## NOTES TO FINANCIAL STATEMENTS

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The financial statements of Ohio Mutual Insurance Company are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (ODI).

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted accounting practices by the State of Ohio.

A reconciliation of the Company's net income and capital surplus between NAIC Statutory Accounting Practices and practices prescribed and permitted by the State of Ohio is shown below:

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the Annual Statement Instructions and the *Accounting Practices and Procedures Manual* requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) All short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at either amortized cost, using the scientific interest method or the lower of amortized cost or fair market value. The company holds no SVO-identified bond ETFs reported on Schedule D-1.
- (3) Unaffiliated common stocks are stated at fair market value. The Company has no subsidiaries or affiliates in which the company has an interest of 20% or more.
- (4) The Company had no preferred stock at December 31, 2022 or 2021.
- (5) The Company has no mortgage loans on real estate.
- (6) Loan-backed securities are stated at either amortized cost, using the interest method or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities, EITF 99-20 eligible securities or securities where the yield has become negative are valued using the prospective method.
- (7) The Company's wholly owned insurance affiliates are United Ohio Insurance Company and Casco Indemnity Company. The Company's wholly owned non-insurance affiliates are Centurion Financial, Inc., Ohio United Agency, Inc., and United Premium Budget Service, Inc.
- (8) The Company has no ownership interest in any significant joint ventures.
- (9) The Company owns no derivative instruments.
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts-Premiums.

## NOTES TO FINANCIAL STATEMENTS

- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liabilities are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not significantly modified its capitalization policy from the prior period.
- (13) The Company does not engage in pharmaceutical rebate receivables.

### D. Going Concern

## 2. Accounting Changes and Corrections of Errors

There were no significant accounting changes or corrections of errors during 2022 or 2021.

## 3. Business Combinations and Goodwill

The Company has no goodwill asset at December 31, 2022 or December 31, 2021.

## 4. Discontinued Operations

The Company has no discontinued operations to report.

## 5. Investments

- A. The Company has no mortgage loans.  
 B. The Company has no debt restructuring.  
 C. The Company has no reverse mortgages.  
 D. Loan-Backed Securities

- (1) Prepayment assumptions for Mortgage-backed securities, Collateralized Mortgage Obligations and Other Structured Securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonality), current levels of interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning). On an ongoing basis, we monitor the rate of prepayment and calibrate the model to reflect actual experience, market factors, and viewpoint.

- (2) a. The Company had no securities it intended to sell for which it recognized other-than-temporary impairment losses.  
 b. The Company had no securities for which it lacked the ability or intent to retain an investment in for a period of time sufficient to recover the amortized cost basis.

- (3) The Company had no other-than-temporary impairments for the year ended December 31, 2022.

- (4) All temporarily impaired securities for which an other-than-temporary impairment has not been recognized in earnings as a realized loss in 2022 are as follows:

a.	The aggregate amount of unrealized losses:		
		1. Less than 12 Months	\$ (1,238,084)
		2. 12 Months or Longer	<u>\$ (1,828,458)</u>
b.	The aggregate related fair value of securities with unrealized losses:		
		1. Less than 12 Months	\$ 14,999,969
		2. 12 Months or Longer	<u>\$ 8,306,690</u>

- (5) Management regularly reviews the value of the Company's investments. If the value of any investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination for each security, the following is considered:

- The length of time and the extent to which the fair value has been below cost;
- The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations or earnings potential;
- Management's intent and ability to hold the security long enough for it to recover its value;

Management concluded that the remaining investments held with unrealized losses were not other-than-temporarily impaired on the basis that the Company had the ability and intent to hold the investments for a period of time sufficient for a forecasted market price recovery up to or beyond the cost of the investment. Also, in management's opinion, evidence indicating the cost of the investment was recoverable within a reasonable period of time outweighed evidence to the contrary in considering the severity and duration of the impairment in relation to the forecasted market price recovery.

- E. The Company has no dollar repurchase agreements or securities lending transactions.

**NOTES TO FINANCIAL STATEMENTS**

- F. The Company has no repurchase agreements transactions accounted for as secured borrowing.
- G. The Company has no reverse repurchase agreements transactions accounted for as secured borrowing.

### 25. Change in Incurred Losses and Loss Adjustment Expenses

- A. The following table provides a reconciliation of the beginning and ending reserve balances for losses and loss adjustment expenses, net of reinsurance recoverables, for 2022 and 2021:

	2022	2021
	<i>(In Thousands)</i>	
Balance at January 1, net of reinsurance	\$ 35,904	\$ 33,151
Incurring related to:		
Current year	65,446	48,866
Prior years	(1,791)	(1,214)
Total incurred	\$ 63,655	\$ 47,652
Paid related to:		
Current year	\$ 42,107	\$ 31,715
Prior years	15,397	13,184
Total paid	\$ 57,504	\$ 44,899
Balance as of December 31, net of reinsurance	\$ 42,055	\$ 35,904

The Company's liabilities for unpaid losses and loss adjustment expenses, net of related reinsurance recoverables, at December 31, 2021 and 2020, were decreased in the subsequent year by \$1,791,000 and \$1,214,000, respectively. The favorable development experienced in 2022 for accident years 2021 and prior is due to favorable development within the Group's private passenger auto physical damage, commercial multi-peril, commercial auto liability and homeowners' lines of business and was primarily within the accident years of 2020 and 2021. Offsetting the favorable development during 2022 was an unfavorable development within the private passenger auto liability line of business related to accident years 2019, 2020 and 2021. The favorable development experienced in 2021 for accident years 2020 and prior is due to favorable development within the Group's private passenger auto physical damage, commercial multi-peril and homeowners' lines of business and was primarily within the accident years of 2020. Offsetting the favorable development during 2021 was an unfavorable development within the private passenger auto liability line of business related to accident years 2018 and 2019. Initial loss estimates for these years developed better than expected for these lines of business and hence, reserves previously established for these lines and years were reduced in 2021 and 2020, respectively.

Because of the nature of the business written over the years, management believes that the Group has limited exposure to environmental claim liabilities.

- B. The Group utilizes a sophisticated loss and loss expense reserving application (Arius) developed by Milliman, Inc. to prepare actuarial triangles by annual statement line in order to estimate and analyze unpaid claims liabilities. The system includes stochastic modeling tools with a robust suite of reserving tools and methods. The Group estimates distributions of total unpaid amounts annually based on paid and incurred losses on both direct and net bases. Prior to moving to Arius in 2017, the Group estimated unpaid amounts on direct and ceded bases.
