1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Policies

The financial statements of Oscar Insurance Corporation of Ohio ("The Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI).

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned ratably over the terms of the related insurance policies. Ceded premiums are earned ratably over the terms of the applicable reinsurance contracts. Expense incurred in connection with acquiring new insurance business, including acquisition cost such as marketing, are charged to operations as incurred.

In addition, the Company used the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at amortized costs using the interest method.
- (3-9) Not Applicable
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 54, Individual and Group Accident and Health Contracts.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from prior period.
- (13) The Company's Pharmacy Benefit Manager - CVS Health has a contractually guaranteed minimum pharmaceutical rebates. These amounts determine the Company's estimated receivable adjusted for payments received.

D. Going Concern

As of November 15, 2022, the management team has evaluated the Company's operations and financial position. No uncertainties or doubt exists about the Company's ability to continue as a going concern.

20. Fair Value Measurements

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Notes to Financial Statements

Level 1 - Quoted (unadjusted) prices for identical assets in active markets.

Level 2 - Other observable inputs, either directly or indirectly, including:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 - Unobservable inputs that cannot be corroborated by observable market data.

The estimated fair values of bonds, short-term investment and cash equivalents are based on quoted market prices, where available. The Company obtains one price for each security primarily from a third-party pricing service (“pricing service”), which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, making adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating inputs that are currently observable in the markets for similar securities. Inputs that are often used in the valuation methodologies include, but are not limited to, non-binding broker quotes, benchmark yields, credit spreads, default rates and prepayment speeds.

In instances in which the inputs used to measure fair value fall into different levels of the fair value hierarchy, the fair value measurement has been determined based on the lowest-level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular item to the fair value measurement in its entirety requires judgment, including the consideration of inputs specific to the asset or liability.

(2) The Company does not have any financial assets with a fair value hierarchy of Level 3 that were measured and reported at fair value for the nine months ended September 30, 2022 and the year ended December 31, 2021.

(3) Transfers between fair value hierarchy levels, if any, are recorded as of the beginning of the reporting period in which the transfer occurs. There were no transfers between Levels 1, 2, or 3 of any financial assets or liabilities during the nine months ended September 30, 2022 and the year ended December 31, 2021.

(4) Fair values of debt and equity securities are based on quoted market prices, where available. The Company obtains one price for each security primarily from a pricing service, which generally uses quoted prices or other observable inputs for the determination of fair value. The pricing service normally derives the security prices through recently reported trades for identical or similar securities, and, if necessary, makes adjustments through the reporting date based upon available observable market information. For securities not actively traded, the pricing service may use quoted market prices of comparable instruments or discounted cash flow analyses, incorporating

25. Change in Incurred Claims and Claim Adjustment Expenses

Reserves as of December 31, 2021 were \$13,464,429. As of September 30, 2022, \$9,020,569 has been paid for insured claims attributable to insured events of the prior years. Claim adjustment expenses are assumed paid for current year. Reserves remaining for prior years are now \$6,496,181 as a result of re-estimation of unpaid claims and claim adjustment principally on our health line of business. Therefore, there has been a \$2,052,321 unfavorable (favorable) prior-year development December 31, 2021 to September 30, 2022. The increase(decrease) is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
