ANNUAL STATEMENT FOR THE YEAR 2021 OF THE CareSource Ohio Inc.

NOTES TO FINANCIAL STATEMENTS

These items are based on illustrations taken from the NAIC Annual Statement Instructions

1. Summary of Significant Accounting Policies and Going Concern

- A. Accounting Practices
Basis of Presentation – CareSource Ohio's (CSOH) statutory-basis financial statements are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI). The ODI requires that insurance companies domiciled in the State of Ohio prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners *Accounting Practices and Procedures Manual* (NAIC AP&P) subject to any deviation prescribed or permitted by the ODI.

Accounting practices and procedures of the NAIC, as prescribed or permitted by the insurance department of the applicable states of domicile, comprise a comprehensive basis of accounting other than accounting principles generally accepted in the United States (GAAP).

The effects of the foregoing variances from GAAP on the accompanying statutory-basis financial statements total (\$25,115,839) in net income and \$18,453,363 in net statutory surplus.

CSOH has a permitted practice which is different from the State of Ohio and NAIC SAP concerning the admittance of housing fund investments, as illustrated in the table below.

- B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in accordance with statutory accounting principles requires management to make estimates and assumptions that affect the reported amount of admitted assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

- (1) Short term investments include investments with remaining maturities of one year or less at the time of acquisition and are principally stated at amortized cost.
- (2) Bonds not backed by other loans are principally stated at amortized cost using the interest method. Realized capital gains and losses are determined using the first in, first out method.
- (3) Common stocks are reported at fair value as determined by the SVO and the related net unrealized capital gains (losses) are reported in unassigned surplus. There are no restrictions on common stock.
- (4) CSOH does not hold any preferred stock.
- (5) CSOH does not hold any mortgage loans.
- (6) Single class and multi-class mortgage-backed/asset-backed securities are valued at amortized cost using the interest method including anticipated prepayments. Prepayment assumptions are obtained from dealer surveys and are based on the current interest rate and economic environment. The retrospective adjustment method is used to value all such securities.
- (7) CSOH does not invest in any subsidiary, controlled or affiliated entities.
- (8) CSOH does not invest in any joint ventures, partnerships, or limited liability companies.
- (9) CSOH does not hold any derivative instruments.
- (10) CSOH does not utilize anticipated investment income in the computation of the premium deficiency calculation in accordance with NAIC guidelines.
- (11) Claims unpaid and unpaid claims adjustment expense liabilities represent management's best estimate of the ultimate net cost of all reported and unreported claims incurred through December 31. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid claims are adequate. The estimates are continually reviewed and adjusted as necessary as experience develops or new information becomes known; such adjustments are included in current operations.
- (12) CSOH does not hold any assets requiring capitalization.
- (13) Pharmacy rebates are attained based on agreements between CSOH and a third party administrator for prescription drugs. Pharmacy rebates are admitted if accrued or invoiced within 90 days of the reporting period. Pharmacy rebates are non-admitted if invoiced and uncollected over 90 days prior to the reporting period.

- (1) For fixed-rate agency mortgage-backed securities, Clearwater Analytics calculates prepayment speeds utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer-consensus survey of long-term prepayment projections. For other mortgage-backed, loan-backed, and structured securities, Clearwater utilizes prepayment assumptions from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. In instances where Moody's projections are not available, Clearwater uses data from Reuters, which utilizes the median prepayment speed from contributors' models.

All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

- a. The aggregate amount of unrealized losses:

1. Less than 12 Months	\$	2,948,462
2. 12 Months or Longer	\$	30,241

ANNUAL STATEMENT FOR THE YEAR 2021 OF THE CareSource Ohio Inc.

b.	The aggregate related fair value of securities with unrealized losses:		
		1. Less than 12 Months	\$ 272,355,336
		2. 12 Months or Longer	\$ 591,542

(5) Management regularly reviews the value of CSOH's investments. If the value of any investment falls below its cost basis, the decline in value is analyzed to determine whether it is other-than-temporary impairment. The decision to record an impairment loss incorporates both quantitative criteria and qualitative information. CSOH considers a number of factors including, but not limited to: (a) the length of time and the extent to which the fair value has been less than book value, (b) the financial condition and near term prospects of the issuer, (c.i.) for non-interest-related declines in corporate and government bonds, the intent and ability of CSOH to retain its investment for a period of time sufficient to allow for any anticipated recovery in value, (c.ii.) for interest related declines in corporate and government bonds, the intent of CSOH to sell the investment at the reporting date, (c.iii.) for mortgage-backed securities, whether CSOH expects to recover the entire amortized cost basis of the security and whether CSOH has the intent to sell or intent and ability to hold the investments for a period of time sufficient to allow for any anticipated recovery in value, (d) whether the debtor is current on interest and principal payments, and (e) general market conditions and industry or sector specific factors. As of December 31, 2021, CSOH holds \$226.9 million of loan backed securities. As of December 31, 2020 CSOH held \$226.9 million of loan backed securities, none of which met the criteria for impairment.

CSOH does not hold any investments as of December 31, 2021 that are subject to redemption restrictions or penalties therefore all holdings can be liquidated immediately upon request, without penalty.

Other Lawsuits and Claims

The health care industry is subject to numerous laws and regulations of federal, state and local governments. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. Penalties associated with violations of these laws and regulations include significant fines and penalties, exclusion from participating in publicly-funded programs, and the repayment of previously billed and collected revenues.

From time to time we are involved in legal actions in the ordinary course of business, some of which seek monetary damages. Some lawsuits and claims are covered by insurance and others are not. The outcome of such legal actions is inherently uncertain. Nevertheless, we believe that these actions, when finally concluded and determined, are not likely to have a material adverse effect on our financial position, results of operations, or cash flows.

18. Gain or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans
- The Company has a contract with the Ohio Department of Medicaid to provide case management services for the Home and Community Based Waiver program. The structure of the program as an entity that solely performs administrative services qualifies it for classification as an uninsured, administrative services only (ASO) plan.

- A. ASO Plans
- The gain from operations from Administrative Services Only (ASO) uninsured plans and the uninsured portion of partially insured plans was as follows during 2021 :

	ASO Uninsured Plans	Uninsured Portion of Partially Insured Plans	Total ASO
a. Net reimbursement for administrative expenses (including administrative fees) in excess of actual expenses	\$ 3,150,002	\$	\$ 3,150,002
b. Total net other income or expenses (including interest paid to or received from plans)	\$	\$	\$ 0

- C. Medicare or Other Similarly Structured Cost Based Reimbursement Contract:

- (1) CSOH has recorded no revenues explicitly attributable to cost share and reinsurance components of administered Medicare products
- (2) As of December 31, 2021 CSOH had recorded a receivable from CMS of \$60.5 million related to the cost share and reinsurance components of administered Medicare products.
- (3) As no revenue is recorded in connection with the cost share and reinsurance components of CSOH's Medicare contracts, CSOH has recorded no allowances and reserves for adjustment of recorded revenues and receivables.
- (4) CSOH has made no adjustment to revenue resulting from audit of receivables related to revenues recorded in the prior period.

20. Fair Value Measurements

- A. CSOH uses fair value measurements to record the fair value of certain assets and to estimate the fair value of financial instruments not recorded at fair value but required to be disclosed at fair value.

- (1) Fair Value Measurements at Reporting Date
- Fair value is defined as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. CSOH's financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes inputs to valuation techniques used to measure fair value into three levels.

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities. CSOH's Level 1 assets and liabilities primarily include exchange-traded equity securities.
- Level 2 – Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads, and yield curves.
- Level 3 – Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect CSOH's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The following discussion described the valuation methodologies utilized by CSOH for assets measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows, and the credit standing of the issuer.

Debt and Equity Securities

The fair values of actively traded debt and equity securities are determined through the use of third-party pricing services utilizing market observable inputs. Certain mortgage-backed securities for which CSOH does not receive public quotations or for which CSOH believes market activity to reflect distressed sales are valued using current market-consistent rates applicable to yield, credit quality and maturity of each security. When available, market observable inputs are used to estimate the fair values of these securities.

Cash, Cash Equivalents, and Short-Term Investments

The fair values of cash and cash equivalents are based on quoted market prices. Short term investments are stated at amortized cost, which approximates fair value.

ANNUAL STATEMENT FOR THE YEAR 2021 OF THE CareSource Ohio Inc.

25. Changes in Incurred Claims and Claim Adjustment Expenses

- A. Reserves as of December 31, 2020 were \$881.7 million. As of December 31, 2021, \$574.3 million has been paid for incurred claims and claim adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are \$33.7 million, therefore, there has been a \$273.8 million favorable prior-year development since December 31, 2020 to December 31, 2021. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. Included in this decrease, CSOH experienced \$11.1 million of favorable experience in recoveries and health care receivables, and \$262.7 million of favorable prior year claim development on retrospectively rated policies.

30. Premium Deficiency Reserves

Premium deficiency reserve represents CSOH's estimate of the amount that the expected incurred claims, claims adjustment expenses and certain general administrative costs exceed the expected premiums earned for the remainder of the contract period of CSOH's in-force policies. For purposes of calculating the premium deficiency reserve, contracts are deemed to be short duration and are grouped in a manner consistent with CSOH's method of marketing, servicing and measuring the profitability of such contracts. Once established, the premium deficiency reserve is released commensurate with actual claims experience over the remainder of the contract period. The most recent evaluation date of this reserve was at December 31, 2021 and CSOH recorded a premium deficiency reserve of \$18.3 million.

- 1. Liability carried for premium deficiency reserves \$ 18,296,329
- 2. Date of the most recent evaluation of this liability 12/31/2021
- 3. Was anticipated investment income utilized in the calculation? Yes [] No [X]

31. Anticipated Salvage and Subrogation
Due to the type of business being written, CSOH has no salvage. CSOH took into account estimated recoveries (in the form of coordination of benefits) in its determination of the liability for unpaid claims/losses and reduced such liability by \$9.7 million.
