Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Infinity Safeguard Insurance Company (“the Company” or “ISAFIC”) have been prepared in conformity with the National Association of Insurance Commissioners (“NAIC”) Annual Statement Instructions and *Accounting Practices and Procedures Manual*, (“the NAIC Manual”) and the laws of the State of Ohio.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under Ohio Insurance Law. The NAIC Manual has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has not adopted permitted accounting practices that differ from those found in the NAIC Manual, and accordingly the Company has no permitted accounting practices.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions and premium taxes, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost. Cash equivalents are carried at amortized cost or fair value.
- (2) Bonds with NAIC designation of 1 or 2, including loan-backed and structured securities (“LBSS”) are reported at amortized cost using the effective yield method. Bonds with NAIC designation of 3 through 6 are carried at the lower of amortized cost or fair value with the difference reflected in unassigned surplus as unrealized capital loss.
- (3) Common stocks are stated at fair market value with changes in fair value recorded as a change in net unrealized capital gains (losses) in unassigned surplus, except for investments in stocks of wholly owned uncombined subsidiaries and affiliates, which the Company carries on the equity basis.
- (4) Redeemable preferred stocks are carried at amortized cost or the lower of cost or fair value, depending on the assigned NAIC designation. Perpetual preferred stocks are carried at fair value not to exceed the current effective call price.
- (5) Mortgage loans on real estate are stated at their unpaid principal balance.
- (6) The Company does not invest in loan-backed securities.
- (7) The Company has no related non-insurance companies.
- (8) Other invested assets consist of investments in joint ventures, partnerships and limited liability companies and surplus notes. The Company generally carries these interests based on the underlying audited GAAP equity of the investees.
- (9) The Company has no derivatives.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP NO. 53, Property-Casualty Contracts-Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) The Company has not recorded any pharmaceutical rebate receivables.

D. Going Concern

Management has not identified any factors that would cast substantial doubt about the Company's ability to continue as a going concern.

Notes to the Financial Statements

20. Fair Value Measurements

A. Fair Value Measurement

(1) Fair value measurements at reporting date

Fair value is defined per SSAP 101R as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company is responsible for the determination of fair value of financial assets and liabilities, including the supporting assumptions and methodologies, and uses independent third-party valuation service providers, broker quotes and internal pricing methods to determine fair values. The Company obtains or estimates only one single quote or price for each financial instrument. The Company uses a hierarchical framework for inputs to determine fair value which prioritizes the use of observable inputs and minimizes the use of unobservable inputs. Additionally, the Company categorizes fair value measurements based on the lowest level of input that is considered to be significant to the entire measurement. Assets measured and reported at fair value are categorized as follows:

- Level 1: Unadjusted quoted prices for identical assets or liabilities in an active market.
- Level 2: Observable inputs other than Level 1: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in markets that are not active; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.
- Level 3: Assets and liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Unobservable inputs reflect the Company's estimates of the assumptions that market participants would use in valuing the assets and liabilities.

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total
a. Assets at fair value					
Cash Equivalents	\$ 30	\$	\$	\$	\$ 30
Total assets at fair value/NAV	\$ 30	\$	\$	\$	\$ 30
b. Liabilities at fair value					
Total liabilities at fair value	\$	\$	\$	\$	\$

(2) Fair value measurements in Level 3 of the fair value hierarchy - Not Applicable

(3) At the end of each reporting period, the Company evaluates whether or not any event has occurred, or circumstances have changed that would cause an instrument to be transferred into or out of Level 3. Transfers into Level 3 are generally as a result of securities reported at amortized cost in the prior period that are being reported at market value in the current period. Likewise, transfers out of Level 3 are generally as a result of securities reported at market value in the prior period that are being reported at amortized cost in the current period.

(4) The fair value hierarchy by level is designed to distinguish between inputs that are observable in the marketplace, which are therefore more objective, and those that are unobservable, which are more subjective. This leveling helps to indicate the relative subjectivity and reliability of the fair value measurements.

(5) The reporting entity does not have any derivative assets or liabilities.

B. Other Fair Value Disclosures - Not Applicable

C. Fair Values for All Financial Instruments by Level 1, 2 and 3

Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Not Practicable (Carrying Value)
Bonds	\$ 3,022,121	\$ 2,843,634	\$ 1,357,005	\$ 1,665,116	\$	\$	\$
Cash Equivalents	789,527	789,527	789,527				

The Company uses third party valuation service providers which are leading, nationally recognized providers of market data and analytics and utilize proprietary models that vary by asset class and incorporate available trade, bid and other market information when developing valuation information in the form of a single fair value for individual bond or equity security. The inputs used by the valuation service providers include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, interest rate yield curves, credit spreads, liquidity spreads, sector groupings and benchmarking of like securities. Credit and liquidity spreads are typically implied from completed transactions and transactions of comparable securities. Valuation service providers also use proprietary discounted cash flow models that are widely accepted in the financial services industry and similar to those used by other market participants to value the same financial instruments. The valuation models take into account, among other things, market observable information as of the measurement date, as well as the specific attributes of the security being valued including its term, interest rate, credit rating, industry sector, and where applicable, collateral quality and other issue or issuer specific information. The Company classifies investments in US Treasury bonds, actively traded exchange traded funds, mutual funds, and public common stock as Level 1 securities. The Company classifies investments in public corporate bonds, states and political subdivisions bonds, collateralized loan obligations, mortgage-backed securities, convertible bonds, majority of preferred stocks and certain private placement bonds and common stock as Level 2 securities.

The Company classifies investments as Level 3 in the fair value hierarchy when specific inputs significant to the fair value estimation models are not market observable. Significant unobservable inputs used include credit profile, credit spread, and resulting market yield, which involve considerable judgment by management. This primarily occurs when fair value is derived using non-binding broker quotes where the inputs have not been corroborated to be market observable, or internal valuation estimates that use significant non-market observable inputs. The Company classifies investments in certain private placement bonds, private asset backed securities, and certain preferred stock are currently as Level 3 securities.

Notes to the Financial Statements

25. Changes in Incurred Losses and Loss Adjustment Expenses

- A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years
- Property and casualty insurance reserves are estimates based on historical experience patterns and current economic trends. Actual loss experience and loss trends are likely to differ from these historical experience patterns and economic conditions. Loss experience and loss trends emerge over several years from the dates of loss inception. The Company monitors such emerging loss trends. Upon concluding, based on the data available, that an emerging loss trend will continue, the Company adjusts its property and casualty insurance reserves to reflect such trend. These changes in loss trend are reflected in the results of the period of change and included in the Company's financial statements net of reinsurance. The business to which this development relates is not retrospectively rated; therefore, they are not subject to premium adjustments. As the Company losses are ultimately ceded to its affiliate, Trinity Universal Insurance Company, net reserves as of December 31, 2021 and December 31, 2020 were \$0, and the Company experienced no reserve development.
- B. Significant Changes in Methodologies and Assumptions Used in Calculating the Liability for Unpaid Losses and Loss Adjustment Expenses - Not Applicable

26. Intercompany Pooling Arrangements

- A. The Company and certain of its insurance affiliates maintain an intercompany reinsurance pooling agreement with the Company's parent, Infinity Insurance Company. The effect is to transfer all direct insurance liabilities of the pool members to Infinity Insurance Company and to cede specified percentages of the net underwriting results of Infinity Insurance Company to the participating pool members as follows:

Lead Entity and all Affiliated Entities	NAIC Company	Pooling
Infinity Insurance Company	22268	99.1 %
Infinity Assurance Insurance Company	39497	0.1 %
Infinity Auto Insurance Company	11738	0.1 %
Infinity Casualty Insurance Company	21792	0.1 %
Infinity Indemnity Insurance Company	10061	0.1 %
Infinity Preferred Insurance Company	10195	0.1 %
Infinity Safeguard Insurance Company	16802	0.1 %
Infinity Security Insurance Company	38873	0.1 %
Infinity Select Insurance Company	20260	0.1 %
Infinity Standard Insurance Company	12599	0.1 %

- B. Lines and Types of Business Subject to Pooling Agreement - Not Applicable
- C. The Company's net underwriting results are determined after making cessions to various other non-affiliated reinsurers under terms of other reinsurance agreements. Substantially all of these cessions are made subsequent to the pooling of business from the pool members to Infinity Insurance Company.
- D. Not Applicable
- E. There are no discrepancies between entries regarding pooled business on the assumed and ceded reinsurance schedules of the lead company and the corresponding entries on the assumed and ceded reinsurance schedules of other pool participants.
- F. The Provision for Reinsurance (Schedule F, Part 7), if any, is recorded by Infinity Insurance Company and is not shared with the other pool participants. Uncollectible reinsurance balances which are written off are subject to the terms of the pooling agreement.

What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The Company does not write workers compensation insurance.

6.2

Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
All policies are ceded to Infinity Insurance Company as part of the intercompany pooling agreement (see Note 26) and, ultimately, reinsured by Trinity Universal Insurance Company, as part of a 100% quota share agreement between Infinity Insurance Company and Trinity Universal Insurance Company.

6.3

What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
All policies are ceded to Infinity Insurance Company as part of the intercompany pooling agreement (see Note 26) and, ultimately, reinsured by Trinity Universal Insurance Company, as part of a 100% quota share agreement between Infinity Insurance Company and Trinity Universal Insurance Company.

6.4

Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?

Yes [☐] No [☒]

6.5

If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.
All policies are ceded to Infinity Insurance Company as part of the intercompany pooling agreement (see Note 26) and, ultimately, reinsured by Trinity Universal Insurance Company, as part of a 100% quota share agreement between Infinity Insurance Company and Trinity Universal Insurance Company.

7.1

Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)?.....

Yes [☐] No [☒]

7.2

.....

9.1

Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity.
