NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern**A. Accounting Practices**

The financial statements of Ohio National Life Assurance Corporation (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Insurance Department.

The Ohio Insurance Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

At March 31, 2022 and December 31, 2021 there were no permitted practices.

NOTES TO FINANCIAL STATEMENTS

(4) All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:

1. Less than 12 Months	\$ 6,738,822
2. 12 Months or Longer	\$ 467,743

b) The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	\$ 164,801,371
2. 12 Months or Longer	\$ 12,582,876

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

Cash flow modeling was performed on all of these securities using current and expected market based assumptions which showed that the investor will receive cash flow the percent of value of which is equal to the adjusted statement value. Therefore, any impairment is considered not other-than-temporary.

Included in various investment related line items in the statutory financial statements are certain financial instruments carried at fair value. Other financial instruments are periodically measured at fair value, such as when impaired, or for certain bonds and preferred stock when carried at the lower of cost or market.

Fair Value Hierarchy: Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. In determining fair value, the Company uses various methods including market, income and cost approaches. The market approach utilizes prices and other relevant information generated by market transactions involving identical or comparable assets and liabilities. The income approach uses discounted cash flows to determine fair value. When applying either approach, the Company maximizes the use of observable inputs and minimizes the use of unobservable inputs. Observable inputs reflect the assumptions market participants would use in valuing a financial instrument based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's estimates about the assumptions market participants would use in valuing financial assets and financial liabilities based on the best information available in circumstances.

The Company is required to categorize its assets and liabilities that are carried at estimated fair value on the statutory statements of admitted assets, liabilities, and capital and surplus into a three level hierarchy based on the priority of the inputs to the valuation technique in accordance with SSAP No. 100, Fair Value Measurements. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure estimated fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

- Level 1 – Fair value is based on unadjusted quoted prices for identical assets and liabilities in an active market at the measurement date. The types of assets and liabilities utilizing Level 1 valuations generally include cash and short-term investments, separate account assets and exchange traded derivatives.
- Level 2 – Fair value is based on significant inputs, other than quoted prices included in Level 1 that are observable in active markets or that are derived principally from or corroborated by observable market data through correlation or other means for identical or similar assets and liabilities. The types of assets and liabilities utilizing Level 2 valuations generally include U.S. government agency securities, municipal bonds, foreign government debt, certain corporate debt, asset-backed, mortgage-backed, unaffiliated surplus notes, and private placement securities, derivatives, common stocks, securities lending reinvested collateral and cash equivalent securities.
- Level 3 – Fair value is based on unobservable inputs for the asset or liability for which there is little or no market activity at the measurement date. Unobservable inputs used in the valuation reflect management's best estimate about the assumptions market participants would use to price the asset or liability. The types of assets and liabilities utilizing Level 3 valuations generally include certain corporate debt, asset-backed or mortgage-backed securities.

Coronavirus (COVID-19)

Coronavirus ("COVID-19") Risk is the potential risk the Company continues to be exposed to associated with the ongoing COVID-19 pandemic. The worldwide health and economic impact of COVID-19 continues to evolve, influenced by the scope, severity and duration of the crisis as well as the actions of governments, judiciaries, legislative bodies, regulators and other third parties in response, all of which are subject to continuing uncertainty. While the global economic outlook continues to improve, the ultimate impact of COVID-19 on our business will depend upon the speed at which government-mandated safety precautions can be fully lifted and the manner and speed with which economic activity sustainably rebounds.

Significant legislative and regulatory activity has occurred at both the U.S. federal and state levels, as well as globally, in response to COVID-19 and its impact on insurance consumers. While some of these legislative and regulatory initiatives have expired, resurgence of the COVID-19 virus may lead to a renewal of these initiatives. We cannot predict what form any further legal and regulatory responses to concerns about COVID-19 and related public health issues will take, how long they will last or how such responses will impact our business. We continue to actively monitor these developments and to cooperate fully with all government and regulatory authorities as they develop their responses.

The Company has implemented risk management and business continuity plans and taken preventive measures and other precautions, such as employee business travel restrictions and remote work arrangements which, to date, have enabled the Company to maintain its critical business processes; customer service levels; relationships with key vendors and distribution partners; financial reporting systems; internal controls over financial reporting; and disclosure controls and procedures. The Company is continuing to evaluate the potential long-term impact of the crisis to its operations and financial condition.

Acquisition of Ohio National Mutual Holdings, Inc. ("ONMH")

On March 22, 2021, the Board of ONMH unanimously approved an agreement to enter into a strategic transaction ("Transaction") with Constellation Insurance Holdings, Inc. ("Constellation") whereby Constellation will acquire ONMH. The agreement was signed on March 22, 2021. Constellation, an insurance holding company, is back by Caisse de dépôt et placement du Québec ("CDPQ") and Ontario Teachers' Pension Plan Board ("Ontario Teachers"), two of the world's largest, premier, long-term institutional investors.

ONMH entered into the transaction to strengthen its financial position, enhance its market position, and enable it to become a stronger, more responsive and innovative financial services company. Constellation will build off ONMH's strengths and infrastructure to grow its insurance business going forward.

The Transaction will be structured as a sponsored demutualization, which means ONMH will convert to a stock company and will be indirectly owned by Constellation upon closing of the transaction. The conversion required a vote by eligible members as well as regulatory review and approval. Eligible members will be compensated, in the aggregate of \$500 million, for the extinguishment of their membership interests with additional policy benefits, or cash, as applicable. In addition to member compensation, Constellation and its investors are providing a commitment to infuse an additional \$500 million of capital evenly over a four-year period beginning one year after the closing of the Transaction, further strengthening Ohio National's capital position and its ability to fulfill its obligations, as well as to invest in the future of the business.

On March 11, 2022, the Members of ONMH voted to approve the Transaction. The Ohio Department of Insurance conducted a public hearing on March 18, 2022. ONMH received an order approving the Transaction and all other regulatory approvals necessary to close the Transaction. ONMH closed the Transaction on March 31, 2022 and is now a stock company wholly owned by Constellation. In connection with the Transaction, ONMH changed its name and is now Ohio National Holdings, Inc.
