NOTES TO FINANCIAL STATEMENTS

NOTE 20 Fair Value Measurements

A. Financial assets carried at fair value have been classified, for disclosure purposes, based on a hierarchy defined by Statement of Statutory Accounting Principle No. 100, Fair Value Measurements. Level 1 inputs in the hierarchy consist of unadjusted quoted prices for identical assets and liabilities in active markets. Level 2 inputs consist of quoted prices in active markets for similar assets or liabilities or quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Level 3 inputs consist of unobservable inputs (supported by little or no market activity) and reflect management’s best estimate of what hypothetical market participants would use to determine a transaction price at the reporting date.

Total Liabilities	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Transfers in and out of Level 3 are made when NAIC designation changes require the security to be carried at fair value. Modeled prices are used when there is a lack of active trading in the security and transfers out occur when there is active trading in the market for the security.

(3) Level 3 inputs represent values for securities which are not actively traded in the market. The carrying values reflect management’s best estimate at the reporting date and transfers between levels are recognized on the actual date of an event or change in circumstances.

(4) Level 2 inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 inputs are unobservable (supported by little or no market activity), including broker quotes that are non-binding, and reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

(5) The Company has no derivative assets or liabilities.

B. Other Fair Value Disclosures
