Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of James River Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the state of Ohio.

The accompanying financial statements contain no differences as a result of practices prescribed or permitted by Ohio that differ from the NAIC's *Accounting Practices and Procedures Manual* as noted in the table below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related policies. Unearned premiums are established to cover the unexpired portion of premiums written. Such reserves are determined on a daily pro rata basis. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

(1) Short-term investments are stated at amortized cost.

(2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

Investment grade non-loan backed bonds are stated at amortized cost using the interest method. Non-investment grade non-loan backed bonds are stated at the lower of amortized cost or fair value. The Company does not have any investments in mandatory convertible securities or SVO-Identified investments.

(3) Unaffiliated common stocks are stated at fair value.

(4) Perpetual preferred stocks are stated at fair value not exceeding the current effective call price. Mandatory redeemable preferred stocks are stated at amortized cost, except non-investment grade redeemable preferred stocks, which are stated at the lower of cost or fair value.

(5) The Company has no investments in mortgage loans.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed securities are stated at either amortized cost using the interest method, or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield has become negative, which are valued using the prospective method.

(7) Affiliated common stock is stated at the statutory value of the insurance subsidiary.

(8) The Company has minor ownership interests in four limited partnerships and five limited liability companies. The Company carries these investments based on the underlying audited GAAP equity of the investee.

(9) The Company has no investments in derivatives.

(10) The Company does not consider investment income as a factor in determining premium deficiency reserves.

(11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on industry experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

(12) The Company has not modified its capitalization policy from the prior period.

(13) The Company does not write major medical insurance with prescription drug coverage.

Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern (Continued)

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors - Not Applicable

3. Business Combinations and Goodwill - Not Applicable

4. Discontinued Operations - Not Applicable

5. Investments

A. Mortgage Loans, including Mezzanine Real Estate Loans - Not Applicable

B. Debt Restructuring - Not Applicable

C. Reverse Mortgages - Not Applicable

D. Loan-Backed Securities

(1) Description of Sources Used to Determine Prepayment Assumptions

For fixed rate agency mortgage-backed securities, prepayment speeds are calculated utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer consensus survey of long-term prepayment projections.

For other mortgage-backed, loan-backed and structured securities, prepayment assumptions are obtained from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. If Moody's projections are not available, data is obtained from Reuters, which utilizes the median prepayment speed from contributors' models. Prepayment assumptions for fixed rate agency mortgage-backed securities were generated using the prepayment speeds.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - Not Applicable

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - Not Applicable

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

a. The aggregate amount of unrealized losses:

1. Less than 12 months.....	\$.....	417,291
2. 12 months or longer.....		141

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months.....	\$....	19,997,193
2. 12 months or longer.....		18,573

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

The Company's management regularly reviews the value of investments. If the value of an investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination, the following are considered:

- (a) How long and by how much the fair value has been below its cost;
- (b) The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations;
- (c) Management's intent to hold the security long enough for it to recover its value;
- (d) Any downgrades of the security by a rating agency; and
- (e) Any nonpayment of scheduled interest payments.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, the impairment is recognized as a realized capital loss in the Statement of Income in the period the determination is made.

The Company previously issued a set of insurance contracts to Rasier LLC and its affiliates (collectively, "Rasier") under which the Company pays losses and loss adjustment expenses on the contracts. The Company has indemnity agreements with Rasier (non-insurance entities) and is contractually entitled to receive reimbursement for a significant portion of the losses and loss adjustment expenses paid on behalf of Rasier and other expenses incurred by the Company. Rasier was required to collateralize all amounts currently due to the Company and to provide additional collateral sufficient to cover the amounts that may be recoverable under the indemnity agreements, including, among other things, case loss and loss adjustment expense reserves, IBNR loss and loss adjustment expense reserves, extra contractual obligations and excess of policy limits liabilities. The collateral was provided through a collateral trust arrangement established in favor of the Company by a captive insurance company affiliate of Rasier.

As permitted under the indemnification agreements with Rasier and the associated trust agreement, the Company withdrew the collateral posted to the separate trust account during 2019. At December 31, 2020, the Company held collateral funds of \$859.9 million. During 2021, all of the funds were returned to the trust account as part of the Loss Portfolio Transfer agreement, see Note 23.

Notes to the Financial Statements

20. Fair Value Measurements

A. Fair Value Measurement

For statutory accounting, certain investments are carried at fair value, while others may periodically be carried at fair value based on certain factors such as the NAIC's lower of cost or market rule or an impairment. Assets recorded at fair value are categorized based on an evaluation of the various inputs used to measure the fair value.

Three levels of inputs are used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets,
- Level 2: Indirect observable inputs, including prices for similar assets and market corroborated inputs, and
- Level 3: Unobservable inputs reflecting assumptions that market participants would use, including assumptions about risk.

Supporting documentation received from pricing vendors detailing the inputs, models and processes used in the vendor's evaluation process is used to determine the appropriate fair value hierarchy. Documentation from each pricing vendor is reviewed and monitored periodically to ensure they are consistent with pricing policy procedures. Market information obtained from brokers with respect to security valuations is also considered in the pricing hierarchy.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

Fair value measurements for fixed income and equity securities are based on values published by independent pricing services such as Refinitiv and IHS Markit. These sources have been evaluated and approved by the investment manager's pricing policy committee. Under certain circumstances, if a vendor price is not available, a price may be obtained from a broker. Short-term securities are valued at amortized cost. Cash Equivalents, excluding money market mutual funds, are valued at amortized cost. Money market mutual funds are valued using a Net Asset Value (NAV). Other investments consist of non-collateral loans to affiliates and are valued at the outstanding principal balance.

Generally, independent pricing service vendors use a pricing methodology involving the market approach, including pricing models, which use prices and relevant market information regarding a particular security or securities with similar characteristics to establish a valuation.

Investments for which external sources are not available or are determined by the investment manager not to be representative of fair value are recorded at fair value as determined by the investment manager. In determining the fair value of such investments, the investment manager considers one or more of the following factors: type of security held, convertibility or exchangeability of the security, redeemability of the security (including timing of such redemptions), application of industry accepted valuation models, recent trading activity, liquidity, estimates of liquidation value, purchase cost, and prices received for securities with similar terms of the same issuer or similar issuers. As of December 31, 2021, there were no investments for which external sources were unavailable to determine fair value.

Impact of the COVID-19 Pandemic

In December 2019, a coronavirus (COVID-19) outbreak was reported in China, and, in March 2020, the World Health Organization declared it a pandemic. COVID-19 variants continue to spread throughout the United States. In response, many state and local governments instituted emergency restrictions that substantially limited the operation of non-essential businesses and the activities of individuals. Many jurisdictions impose, ease, and reinstate emergency restrictions in response to the spread of COVID-19 variants. These restrictions could result in significant adverse effects on the policyholders and many different types of small and mid-sized businesses within the Company's client base, particularly those in the retail, hospitality and food and beverage industries, among many others. The ultimate effect and severity of COVID-19 on the economy is not known nor is the ultimate length of the restrictions and any accompanying effects caused by it.

The effect of COVID-19 and related events, including those described above and those not yet known, could have a negative effect on the business prospects, financial condition and results of operations of the Company, including as a result of quarantines, market volatility, market downturns, actions of lawmakers and regulators, changes in consumer behavior, business closures, deterioration in the credit quality of policyholders or the inability of policyholders to pay their premium and deductible obligations to the Company, and deterioration in the credit quality of reinsurers or insurance entities with which the Company has a fronting arrangement or the inability of reinsurers or the insurance entities for which the Company is fronting to pay their obligations to the Company.

The Company is continually monitoring the impact that the ongoing coronavirus (COVID-19) pandemic may be having on the Company's financial condition and results of operations. COVID-19 has adversely affected premium and/or claims volume in some lines of business we write (such as auto and workers' compensation), however, to date it has not caused a decline in gross written premiums or a material increase in total claims for the Company as a whole. The Company is closely monitoring a number of risks that COVID-19 poses to the Company's financial condition and results of operations.

In response to the COVID-19 pandemic, there have been proposals by federal and state lawmakers to retroactively amend business interruption insurance policies to cover claims related to COVID-19 when such insurance policies otherwise would exclude such risks.

In July of 2021, after more than a year and a half of our offices being closed to all non-essential staff due to the COVID-19 pandemic, the Company reopened its offices on a voluntary basis. The Company built a reopening plan that reflected the shared goals and needs of the employees and business, placing an emphasis on remaining safe, productive and connected. Safety measures and procedures have been implemented throughout our offices to help ensure that all staff working in the office remain safe.

Effective July 1, 2021, the Company partially commuted both of its 70% quota share reinsurance agreements with its affiliates Carolina Re LTD. and JRG Reinsurance Company, LTD. ("the Reinsurers") for all policies related to the Legacy Commercial Auto business with Uber. The Company and the Reinsurers fully and finally settled its obligations. As a result of these transactions the Company received consideration of \$195.1 million and \$51.7 million from Carolina Re LTD. and JRG Reinsurance Company, LTD., respectively, which was equal to the outstanding reserves. As a result there was no losses or loss adjustment expenses incurred as a result of these transactions.

F. Retroactive Reinsurance

(1) Retroactive reinsurance agreements that transfer liabilities for losses that have already occurred and that will generate special surplus transactions

On September 27, 2021, the Company entered into a loss portfolio transfer ("LPT") reinsurance transaction with Aleka Insurance, Inc. ("Aleka"), a wholly owned captive insurer of Uber Technologies, Inc. ("Uber"), under which Aleka will reinsurance substantially all of the Company's legacy portfolio of commercial auto policies related to Uber's ridesharing business. Under the terms of the transaction, based on reserves in place as of July 1, 2021, the Company ceded to Aleka approximately \$342.3 million of commercial auto liabilities relating to business written for Uber's ridesharing business in the years 2013-2019. The coverage being provided by Aleka is fully collateralized and not subject to an aggregate limit. The Company paid Aleka a reinsurance premium of \$342.3 million.

Aleka is obligated to post collateral as security for its obligations to the Companies, which will be maintained at 102% of the Companies' estimate of Aleka's obligations under the reinsurance agreement, calculated in accordance with statutory accounting principles. This collateral is held in two trust accounts: the first, a trust account established by Aleka for the benefit of the Companies (the "LPT Trust"), and the second, a trust account established by the Companies for the benefit of the third party claims administrator appointed by Aleka and the Companies (the "Loss Fund Trust"), which the Company funds using amounts withdrawn from the LPT Trust. At December 31, 2021, the balance of the LPT Trust was \$249.6 million and the balance of the Loss Fund Trust funded by amounts withdrawn from the LPT Trust was \$28.2 million.

The LPT is considered a retroactive reinsurance contract. The Loss and LAE reserves ceded under the LPT are reflected as a contra-liability "Retroactive Reinsurance Reserve Ceded" within Aggregate Write-Ins for Liabilities. In the event that the cumulative loss and LAE ceded under the LPT exceed the consideration paid, the resulting gain would be reflected as a Special Surplus Fund. The Special Surplus Fund gain would be transferred to Unassigned Funds when the actual retroactive reinsurance recovered exceeds the consideration paid.

The Company participates in an intercompany pooling arrangement (the Pooling) as further described in Note 26. The Company's participation is 55% of the entire pool. The development across the entire pool is described below.

Notes to the Financial Statements

25. Changes in Incurred Losses and Loss Adjustment Expenses (Continued)

Losses Incurred

The Pooling experienced \$67.5 million of net adverse development in the twelve months ended December 31, 2021 on the reserve for losses and loss adjustment expenses held at December 31, 2020. During the first quarter of 2021, the Pooling recognized net adverse reserve development of \$50.7 million on its commercial auto business, almost entirely related to a previously canceled account that has been in runoff since 2019. The reported losses on this terminated commercial auto account meaningfully exceeded the expectations for the three months ended March 31, 2021.

The Pooling had expected that reported losses would decline as the account moved further into runoff, but the continued heavy reported loss emergence in Q1 2021 indicated more inherent severity in the book than anticipated. In response, the actuarial methodology was meaningfully adjusted, resulting in a significant strengthening of reserves for this account. In prior quarters, its actuarial work for this terminated commercial auto account had been based on industry data, pricing data, experience data, average claims severity data, and blended methodologies. However, the continuation of the highly elevated reported losses in the first quarter of 2021 led to the conclusion that using only its own loss experience in its paid and incurred reserve projections rather than the array of inputs that were used in prior quarters, and giving greater weight to incurred methods, would provide a better estimate of ultimate losses on this account.

On September 27, 2021, James River Insurance Company and James River Casualty Company (together, "James River") entered into a loss portfolio transfer transaction, as described in Note 23. James River recognized a net pre-tax loss of \$19.2 million as adverse loss and loss adjustment reserve development for the third quarter of 2021 associated with the loss portfolio transfer, of which \$15.8 million was related to claims handling costs. The net \$15.8 million claims handling costs constitutes the James River's contribution to the fees of an administrator appointed by the James River and Aleka to handle the claims on the Rasier commercial auto policies for the remaining life of those claims, and unallocated loss adjustment expenses required to facilitate the transition of the claims to the administrator.

Losses Paid

Effective January 1, 2021, the Company amended its intercompany pooling agreement as further described in Note 26. As part of the transaction, the Company ceded its Commercial Auto book of business into the pool. Additionally, the Company's pooling percentage decreased from 61% to 55%. The transaction did not have an impact on losses incurred, but reduced net losses paid related to prior accident years by \$62.6 million.

Effective July 1, 2021, James River partially commuted its quota share reinsurance contract with its affiliates, as described in Note 23. As part of the partial commutation the Companies received \$250.8 million in ceded recoveries included in loss payments, above. The transaction did not have any impact on losses incurred but reduced the Company's net losses paid by its share of the pooled recoveries.

B. Significant Changes in Methodologies and Assumptions Used in Calculating the Liability for Unpaid Losses and Loss Adjustment Expenses

The Company meaningfully adjusted its actuarial methodology, resulting in a significant strengthening of reserves for this account during the first quarter of 2021, as described in A above.

26. Intercompany Pooling Arrangements

A. A-D. The insurance entities within the James River Group are participants in an intercompany reinsurance pooling agreement which was effective January 1, 2013 and included business in-force and subsequent to that date. The pooling is net of all other reinsurance coverage carried by the participants. The pooling provides proportionate sharing of premiums earned, losses and loss adjustment expenses incurred and underwriting expenses incurred.

On August 1, 2016 Falls Lake Fire and Casualty Company received approval from the California Department of Insurance to be a party to the pooling agreement, effective January 1, 2016 on an in-force, new and renewal basis.

Effective January 1, 2017, the intercompany reinsurance pooling agreement was amended to exclude the James River Insurance Company's commercial auto line of business.

Effective January 1, 2021, the intercompany reinsurance pooling agreement was amended to include the James River Insurance Company's commercial auto line of business. The participation percentages were also revised with the amendment. The current participating companies have received approval of the revised agreement with their States of domicile (OH, NC, CA and VA). Current participants and their current and prior percentages of the pool are as follows:

Company	NAIC #	Current Participation	Prior Participation
Falls Lake National Insurance Company (lead company)	31925	7%	10%
James River Insurance Company	12203	55%	61%
Stonewood Insurance Company	11828	14%	14%

D. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of, a liability due to environmental losses?

Yes (X) No ()

The Company had exposure to environmental claims through the sale of general liability insurance in prior years. The Company attempts to estimate the full impact of the environmental exposure by establishing a full case basis reserves on all known losses and computing incurred but not reported losses based on previous experience. GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
 Not applicable

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
 The Company estimates probable maximum loss by use of catastrophic modeling software. The primary exposure to catastrophe is from a book of excess property business that includes earthquake and wind-exposed business in the Pacific Northwest, California, southern and southeastern United States. The Company uses the Touchstone catastrophe model from AIR Worldwide Touchstone, version 5.1. The Company also relies on modeling expertise from its reinsurers and reinsurance brokers.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
 The company is protected by a property surplus share contract as well as a property cat treaty of \$40 million XS \$5 million.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [X] No []

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? Yes [] No [X]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions: 0

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? Yes [] No []

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [] No [X]

8.2 If yes, give full information

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
 (a) A contract term longer than two years and the contract is noncancelable by the reporting entity during the contract term;
 (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
 (c) Aggregate stop loss reinsurance coverage;
 (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
 (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
 (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [] No [X]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
 (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
 (b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [] No [X]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
 (a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
 (b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
 (c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
 (a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
 (b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [] No [X]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
 (a) The entity does not utilize reinsurance; or Yes [] No [X]
 (b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or Yes [] No [X]
 (c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. Yes [] No [X]

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [] N/A []
