Notes to Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Summa Insurance Company's (the Company or SIC) statutory financial statements are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI) and in accordance with the Accounting Practices and Procedures Manual.

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio (the State) for determining its solvency under Ohio Insurance Law. NAIC SAP has been adopted as a component of the prescribed or permitted practices by the State with some modifications. These modifications include a five-year life on Electronic Data Processing (EDP) equipment and a 90-day limitation on collection of affiliate balances. Accordingly, the admitted assets, liabilities, capital and surplus of the Company as of September 30, 2022 and December 31, 2021 and the results of its operations and its cash flow for the years then ended have been determined in accordance with accounting principles prescribed or permitted by the ODI. Management believes the monetary effect on net income and statutory surplus between NAIC SAP and accounting principles prescribed or permitted by the ODI is not material. Additionally, the Company's risk based capital would not have triggered a regulatory event had it not used a prescribed or permitted practice.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with *Accounting Practices and Procedures Manual*, the NAIC Annual Statement Instructions and other accounting practices prescribed or permitted by the ODI requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

The methods for making such estimates and for establishing liabilities are continually reviewed and any adjustments are reflected in the period determined.

9. Income Taxes

The 2022 amounts were calculated in accordance with SSAP No. 101. The application of SSAP No. 101 requires a company to evaluate the recoverability of deferred tax assets and to establish a valuation allowance if necessary to reduce the deferred tax asset to an amount which is more likely than not to be realized. Considerable judgment is required in determining whether a valuation allowance is necessary, and if so, the amount of such valuation allowance. In evaluating the need for a valuation allowance the Company includes many factors, including:

- 1. The nature of the deferred tax assets and liabilities;
- 2. Whether they are ordinary or capital;
- 3. The timing of reversal;
- 4. Taxable income in prior carry back years as well as projected taxable earnings exclusive of reversing temporary differences and carry forwards;
- 5. The length of time that carryovers can be used;
- 6. Unique tax rules that would impact the utilization of the deferred tax assets;
- 7. Any tax planning strategies that the Company would employ to avoid a tax benefit expiring unused.

In 2022 and 2021, the Company determined a full valuation allowance was necessary.

(4) For fair value measurements categorized within level 2 and level 3 of the fair value hierarchy

The fair values of the Company's investment in U.S. Treasury and U.S. government agency bond securities are based on quoted prices or dealer quotes. For bonds not actively traded, fair values are estimated using values obtained from independent pricing services, or in the case of private placements, are estimated by discounting the expected future cash flows using current market rates applicable to the yield, credit and maturity of the investment.

(5) Derivatives - None

B. Other Fair Value Disclosures

The carrying amounts reported in the statutory statements of admitted assets, liabilities, and capital and surplus for cash and short-term investments, uncollected premiums, reinsurance recoverable, investment income due and accrued, other receivables, federal income tax receivable, receivables from and payables to parent, affiliates and subsidiary, claims unpaid, unpaid claims adjustment expenses, accrued medical incentive pool, premiums received in advance, general expenses due or accrued, and other liabilities approximate fair value because of the short-term nature of these items. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The Company is subject to an annual fee under section 9010 of the Federal Affordable Care Act (ACA). The fee is allocated to individual health insurers based on the ratio of the amount of the entity's net premiums written during the preceding calendar year to the amount of health insurance for any U.S. health risk that is written during the preceding calendar year. A health insurance entity's portion of the annual fee becomes payable once the entity provides health insurance for any U.S. health risk for each calendar year beginning on or after January 1 of the year the fee is due. The Consolidated Appropriation Act of 2020 is suspending this fee for years after 2020.

A. Reasons for Changes in the Provision for Incurred Claim and Claim Adjustment Expenses Attributable to Insured Events of Prior Years

Reserves as of December 31, 2021 were \$10,031,110. As of September 30, 2022, \$9,480,410 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years are \$20,000. Therefore, there has been \$530,700 in favorable experience from December 31, 2021 to September 30, 2022. This favorable experience is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased as additional information becomes known regarding individual claims.
