## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

The accompanying financial statements of Obsidian Insurance Company (the "Company" or "OIC") have been prepared in conformity with the statutory accounting practices prescribed or permitted by the State of Ohio Department of Insurance ("the Department"). The Department requires insurance companies domiciled in the State of Ohio to prepare their statutory financial statements in accordance with the National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) subject to any deviations prescribed or permitted by the Ohio Department of Insurance. The Company has no prescribed or permitted practices exceptions.

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affects the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of the premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance assumed.

Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

Net investment income earned consists primarily in interest and dividends less investment related expense. Interest is recognized on an accrual basis and dividends are recognized on an ex-dividend basis. Net realized capital gains (losses) are recognized on a first in first out basis when sold, redeemed or otherwise disposed. Realized capital losses include write-downs for impairments considered to be other than temporary.

In addition, the Company uses the following accounting policies:

- (1) Short term investments are stated at amortized value using the interest method. Non-investment grade short-term investments are stated at the lower of amortized value or fair value.
- (2) Investment grade bonds not backed by other loans are stated at amortized value using the interest method. Non-investment grade bonds with NAIC designation of 3 through 6 are stated at the lower amortized value or fair value.
- (3) Common stocks, other than investments in stocks of subsidiaries and affiliates are stated at fair value.
- (4) Investment grade redeemable preferred stocks are stated at amortized value. Investment grade perpetual preferred stocks are stated at fair value. Non investment grade preferred stocks are stated at the lower of amortized value or fair value.
- (5) First lien mortgage loans on real estate are stated at their estimated fair value. See Note 5A.
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized or fair value. The retrospective adjustment method is used to value all securities.
- (7) The Company has no investments in subsidiary or affiliated companies.
- (8) Investments in joint ventures, most partnerships and limited liability companies are stated at the underlying audited GAAP equity value.
- (9) The Company does not hold investments in derivative instruments as defined by SSAP No. 31.
- (10) The Company does not anticipate investment income as a factor in premium deficiency calculations.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability is continually reviewed and any adjustments are reflected in the period determined.
- (12) There have been no changes to the Company's capitalization policy.
- (13) The Company has no pharmaceutical rebate receivables.

#### D. Going Concern

Management does not have any doubt about the Company's ability to continue as a going concern.

D. Loan-Backed Securities

(1) Prepayment assumptions for loan-backed and structured securities were obtained from our investment software vendor through an independent third-party source.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - Not Applicable

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - Not Applicable

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

All impaired securities (fair value is less than cost or amortized cost) for which other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1. Less than 12 months .....	\$.....(627,628)
2. 12 months or longer .....	(2,173,639)

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 months .....	\$..... 5,997,237
2. 12 months or longer .....	12,603,812

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company considers various factors when determining other-than temporary impairment, including: Intent or requirement to sell the security, length of time the security has been in a continuous unrealized loss position, depth of amortized value compared to fair value, and expected redemption percentage. The Company asserts that it has the intent and ability to hold these securities long enough for all the cost basis of the securities to be recovered. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities if future events, information and the passage of time causes it to conclude the declines in value are other-than-temporary.

### 20. Fair Value Measurements

#### A. Fair Value Measurement

##### (1) Fair value measurements at reporting date

The Company has categorized its assets and liabilities that are reported on the balance sheet at fair value into the three-level fair value hierarchy as reflected in the table below. The three-level fair value hierarchy is based on the degree of subjectivity inherent in the valuation method by which fair value was determined. The three levels are defined as follows:

- Level 1 - Quoted prices in active markets for identical assets and liabilities: This category is for items measured at fair value on a recurring basis includes exchange-trade stocks. The fair value of these stocks is based on quoted prices in active markets.
- Level 2 Significant observable inputs: The estimated fair values for some of these items are determined by independent pricing services using observable inputs. Others are based on quotes from markets which are not considered actively traded. This category is for items measured at fair value on a recurring basis may include long term bonds.
- Level 3 - Significant unobservable inputs: The estimated fair values for these items may be determined by various parties using methods that are not available to the Company, or that may be unavailable to the general public. This category is for items measured at fair value on a recurring basis may include limited partnerships or other invested assets.

##### (3) Policy on transfers into and out of Level 3 - Not Applicable

##### (4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

Bonds carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations as quoted market prices for similar instruments in an active market were utilized. This was accomplished by the use of matrix pricing. Matrix pricing takes quoted prices of bonds with similar features and applies analytic methods to determine the fair value of bonds held. Features that are inputs into the analysis include duration, credit quality, tax status and call and sinking fund features.

## Notes to the Financial Statements

### 20. Fair Value Measurements (Continued)

Preferred stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because either quoted markets prices for similar instruments in an active market were utilized via matrix pricing as described above or because quoted markets prices for identical instruments trading in an inactive market were utilized.

Common stocks carried at fair value categorized as Level 2 were valued using a market approach. These valuations were determined to be Level 2 valuations because of quoted markets prices for identical instruments trading in an inactive market were utilized. When an equity instrument is illiquid due to limited trading activity, the use of quoted markets prices for identical instruments was determined by the Company to the most reliable method to determine fair value.

**GENERAL INTERROGATORIES**  
PART 2 - PROPERTY & CASUALTY INTERROGATORIES

- 7.1. Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?..... YES.....
- 7.2. If yes, indicate the number of reinsurance contracts containing such provisions..... 6
- 7.3. If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?..... YES.....
- 8.1. Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?..... NO.....
- 8.2. If yes, give full information
- 9.1. Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:  
 (a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term  
 (b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;  
 (c) Aggregate stop loss reinsurance coverage;  
 (d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;  
 (e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or  
 (f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity..... NO.....
- 9.2.
