## NOTES TO FINANCIAL STATEMENTS

**NOTE 1 Summary of Significant Accounting Policies and Going Concern**
**A. Accounting Practices**

The financial statements of Ohio Farmers Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

The Company has not implemented any prescribed or permitted accounting practices by the State of Ohio that differ from those found in NAIC SAP.

**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**C. Accounting Policy**

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are reported in the same manner as similar long-term investments per Statements of Statutory Accounting Principles (SSAP) No.2.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method per SSAP No.26.
- (3) Common stocks are stated at market per SSAP No. 30, except for investments in stocks of uncombined subsidiaries in which the Company has an interest of 20% or more, which are carried on the equity basis per SSAP No.97.
- (4) Preferred Stocks - Not applicable
- (5) Mortgage Loans - Not applicable
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities. If a security has been written down due to an other-than-temporary impairment, the prospective adjustment method is used subsequent to the loss recognition in accordance with SSAP No.43R.
- (7) The Company owns 100.0% of the common stock of the Westfield Insurance Company, Westfield National Insurance Company, American Select Insurance Company, Old Guard Insurance Company, Westfield Champion Insurance Company, Westfield Premier Insurance Company, Westfield Superior Insurance Company, Westfield Touchstone Insurance Company, Westfield Specialty Insurance Company and Westfield Select Insurance Company. These common stocks are all carried at statutory equity of each reporting entity as described in SSAP No. 97. It owns 100.0% of Westfield Bancorp, Inc., Westfield Marketing, LLC, Westfield Securities, LLC, 150 South Road, LLC and 1848 Ventures, LLC, which are each measured on a GAAP equity basis as described in SSAP No. 97. It owns 100.0% of the common stock of Westfield Management Company and Westfield Specialty, Inc., which are recorded based on the underlying equity of the entity adjusted to a statutory accounting basis and adjusted for remaining goodwill, if any, as described in SSAP No. 97. Westfield Marketing, LLC, Westfield Securities, LLC, 150 South Road, LLC, 1848 Ventures, LLC, Westfield Management Company and Westfield Specialty, Inc. are unaudited, nonadmitted assets.
- (8) The Company has a non-controlling ownership interest in a partnership which has underlying characteristics of common stock and is carried at market value per SSAP No.30. In addition, the Company has an interest in a trust which is reported as an other invested asset with the carry value determined in accordance with the SSAP applicable to the underlying assets. Partnership investments in private limited partnerships are recorded at cost and adjusted for the Company's proportional share of the entity's audited GAAP earnings and other equity adjustments less any distributions received per SSAP No. 48.
- (9) Derivative Instruments - Not applicable
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined. The Company has limited exposure to asbestos and environmental claims and management believes the reserve for such claims is adequate.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmaceutical rebate receivables are applicable to health insurance entities. The Company does not offer health insurance policies.

The measurement date (annual valuation) used to determine other postretirement benefit measurements for postretirement benefit plans that make up at least the majority of plan assets and benefit obligation is December 31 (based on January 1 participant data). The fair market value of assets is measured and updated as of December 31.

The Company considered the impact of the COVID-19 pandemic in its plan assumptions and determined no adjustments were necessary. The Company will continue to monitor the situation and impact as the pandemic continues to evolve.

(8) The amount of the accumulated benefit obligation for the defined benefit Pension Plan was \$568,176,417 for 2021 and \$555,972,492 for 2020. The amount of the accumulated benefit obligation for the Nonqualified Plan was \$98,385,072 for 2021 and \$101,073,015 for 2020.

(9) For measurement purposes, a 6.50% annual rate of increase in the per capita cost of covered health care benefits was assumed for 2021 (6.75% for 2020). The rate is assumed to decrease gradually to 5.00% for 2027 and remain at that level thereafter.

In addition to pension benefits, the Company and its subsidiaries provide certain health care and life insurance benefits for retired employees and their eligible dependents via the Ohio Farmers Insurance Company Group Health Benefit Plan and Ohio Farmers Insurance Company Group Life Insurance Plan (Postretirement Benefit Plans). Employees who meet the requirements for retirement and other eligibility prerequisites are eligible for these benefits. The Company's future obligation for annual medical and dental costs is generally limited to between \$1,500 and \$6,500 per covered individual based on age and years of service. New employees hired on January 1, 2002 or after are not eligible for the postretirement benefits under the Ohio Farmers Insurance Company Group Health Benefit Plan.

The Ohio Farmers Insurance Company Group Life Plan provides a flat \$15,000 postretirement life insurance benefit for all current and future retirees. The cost of postretirement benefits is accrued during the years after retirement eligibility occurs.

The Company also sponsors a nonqualified Supplemental Executive Retirement Plan (SERP) and Supplemental Executive Retirement Compensation Plan (SERC). The SERP and SERC, which are unfunded, provide benefits to eligible senior leadership positions based on average earnings, years of service, and age at retirement.

(10) The following estimated future payments, which reflect expected future service, as appropriate, are expected to be paid in the years indicated:

	Amount
a. 2022	\$ 25,896,487
b. 2023	\$ 26,813,880
c. 2024	\$ 27,777,435
d. 2025	\$ 28,913,463
e. 2026	\$ 30,298,463
f. 2027 through 2031	\$ 176,157,530

(11) The Company may have regulatory pension plan contribution requirements for 2022; and the Company currently intends to make voluntary contributions of approximately \$27,100,000 to the defined benefit pension plan with reference to the Company's contribution funding guidelines.

The Company contribution funding guidelines address the contribution and funding limitations as adjusted by the Pension Protection Act of 2006. The guidelines provide that the Company will generally contribute an amount equal to the value of benefits earned each year regardless of whether or not a minimum contribution is required with an option to not fund in years where a minimum contribution is not projected during the subsequent five (5) years. Minimum required contributions are made at the direction of the Employee Benefits Administrative Committee (EBAC) and will always be funded. Contributions in excess of the minimum required contribution are at the final discretion of the EBAC.

The Company's postretirement health care plan is contributory, with participants' contributions adjusted annually; the life insurance plan is non-contributory.

**B. Investment Policies and Strategies**

The defined benefit pension plan asset allocation as of the measurement date, December 31, and the target asset allocations, presented as a percentage of total plan assets were as follows:

	2021	2020	Target Allocation
a. Cash	1%	1%	0%
b. Debt securities	36%	39%	35% - 45%
c. Equity securities	54%	54%	45% - 55%
d. Real estate	0%	0%	0%
e. Limited partnerships	9%	6%	5% - 15%
f. Total	100%	100%	

The Company's policy of investment is based on a standard plan and formula. The investment plan and formula states that all assets of the pension trust except dividends and interest received from portfolio securities will be a part of the investment fund (formula). The investment fund will normally consist of debt instruments, including those of governments, government agencies and publicly owned corporations, and mutual funds and exchange traded funds comprised of the same; properly diversified number of common and/or preferred stocks of publicly owned corporations, and mutual funds and exchange traded funds comprised of the same; and alternative investment holdings of limited partnership interests in direct private debt or direct private equity investments. The investment fund will be divided between these three normal portions. The debt instruments comprise the Bond Fund and shall be considered normal when it is 40% of the investment fund and is maintained on at least a quarterly basis in a range of 35% to 45% of the fund. The equities comprise part of the Risk Fund and shall be considered normal when it is 60% of the investment fund and is maintained on at least a quarterly basis in a range of 55% to 65% of the fund. The limited partnerships comprise part of the Risk Fund and shall be considered normal when it is 20% of the investment fund and is maintained on at least a quarterly basis in a range of 15% to 25% of the fund. When the funded level based on Projected Benefit Obligation is greater than 105% or less than 95%, the target will be adjusted in 5% increments and maintained on at least a quarterly basis in a range of + or - 5% of that adjusted increment. The measurement date for these funds is December 31, annually.

## NOTES TO FINANCIAL STATEMENTS

The investments fund portfolio will have the following overall characteristics:

- (1) Complies with provisions of the Ohio Farmers Pension Trust Investment Policy Statement,
- (2) Above average financial quality,
- (3) Broadly diversified,
- (4) Liquidity requirements minimal, and
- (5) Long term time horizon.

The following additional constraints are placed on individual investments within the portfolio:

- (1) No equity investment shall be held unless dividends are paid (except in the case of mutual funds and exchange traded funds), and
- (2) No debt shall be held unless:
  - a. Straight bonds will have a duration range of + or - 5 years of actuarially determined benefit obligation duration and be of investment grade, and
  - b. Convertible bonds may not exceed 20% of the bond fund and must be of investment grade.

The funds shall be managed by the EBAC, utilizing investment advice provided under an agreement with the Company. The EBAC annually reviews the investment plan and formula.

<b>Total Plan Assets</b>	<b>\$ 529,826,373</b>	<b>\$ 178,693,520</b>	<b>\$ -</b>	<b>\$ 708,519,893</b>

- (2) The Company determines the fair value of its defined benefit pension plan and postretirement plan assets with a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs) and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy level assigned to each security is based on management's assessment of the transparency and reliability of the inputs used in the valuation of such instruments at the measurement date.

The Company's policy for determining when a transfer between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the reporting period in which the transfer occurs.

There were no transfers into or out of Level 1, 2 or 3 during 2021.

**D. Basis Used to Determine Expected Long-Term Rate-of-Return**

The long-term rates of return were determined using a combination of actual results and published market data. The rates are within the high and low ends of an expected return range. The low end of the range was calculated by multiplying the percentage of portfolio composition of each asset category by published historical return data for the category. The high end of the range was calculated by combining the published market data with actual historical returns for the pension plan weighting the percentages, 80% published and 20% historical.

The investment approach for Postretirement Benefit Plans follows the same conservative investment strategies as for the Pension Plan. In light of the shorter duration, however, more emphasis is placed on investments that provide a stable return to fund more current needs.

**E. Defined Contribution Plan**

The Company's employees are covered by a qualified defined contribution pension plan (under IRC Section 401(k)) sponsored by the Ohio Farmers Insurance Company. The plan began operation on January 1, 2000, in accordance with "Safe Harbor" Treasury regulations.

Contributions of three percent (3%) of each employee's eligible compensation are made during the year. The Company's non-elective contribution for the plan was \$1,069,453 and \$1,069,173 for 2021 and 2020, respectively.

At December 31, 2021, the total fair market value of the defined contribution plan assets was \$484,808,031, including unrealized gains and losses and participant loans.

**F. Multiemployer Plans**  
Not applicable

**G. Consolidated/Holding Company Plans**  
Not applicable

**H. Postemployment Benefits and Compensated Absences**

**NOTE 20 Fair Value Measurements**

- A. Fair Value Measurements

For assets that are measured and reported at fair value or net asset value (NAV) in the statement of financial position after initial recognition, the valuation techniques and the inputs used to develop those measurements are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The Company has no liabilities that are measured at fair value in the statement of financial position.

(2) At December 31, 2021, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 3.

(3) The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs. The Company held no assets or liabilities categorized as Level 1, 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1, 2021.

(4) As of December 31, 2021, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 2 or Level 3. Historically, fair values in the Level 2 category are provided by independent pricing services. Where independent pricing services provide fair values, the Company has obtained an understanding of the methods, models and inputs used in pricing and has controls in place to validate that amounts provided represent current fair values. Estimated fair values of investments categorized as Level 3 generally include inputs for which no readily observable inputs are available and require management judgment.

(5) As of December 31, 2021, the Company had no holdings classified as either a derivative asset or liability.

- B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements - Not required

- C. Fair Value Level

The method(s) and significant assumptions used to estimate the fair value of financial instruments are as follows:

Investment Securities - Fair values for bonds, including the aggregate write-ins for invested assets are based on the values prescribed by an independent pricing service or from brokers. For bonds that are not actively traded, estimated fair values are based on values of bonds of comparable yield and credit quality. The fair values for common stocks are based on quoted market prices, where available, which are provided to the Company by an independent pricing service.

Cash Equivalents - Cash equivalents include money market mutual funds, which are reported at fair value. Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes in value due to change in interest rates.

Other Invested Assets - The estimated fair value of publicly traded limited partnerships and trusts is based on the values prescribed by an independent pricing service.

F. Subprime Mortgage Related Risk Exposure

(1) The subprime lending sector is the sector of the mortgage lending industry which lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also applies to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals.

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, or underwriting risk associated with the risk from the subprime lending sector. This includes any direct risk through investments in debt securities, asset backed or structured securities, hedge funds, subsidiaries and affiliates, and insurance product issuance. The Company views the following features as common characteristics of subprime mortgage loans:

- a. An interest rate above prime to borrowers who do not qualify for prime rate
- b. Borrowers with low credit ratings (FICO scores)
- c. Interest-only or negative amortizing loans
- d. Unconventionally high initial loan-to-value ratios
- e. Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable rate plus a margin for the remaining term of the loan
- f. Borrowers with less than conventional documentation of their home and/or assets
- g. Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount
- h. Include substantial prepayment penalties

The Company's strategy to manage or mitigate subprime exposure is to avoid making direct investments in, or insuring any of the sources of risk identified above. Westfield Bancorp, Inc.'s strategy to manage or mitigate subprime exposure is to adhere to stringent underwriting standards and to require Board review for any exceptions before loan approval.

(2) The Company has no direct exposure through investments in subprime mortgage loans. The Company's wholly owned affiliate, Westfield Bancorp, Inc., has insignificant subprime related risk exposure.

(3) The Company has no direct exposure through other investments.

(4) The Company has no underwriting exposure to subprime mortgage related risk.

**NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses**

Reserves as of December 31, 2020 were \$327.7 million. In calendar year 2021, \$105.7 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$207.4 million. Therefore, there has been a \$14.6 million favorable prior-year development from December 31, 2020 to December 31, 2021. The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: Commercial Auto Liability, Workers Compensation, and Other Liability. This change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.

### NOTE 33 Asbestos/Environmental Reserves

The Company's exposure to asbestos and environmental claims arises from general liability and commercial multiple peril lines of business. The Company tries to estimate the full impact of the asbestos and environmental exposure by establishing full case basis reserves on all known claims and computing incurred but not reported losses based on market share tempered by previous experience. In addition, reserves are held for future allocated loss adjustment expenses including coverage dispute costs.

In 2018, the Company elected to move \$570,000 from environmental IBNR reserves to asbestos IBNR reserves. The Company still believes that the total reserves held for asbestos and environmental claims make a reasonable provision for unpaid claims.

- A. Does the company have on the books, or has it ever written an insured for which you have identified a potential for the existence of a liability due to asbestos losses? Yes (X) No ( )

The Company's asbestos related losses (including coverage dispute costs) for each of the five most recent years were as follows after intercompany pooling:

ANNUAL STATEMENT FOR THE YEAR 2021 OF THE Ohio Farmers Insurance Company  
**GENERAL INTERROGATORIES**

**PART 2 - PROPERTY AND CASUALTY INTERROGATORIES**

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?  
 Reinsurance protection was provided by two agreements: the Multiple Line Excess of Loss with three layers (\$4.5M x \$3M, \$7.5M x \$7.5M and \$10M x \$15M); and the Casualty Clash and Contingency Excess with two layers (87.75% of \$15M x \$25M and 87.75% of \$30M x \$40M). These two contracts total \$61.5M above a \$3M retention per occurrence.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.  
 The modeled all perils probable maximum loss at the 250 year return time is \$311M. This is a 50%/50% blend of RMS RiskLink v18.1 and AIR Touchstone v8.0 and includes hurricane, earthquake and severe convective storm. The locations of concentrations are southeastern PA, DE, GA and FL for hurricane; OH for severe convective storm; and IN, KY and OH for earthquake. The reinsurance broker, Aon, models the insured exposures on the Company's behalf.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?  
 The property catastrophe reinsurance program consisted of four layers. The first layer has two automatic reinstatements; the second, third, and fourth layers have one automatic reinstatement for additional premium. The total amount of coverage for a single loss occurrence was \$350 million excess of the Company's \$50 million net retention per loss occurrence.

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? ..... Yes [ X ] No [ ]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to unreinsured catastrophic loss.

7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss ratio cap, an aggregate limit or any similar provisions)? ..... Yes [ X ] No [ ]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions: ..... 1

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)? ..... Yes [ X ] No [ ]

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? ..... Yes [ ] No [ X ]

8.2 If yes, give full information

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:

 (c) Aggregate stop loss reinsurance coverage;  
 (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;

 (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. ..... Yes [ ] No [ X ]

 (a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or

 (c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. ..... Yes [ ] No [ X ]
