Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The statutory Financial statements of OhioHealthy Insurance Company have been prepared on the statutory basis of accounting, in accordance with the accounting practices adopted by the National Association of Insurance Commissioners (NAIC) codification project (Codification), as prescribed or permitted by the Ohio Department of Insurance (DOI). These practices differ in some respects from U.S. generally accepted accounting principles (GAAP).

For statutory purposes, certain assets are accorded no value and thus reduce statutory capital and surplus. Also, short term investments and bonds are recorded at amortized cost for statutory purposes which differ from GAAP whereby short-term investments and bonds may be recorded at fair value. The presentation of the direct method statutory statement of cash flows under Codification is different from what would be presented under GAAP for cash flows from investing and financing activities.

- E. OHICO has a management service contracts with OHMPI to reimburse OHMPI for services and expenses incurred on behalf of OHICO. The employees of OHMPI support a number of product lines. Allocations for time spent by the various departments have been allocated from OHMPI to OHICO. In addition, certain expenses that were paid for by OHMPI also support the OHICO product line and the estimated allocation of those expenses were also allocated to OHICO. OHICO will be writing the business for out of network insurance products and the OhioHealthy Health Insurance Company (OHHIC), which also prepares its own regulatory filing, will administer the in-network components for the insurance products. Since many of the expenses support bringing the full product to the market, the total expenses were split between OHHIC and OHICO using estimated percentages for in and out of network expenses of 86.5% in/13.5% out. Because these expenses are paid for by OHMPI and allocated to OHICO, it created an intercompany payable from OHICO to OHMPI. In Dec, 2022, the interco payable/receivable to OHMPI parent was settled to \$0 balance.
