**B. Use of Estimates in the Preparation of the Financial Statements**

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

**C. Accounting Policy**
**(1) Basis for Short-Term Investments**

Short term investments are stated at fair value, which approximates cost.

**(2) Basis for Bonds and Amortization Schedule**

Bonds (NAIC designations 1 & 2) are stated at amortized cost using the effective interest method. Bonds designated 3 to 6 are carried at the lower of amortized cost or fair value.

**(3) Basis for Common Stocks**

Common stocks are stated at market.

**(4) Basis for Preferred Stocks**

Not Applicable

**(5) Basis for Mortgage Loans**

Not Applicable

**(6) Basis for Loan-Backed Securities and Adjustment Methodology**

(11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses

Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. There are various methods used to estimate reserves and due to the general volatility, judgement is applied within our methods and selections. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.

**D. Going Concern**

In our most recent analysis, the year end December 31, 2021 cash and invested asset balances, excluding restricted balances pledged as statutory deposits, along with the remaining balance on the NICO cover (on a paid basis) were compared with the claims payments patterns plus a \$3m annual load for overhead. That analysis shows that the Company has the ability to continue as a going concern beyond one year from the financial statement issuance date.
