NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern**A. Accounting Practices**

The financial statements of Westfield Superior Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

The Company has not implemented any prescribed or permitted accounting practices by the State of Ohio that differ from those found in NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are reported in the same manner as similar long-term investments per Statements of Statutory Accounting Principles (SSAP) No.2.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method per SSAP No.26.
- (3) Common Stocks - Not applicable
- (4) Preferred Stocks - Not applicable
- (5) Mortgage Loans - Not applicable
- (6) Loan-Backed Securities - Not applicable
- (7) Investments in Subsidiaries, Controlled and Affiliated Entities - Not applicable

- (9) Derivative Instruments - Not applicable
- (10) The Company anticipates investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined. The Company has limited exposure to asbestos and environmental claims and management believes the reserve for such claims is adequate.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Pharmaceutical rebate receivables are applicable to health insurance entities. The Company does not offer health insurance policies.

Management continuously monitors the Company's financial results and compliance with regulatory requirements and finds no reason to expect the Company to not continue as a going concern.

NOTE 20 Fair Value Measurements
A. Fair Value Measurements

For assets that are measured and reported at fair value or net asset value (NAV) in the statement of financial position after initial recognition, the valuation techniques and the inputs used to develop those measurements are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The Company has no liabilities that are measured at fair value in the statement of financial position.

(1) Fair Value Measurements at Reporting Date

Description for each class of asset or liability	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Total
a. Assets at fair value

Total assets at fair value/NAV	\$ -	\$ 690,935	\$ -	\$ -	\$ 690,935

b. Liabilities at fair value					
Total liabilities at fair value	\$ -	\$ -	\$ -	\$ -	\$ -

(2) At December 31, 2022, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 3.

(3) The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs. The Company held no assets or liabilities categorized as Level 1, 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1, 2022.

(4) As of December 31, 2022, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 2 or Level 3. Historically, fair values in the Level 2 category are provided by independent pricing services. Where independent pricing services provide fair values, the Company has obtained an understanding of the methods, models and inputs used in pricing and has controls in place to validate that amounts provided represent current fair values. Estimated fair values of investments categorized as Level 3 generally include inputs for which no readily observable inputs are available and require management judgment.

(5) As of December 31, 2022, the Company had no holdings classified as either a derivative asset or liability.

- B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements - Not required
- C. Fair Value Level

The method(s) and significant assumptions used to estimate the fair value of financial instruments are as follows:

Investment Securities - Fair values for bonds, including the aggregate write-ins for invested assets are based on the values prescribed by an independent pricing service or from brokers. For bonds that are not actively traded, estimated fair values are based on values of bonds of comparable yield and credit quality. The fair values for common stocks are based on quoted market prices, where available, which are provided to the Company by an independent pricing service.

Cash Equivalents - Cash equivalents include money market mutual funds, which are reported at fair value. Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes in value due to change in interest rates.

Type of Financial Instrument	Aggregate Fair Value	Admitted Assets	(Level 1)	(Level 2)	(Level 3)	Net Asset Value (NAV)	Not Practicable (Carrying Value)

- F. Subprime Mortgage Related Risk Exposure
 - (1) The subprime lending sector is the sector of the mortgage lending industry which lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also applies to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals.

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, or underwriting risk associated with the risk from the subprime lending sector. This includes any direct risk through investments in debt securities, asset backed or structured securities, hedge funds, subsidiaries and affiliates, and insurance product issuance. The Company views the following features as common characteristics of subprime mortgage loans:

- a. An interest rate above prime to borrowers who do not qualify for prime rate
- b. Borrowers with low credit ratings (FICO scores)
- c. Interest-only or negative amortizing loans
- d. Unconventionally high initial loan-to-value ratios
- e. Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable rate plus a margin for the remaining term of the loan
- f. Borrowers with less than conventional documentation of their home and/or assets
- g. Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount
- h. Include substantial prepayment penalties

The Company's strategy to manage or mitigate subprime exposure is to avoid making direct investments in, or insuring any of the sources of risk identified above.

(2) The Company has no direct exposure through investments in subprime mortgage loans.

(3) The Company has no direct exposure through other investments.

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

- 6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
 Reinsurance protection was provided by two agreements: the Multiple Line Excess of Loss with three layers (\$4.5M x \$3M, \$7.5M x \$7.5M and \$10M x \$15M); and the Casualty Clash and Contingency Excess with two layers (92.5% of \$15M x \$25M and 92.5% of \$30M x \$40M). These two contracts total \$63.6M above a \$3M retention per occurrence.
- 6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process.
 The modeled all perils probable maximum loss at the 250-year return time is \$346M. This is based on AIR Touchstone v9.0 and includes hurricane, earthquake and severe convective storm. The locations of concentrations are southeastern PA, DE, GA and FL for hurricane; OH for severe convective storm; and IN, KY and OH for earthquake. The reinsurance broker, Aon, models the insured exposures on the Company's behalf.
- 6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
 The property catastrophe reinsurance program consisted of four layers. The total amount of coverage for a single loss occurrence was \$350 million excess of the Company's \$50 million net retention per loss occurrence.

- 7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)? Yes [X] No []
