NOTES TO FINANCIAL STATEMENTS**Note 1 – Summary of Significant Accounting Policies and Going Concern****A. Accounting Practices**

The financial statements of Branch Insurance Exchange (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The state of Ohio requires insurance companies domiciled in the state of Ohio to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* (NAIC SAP) subject to any deviations prescribed or permitted by the Ohio Insurance Department.

A reconciliation of the company's net income and capital surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio are as follows below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Direct and ceded premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods.

Commissions and other expenses incurred in connection with acquiring new insurance business are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists of interest less investment related expenses. Interest is recognized on an accrual basis. Net realized capital gains (losses) are recognized on a specific identification basis when securities are sold, redeemed, or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Investment grade bonds not backed by other loans are stated at amortized cost using the interest method. Non-investment grade bonds with NAIC designation of 3 through 6 would be stated at lower of amortized cost or fair value. The company does not currently have any of these non-investment grade bonds. The Company's bond portfolio is reviewed quarterly and as a result the carrying value of a bond may be reduced to reflect changes in valuation resulting from asset impairment. The Company does not hold any mandatory convertible securities or SVO-identified investments identified in SSAP No. 26R.
- (3) Common stocks – Not applicable.
- (4) Preferred Stocks – Not applicable.
- (5) Mortgage Loans – Not applicable.
- (6) Investment grade loan-backed securities are stated at amortized cost. The retrospective adjustment method is used to determine amortized value for all loan-backed securities. Non-investment grade loan-backed securities with NAIC designations of 3 through 6 would be stated at the lower of cost or fair value. The Company does not currently have any non-investment grade loan-backed securities.

NOTES TO FINANCIAL STATEMENTS

The carrying value and final NAIC designation for non-agency residential mortgage-backed securities are determined using a special two-step NAIC process. Those assigned a NAIC designation in the first step of 1 or 2 are stated at amortized cost and those assigned a 3 through 6 are stated at the lower of amortized cost or fair value. The NAIC designation assigned under the second step of the process is reported for these securities in Schedule D and is used in the risk-based capital calculation. The Company does not currently have any non-agency residential mortgage-backed securities.

- (7) Subsidiaries, Controlled and Affiliated Entities – Not applicable.
- (8) Joint Ventures, Partnerships, and Limited Liability Companies – Not applicable.
- (9) Derivatives – Not applicable.
- (10) Anticipated Investment Income – Not applicable.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) Capitalization Policy Change – Not applicable.
- (13) Pharmaceutical Rebate Receivables – Not applicable.

D. Going Concern

Management is confident of the Company's ability to continue as a going concern.

Note 2 – Accounting Changes and Correction of Errors

There were no corrections required for errors in prior reporting periods.

Note 3 – Business Combinations and Goodwill

Not applicable.

Note 4 – Discontinued Operations

Not applicable.

Note 5 – Investments**A. Mortgage Loans, including Mezzanine Real Estate Loans**

Not applicable.

B. Debt Restructuring

Not applicable.

C. Reverse Mortgages

Not applicable.

D. Loan-Backed Securities

- (1) Prepayment assumptions for mortgage-backed/asset-backed securities were obtained from broker dealer survey values and are based on the current interest rate and economic environment
- (2) (3) Securities with recognized other-than-temporary impairment – Not applicable.
- (4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:	
1. Less than 12 Months	\$ 25,821
2. 12 Months or Longer	\$ 33,165
b) The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 Months	\$ 2,407,789
2. 12 Months or Longer	\$ 2,137,391

- (5) The Company determines a decline to be other than temporary by reviewing and evaluating relevant objective and subjective factors for each security, including the extent of the depressed value, the length of time the value has been depressed, the Company's intent and ability to hold the security, a security's current performance, the financial condition of the issuer, the industry in which the issuer operates, and the status of the market as a whole. Assessments include judgments about an obligor's or guarantor's current and projected financial position, projected ability to service and repay its debt obligations, the existence of, and realizable value for, any collateral backing the obligations, and the macro-economic and micro-economic outlooks for specific industries and issuers. Estimating the future cash flows of loan-backed securities also involves assumptions regarding the underlying collateral such as prepayment rates, default and recovery rates, existence of subordinated classes capable of absorbing losses, and third-party servicing abilities. There have been no security declines determined to be other than temporary in the current or prior year.

F. Management, Service Contracts, Cost Sharing Arrangements

All Company policy subscribers designate BFI as the Attorney-in-Fact for the Company through an executed subscriber agreement. Each subscriber agreement requires the Company to reimburse BFI for all expenses incurred at BFI during the course of business that are attributed to operating the Company. The Company is also required to pay a commission to BFI in exchange for the services performed by BFI in their attorney-in-fact relationship with the Company at 5% of written premium. All payments of premium, fees, and surplus contributions are collected by BFI and remitted to the Company in a timely fashion. All payables and receivables between the Company and BFI are also settled in a timely fashion.

NOTES TO FINANCIAL STATEMENTS**Note 13 – Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations**

Along with their policy premium, subscribers agree to make a surplus contribution to the Company equal to 2% of all premiums. The surplus contribution is payable to the Company on or prior to the initial effective date of coverage and on or prior to the effective date of all endorsements generating additional premium. The amounts paid as surplus contributions are credited to policyholder surplus for the benefit and protection of subscribers. Upon the issuance of a policy, or any other confirmation of coverage by the Company, the return of surplus contributions can occur only after withdrawal of the subscriber from the Company, and only with the approval of BFI and regulating authorities, where so required. The Company will return any surplus contributions (without interest) made during the policy term on a pro-rata basis to those subscribers who terminate coverage for any reason proportional to their unearned premiums returned. All other surplus contributions, including those made on previous policy terms, are retained by the Company for the benefit of all remaining subscribers unless otherwise distributed into subscriber savings accounts.

NOTES TO FINANCIAL STATEMENTS**Note 20 – Fair Value Measurements**

SSAP 100, Fair Value Measurements, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The three levels of the fair value hierarchy are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable; or inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Company believes its valuation methods are appropriate and consistent with other market participants. The use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
