is less than the amortized cost to determine if a given security is other-than-temporarily impaired. The Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool, and the quality of any credit guarantors, to determine the cash flows expected to be received for the security. If the severity and duration of the security's unrealized loss indicates a risk of an other-than-temporary impairment, then the Company will evaluate if the amortized cost basis of the security will be recovered by comparing the present value of the cash flows expected to be received for the given security with the amortized cost basis of the security. If the present value of cash flows is greater than the amortized cost basis of a security then the security is deemed not to be other-than-temporarily impaired.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

1. The Company's securities lending agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received is invested in short-term investments and reported on the Asset page as Securities Lending Reinvested Collateral assets. The offsetting collateral liability is reported in the Payable for Securities Lending line on the Liabilities page.

6. The Company has accepted securities as collateral that is not permitted by contract or custom to repledge or sell. The fair value as of the date of each statement of financial position presented of the securities received as collateral was \$0 as of December 31, 2021.
7. There are no securities lending transactions that extend beyond one year as of the reporting date.

F. Repurchase Agreements Transactions Accounted for as Secured Borrowing

Not applicable.

G. Reverse Repurchase Agreements Transactions Accounted for as Secured Borrowing

1. To manage short-term liquidity needs within the Nationwide insurance subsidiaries', the company has agreements to enter into repurchase or reverse repurchase agreements with several authorized affiliated insurance companies. The collateral required meets minimum state specific requirements or statutory requirements if state of domicile does not specify.

As these transactions are with affiliated insurance companies within the Nationwide family and are short-term in nature, the risk of changes in the fair value of the collateral are considered negligible.

For yield enhancement, the company has agreements to enter into repurchase agreements through its securities lending program with collateral consisting of U.S. Government/Agency securities with investment grade counterparties. The collateral, which is marked to market daily, must represent 102% of the amount loaned and is monitored by the plan's manager in Bank of New York Mellon for changes in fair value.

Note 10 – Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

The Company is domiciled and is a licensed reinsurer in Ohio and is qualified in Illinois, Iowa, New York and Wisconsin. The Company had provided excess of loss and catastrophe coverages for certain affiliated companies, as well as assuming certain retroceded reinsurance from its parent, Mutual. In addition, on December 31, 1998, the Company assumed loss and loss adjustment expense reserves from both Mutual and Employers Insurance of Wausau (a mutual company) (EIOW), a former affiliate, and certain of EIOW's affiliated property and casualty companies. The Company is principally used to process runoff lines of business and therefore generates little premium. The Company is subject to regulation by the insurance departments of states in which it is licensed and undergoes period examinations by those departments.

All outstanding shares of the Company are owned by Mutual, domiciled in the State of Ohio.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company in any subsidiary or affiliate are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$16,767,628 and \$172,176,128 as of December 31, 2021 and 2020, respectively.

NOTES TO THE FINANCIAL STATEMENTS

B. Detail of Transactions Greater than ½ % of Admitted Assets

On June 30, 2021, the Company paid a return of capital of \$900,000,000 to Nationwide Mutual Insurance Company.

C. Transactions with Related Party who are not Reported on Schedule Y

Not applicable.

D. Amounts Due to or from Related Parties

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its affiliates in which settlement has not yet occurred. Affiliate receivables are presented gross of affiliate payables when the Company has the right to offset. The gross amounts due from affiliates were \$4,764,680 and \$2,213 as of December 31, 2021 and 2020, respectively. The gross amounts due to affiliates were \$28 and \$526,575 as of December 31, 2021 and 2020, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within 30 days.

E. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than indicated in Note 14 A.

F. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

E. Defined Contribution Plans

NMIC sponsors a defined contribution retirement savings plan (401(k)) which covers substantially all employees. Employees may make salary deferral contributions of up to 80% provided this deferral does not exceed the maximum annual amount allowed by the IRS. Salary deferrals of up to 8% receive a 50% company match and salary deferrals up to 7% receive a 50% company match for the years ended December 31, 2021 and 2020, respectively, 20% of which vests each year until the participant has five years of vesting service. The Company match is funded on a biweekly basis and the expense for contributions are allocated to the Company based on employee contributions. The Company's allocated expense for contributions was \$0 and \$490,699 for the years ended December 31, 2021 and 2020, respectively. Individuals are subject to a dollar limit on salary deferrals per IRS Section 402(g) (\$19,500 in 2021 and \$19,000 in 2020). Other limits also apply. The Company has no legal obligation for benefits under this plan.

F. Multiemployer Plans

Not applicable.

G. Consolidated/Holding Company Plans

The Company, together with other affiliated companies, participates in a qualified defined benefit pension plan (the Nationwide Retirement Plan or the NRP) sponsored by Mutual. The Company funds pension costs accrued for direct employees plus an allocation of pension costs accrued for employees of affiliates whose work benefits the Company. The Company also participates in a non-qualified defined benefit supplemental executive retirement plan sponsored by Mutual that covers certain executives with at least one year of service. The Company's portion of expense relating to these plans was \$- and \$(134,104) for the years ended December 31, 2021 and 2020, respectively.

In addition to the defined benefit plans, the Company and certain affiliated companies participate in health care benefit plans sponsored by Mutual for qualifying retirees, which are generally available to retirees who were full time who have attained age 55 and have at least 15 years of service with the Company. The Company's portion of the expense relating to these plans was \$0 and \$(18,688) for the years ended December 31, 2021 and 2020, respectively.

Not applicable.

Note 17 – Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities

A. Transfers of Receivables Reported as Sales

Not applicable.

B. Transfer and Servicing of Financial Assets

1. The Company has entered into a securities lending agreement with an agent bank whereby eligible securities may be loaned to third parties, primarily major brokerage firms. These transactions are used to generate additional income on the securities portfolio. Loaned securities continue to be reported as invested assets and the Company is entitled to receive any payments of interest or dividends paid on loaned securities. The agreement requires a minimum of 102% of the fair value of loaned securities to be held as collateral. Cash collateral received from borrowers is reflected as a “Payable for securities lending” on the “Statement of Liabilities, Surplus and Other Funds” while non-cash collateral is recorded off-balance sheet. Cash collateral received is reinvested by the agent bank in accordance with the Company’s authorized investment policy and included in “Securities lending reinvested collateral assets” in the “Statement of Assets”. If the fair value of the reinvested collateral assets is less than the fair value of the securities loaned, the shortfall is non-admitted. Because the borrower or the Company may terminate a securities lending transaction at any time, if loans are terminated in advance of the reinvested collateral asset maturities, the Company would repay its securities lending obligation from operating cash flows or the proceeds of sales from its investment portfolio, which includes significant liquid securities.
- The fair value of loaned securities was \$7,321,443 as of December 31, 2021. The Company holds \$0 of non-cash collateral for loaned securities as of December 31, 2021.
- Reinvested collateral assets reported on Schedule DL are excluded from other statutory schedules and disclosures.
- See Note 5 E. for additional information concerning securities lending.

Not applicable.

Note 20 – Fair Value Measurements

A. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes assets and liabilities held at fair value in the statutory statements of assets and liabilities, surplus and other funds as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, London Interbank Offered Rate, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimates of the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the period in which the change occurs.

Independent pricing services are most often utilized to determine the fair value of bonds and stocks for which market quotations or quotations on comparable securities are available. For these bonds and stocks, the Company obtains the pricing services' methodologies, pricing from additional sources, inputs and assumptions and classifies the investments accordingly in the fair value hierarchy.

A corporate pricing matrix is used in valuing certain corporate bonds. The corporate pricing matrix was developed using publicly available spreads for privately placed corporate securities with varying weighted average lives and credit quality ratings. The weighted average life and credit quality rating of a particular bond to be priced using the corporate pricing matrix are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when deemed appropriate or when quotes are not available from independent pricing services or a corporate pricing matrix. These bonds are classified with the lowest priority in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers as the brokers often do not provide the necessary transparency into their quotes and methodologies. At least annually, the Company performs reviews and tests to ensure that quotes are a reasonable estimate of the investments' fair value. Price movements of broker quotes are subject to validation and require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

The Company carries short-term investments at amortized cost, which approximates fair value.

The following table summarizes assets held at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total

Note 21 – Other Items

A. Unusual or Infrequent Items

On March 11, 2020, the World Health Organization declared the novel coronavirus (“COVID-19”) a pandemic. In response to the COVID-19 pandemic, governments have enacted various measures to reduce the spread of the virus. The COVID-19 pandemic conditions have created financial market volatility and uncertainty regarding whether and when certain customer behaviors will return to historical patterns, including sales of new and retention of existing policies, driving behavior and auto claim frequency, life insurance mortality and credit allowance exposure. None of the aforementioned items have had a material impact on the overall financial condition of the Company. While many of the government-imposed measures have eased in 2021, the extent to which the COVID-19 pandemic may impact the Company’s ongoing operations and financial condition will depend on future developments that are evolving and uncertain.

For fixed maturity and marketable equity securities for which market quotations generally are available, Nationwide generally uses independent pricing services to assist in determining the fair value measurement. For certain fixed maturity securities not priced by independent services (generally private placement securities without quoted market prices), an internally developed pricing model or "corporate pricing matrix" is most often used. The corporate pricing matrix is developed by obtaining private spreads versus the U.S. Treasury yield for corporate securities with varying weighted average lives and bond ratings. The weighted average life and bond rating of a particular fixed maturity security to be priced using the corporate matrix are important inputs into the model and are used to determine a corresponding spread that is added to the U.S. Treasury yield to create an estimated market yield for that bond. PART 2 – PROPERTY & CASUALTY INTERROGATORIES

7.2	If yes, indicate the number of reinsurance contracts containing such provisions.			N/A
7.3	If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?	Yes [<input type="checkbox"/>]	No [<input type="checkbox"/>]	
8.1	Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?	Yes [<input type="checkbox"/>] No [<input checked="" type="checkbox"/>]		
8.2	If yes, give full information N/A			
9.1	Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results: (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term; (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer; (c) Aggregate stop loss reinsurance coverage; (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party; (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity?	Yes [<input type="checkbox"/>] No [<input checked="" type="checkbox"/>]		
9.2	Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where: (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or (b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract.	Yes [<input type="checkbox"/>] No [<input checked="" type="checkbox"/>]		
9.3	If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9: (a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income; (b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and (c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.			
9.4	Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62R, <i>Property and Casualty Reinsurance</i> , has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either: (a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or (b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?	Yes [<input type="checkbox"/>] No [<input checked="" type="checkbox"/>]		
9.5	If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.			
9.6	The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria: (a) The entity does not utilize reinsurance; or, (b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or (c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.	Yes [<input type="checkbox"/>]	No [<input checked="" type="checkbox"/>]	
10.	If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done?	Yes [<input checked="" type="checkbox"/>]	No [<input type="checkbox"/>]	N/A [<input type="checkbox"/>]
11.1	Has the reporting entity guaranteed policies issued by any other entity and now in force?	Yes [<input type="checkbox"/>] No [<input checked="" type="checkbox"/>]
