1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND GOING CONCERN

A. Accounting Practices

The financial statements of Farmers Insurance of Columbus, Inc. (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Insurance Department of the state of Ohio (“DOI”).

The Company recognizes only statutory accounting practices prescribed or permitted by the state of Ohio (the “State”) for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (the “Codification”), version effective January 1, 2001 and subsequently amended (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. The Company did not utilize any permitted practices during the years presented.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed by the State of Ohio for year-to-date December 31, 2022 and the year ended December 31, 2021 is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned pro rata over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Ceded unearned premium reserves under the All Lines reinsurance agreements (see Note 21C) are calculated based on a quota share percentage of the underlying pro-rata direct unearned premium reserves.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments include all investments whose maturities, at the time of acquisition, are greater than three months and less than one year and are stated at amortized cost, which approximates fair value.
- (2) Bonds not backed by other loans are generally carried at amortized cost or the lower of amortized cost or fair value depending on their NAIC designation. Bond premium or discount is amortized using the interest method.
- (3) Unaffiliated common stocks are carried at NAIC market value. The change in the stated value is recorded as a change in net unrealized capital gains or losses, a component of unassigned funds.
- (4) Redeemable preferred stocks are carried at amortized cost or at the lower of amortized cost or fair value, depending on their NAIC designation. Redeemable preferred stock premium or discount is amortized using the interest method. Non-redeemable preferred stocks are carried at market value or the lower of cost or fair value based on their NAIC designation.

NOTES TO FINANCIAL STATEMENTS

The Company recognizes other-than-temporary impairment losses on investments when the decline in fair value specific to an issuer's fundamental credit difficulties, or a non-interest related decline, is deemed to be other than temporary. There are a number of assumptions and estimates inherent in evaluating impairments specific to an issuer's fundamental credit difficulties, or non-interest related decline, and determining if they are other than temporary, including: 1) The Company's ability and intent to retain the investment for a period of time sufficient to allow for an anticipated recovery in value; 2) the recoverability of principal and interest; 3) the length of time and extent to which the fair value has been less than amortized cost for bonds or cost for unaffiliated common and preferred stocks; 4) the financial condition, near-term and long-term prospects of the issue or issuer, including relevant industry conditions and trends, and implications of rating agency actions and offering prices; and 5) the specific reasons that a security is in a significant unrealized loss position, including market conditions which could affect access to liquidity. Interest rate related impairments are deemed other than temporary when the Company has the intent to sell an investment, at the reporting date, before recovery of the cost of the investment.

- (5) The Company has no mortgage loans.
- (6) Mortgage-backed bonds and structured securities are stated at either amortized cost or the lower of amortized cost or market value. Premiums and discounts on mortgage-backed securities and structured securities are amortized using the retrospective method, except for interest-only mortgage-backed securities, which are amortized using the prospective method.

Loan-backed securities with evidence of deterioration of credit quality for which it is probable that the company will be unable to collect all contractually required payments receivable, are written down to the present value of expected cash flows to be received.
- (7) The Company has no investments in subsidiaries, controlled, and affiliated ("SCA") companies.
- (8) The Company has no ownership interest in joint ventures, partnerships or limited liability companies.
- (9) Investments in derivative instruments, including warrants, are carried at fair value with the corresponding unrealized gain or loss flowing through unassigned funds. Realized gain or loss is reported in the net realized capital gain or loss line of the statement of operations. As of December 31, 2022 and 2021, the Company did not have investments in derivatives.
- (10) The Company utilizes anticipated investment income in the calculation of premium deficiency reserves, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums. The Company evaluates the need for a premium deficiency reserve on a line of business level for all books. At December 31, 2022 and 2021, the Company had not established any premium deficiency reserves based on this calculation.
- (11) Reserves for losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported ("IBNR"). Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting reserves are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has not modified its capitalization policy from the prior period.
- (13) Not applicable as the Company does not write any medical insurance with prescription drug coverage.

D. Going Concern

Management has evaluated the reporting entity's ability to continue as a going concern, and is satisfied that it has adequate resources to enable it to continue in business for the foreseeable future.

2. ACCOUNTING CHANGES AND CORRECTION OF ERRORS

In 2022, the NAIC revised and added new guidance to SSAP No. 86 - ("Accounting for Derivative Instruments and Hedging Activities"), effective January 1, 2023, with early adoption permitted. This revised guidance expanded the last-of-layer method that permitted only one hedged layer to allow multiple hedged layers of a single closed portfolio. In addition, the modification specified how hedge basis adjustments should be considered when determining credit losses (impairment) for the assets included in the closed portfolio. The guidance clarified for effective hedging accounting to be based on the amortized cost approach, (if the hedged item is valued at amortized cost) and the derivative mirrors that measurement method, and for the basic adjustment for portfolio layer method hedge which is typically valued at fair value, to only occur at hedge termination or at dedesignation, for statutory accounting. The early adoption of these revisions had no material impact on FIE's 2022 financial statement.

Effective January 1, 2021, the NAIC made substantive revisions to SSAP No. 32R - ("Preferred Stock"), modifying the definitions on classification of preferred stock as redeemable or perpetual. This revision defined redeemable preferred stock as any preferred stock, (regardless of other attributes i.e., voting or dividend rights), which the issuer undertakes to redeem at a price and date(s), both of which are fixed or determinable in any way, and is redeemable either mandatory or at the option of the holders. In addition, it classified and referred perpetual preferred stock as constituting those preferred stocks which are not redeemable or are redeemable solely at the option of the issuer. This revised guidance

NOTES TO FINANCIAL STATEMENTS

clarified that preferred stock does not include investments except for Exchange Traded Funds qualifying for preferred stock treatment, as identified by the Securities Valuation Office (“SVO”). It also modified and provided measurement guidance to ensure appropriate, consistent measurement based on the type and terms of preferred stock held, including guidance for mandatory convertible preferred stock. Additionally, it made clarifications on the guidance of impairment, dividend recognition and redemption. When other than temporary impairment (“OTTI”) is identified, preferred stock is written down to fair value as the new cost basis and the write down is treated as realized loss. Dividends are recognized at the fair value of the form in which they are received with any difference between fair value and dividend receivable as gain or loss. The reporting entity that sells or redeems preferred stock back to the issuer shall recognize consideration received in excess of the book/adjusted carrying value as a realized gain or loss, regardless of whether the repurchase is at market value or at a predetermined set call price. These revisions and expanded definitions have been reviewed and incorporated into the Company’s 2021 and subsequent financial statements and had no material impact on the Company’s statutory financial statements.

A. Defined Benefit Plans

Postretirement Benefits

The Company and certain members of Farmers provide certain postretirement benefits to retired employees. For retirees who retired before January 1, 2010, the Company's postretirement benefits plan provides a contributory defined dollar plan for pre-65 benefit and Premium Reimbursement Account ("PRA") for post-65 benefit. The PRA is a contribution into an account established by Farmers to cover and help pay for the cost of retiree medical premiums of eligible and qualifying employees. Participants retiring on or after January 1, 2010 are eligible to participate in the Health Retirement Account ("HRA") and the PRA. The HRA is an account also established by Farmers for eligible employees to help pay for health care premiums in a specified deductible plan until a certain age. Under current plan provisions, health benefits are available for all employees who participated in the Company's group medical benefits plan immediately prior to retirement at age 55 or later with at least 5 years of service. The Company contributes to the plan only for those who retire with at least 10 years of service. The PRA is not available to those hired after December 31, 2010. Similar to pension obligations, the cost of such benefits is accrued over the service period of the employees based on the actuarially determined cost for the period. Employees who retired before January 1, 2010 are also eligible for a life insurance benefit. Obligations for the postretirement benefits plan are paid from Company assets. There were no assets separated and allocated to this plan.

A summary of assets, obligations and assumptions of the Postretirement Benefit Plans are as follows at December 31, 2022 and 2021:

Pension Plan

FIE and certain members of Farmers participate in noncontributory defined benefit pension plans consisting of the qualified Employees' Pension Plan and the non-qualified Employee Benefits Restoration Plan ("EBRP"), all sponsored and funded by Farmers Group, Inc. ("FGI"). As a result, Farmers has no legal obligation for benefits under these Plans.

The Employees' Pension Plan is sponsored and funded by the FGI and was frozen on December 31, 2018. The Employees' Pension Plan covers substantially all employees of FGI (and Farmers Services, LLC ("FS") prior to 2017) and Farmers employees who were hired prior to January 1, 2018. Prior to January 1, 2009, the Plan provided defined benefits based on years of service and the employee's compensation during the last five years of employment. Effective January 1, 2009, the plan was amended to include cash balance provisions for certain employees, whereas the benefits for the balance of the employees were unchanged. The employees covered under the cash balance provisions are those who, as of December 31, 2008, were non-vested in their pension benefits, those who were under age 40 with less than 10 years of service and those employees hired on or after January 1, 2009. The plan was comprehensively amended effective December 31, 2015 to permit options for participants with a termination of employment on or after December 31, 2015. Such individuals may elect within 180 days of the participant's termination of employment to have his benefit paid in a single lump sum. Additionally, participants who experience a termination of employment on or after December 31, 2015 will have the opportunity to elect to have the actuarial equivalent of such participant's vested benefit at his or her Normal Retirement or Early Retirement Date, if greater, paid to him or her in the form of substantially equal installment payments over a 10-year certain term. On the making of such lump sum or final payment for the 10-year certain installments, neither the participant nor the participant's spouse or beneficiary shall have any further benefit under the Employees' Pension Plan.

The Employee's Pension Plan and the EBRP were amended on October 6, 2016, to modify the provisions to provide for the cessation of benefit accruals as of December 31, 2018. Participants will retain all accrued benefits, including any benefits accrued through December 31, 2018 and will earn only defined contribution retirement benefits starting January 1, 2019. The plan was amended on November 29, 2016, to remove FS as a participating employer of the Employees' Pension Plan effective January 1, 2017. The plan was amended on August 28, 2017, to implement a 1 year service requirement for participation in the Employee's Pension Plan for individuals hired on or after January 1, 2018.

As part of this change, beginning January 1, 2019, Farmers will automatically contribute an additional 4% of eligible base pay to the employees' 401(k) Plan, regardless of the amount contributed by each employee to the 401(k). This new base contribution is in addition to the 6% Farmers match now available.

FGI's funding policy for the Employees' Pension Plan is to contribute an amount at least equal to the minimum required contribution under ERISA/PPA. FGI's policy is to allocate to Farmers their share of the plan cost. Farmers has regularly contributed to the pension plan for their share of the pension cost and Farmers expects future contributions to fully satisfy Farmers portion of the pension liability.

Again no enhancements to existing the Employees' Pension Plan provisions were offered under the VSP program.

For fiscal year 2022 and 2021 plan years, the minimum required pension contribution for FGI did not exceed the full funding limitation under the Internal Revenue Code. As a result, for the years ended December 31, 2022 and 2021, Farmers, FGI and its subsidiaries made no contributions. Farmers' contributions to be made in 2023 to the Employee's Pension Plan are currently expected to be \$0.0 million.

Assets of the Employees' Pension Plan are held by an independent trustee primarily in fixed maturity and equity investments. The principal liability is for annuity benefit payments of current and future retirees. Assets of the EBRP are considered FGI's corporate assets and are held in a grantor trust.

The EBRP provides supplemental retirement benefits for employees whose salary is in excess of the maximum recognizable pay under IRS code 401(a)(17) and excess maximum benefit limitation under IRS code 415. The company's share of the EBRP was \$0.0 thousand and \$2.2 thousand for the years ended December 2022 and 2021, respectively.

Short Term Incentive Program

Effective January 1, 2009, FIE and certain Farmers' companies, participate in a Short Term Incentive Program ("STIP") and a 401(k) Savings Plan approved by the board of governors.

The STIP is a performance-based plan that provides employees an annual incentive pay based on the achievement of certain goals and individual employee performance. The Company's share of expense under this plan was \$0.9 million and \$1.0 million as of December 31, 2022 and 2021, respectively.

NOTES TO FINANCIAL STATEMENTS

401(k) Savings Plan

Effective January 1, 2009, FIE and certain members of Farmers' companies, participate in a 401(k) Savings Program. Contributions are made by eligible employees up to the yearly maximums allowable as defined by the Internal Revenue Service. FIE and the Farmers companies match eligible employees' contributions up to 6.0% of earned base pay. All eligible employees are 100% vested in the 401(k) Savings Plan immediately.

Beginning January 1, 2019, Farmers automatically contributes an additional 4% of eligible base pay to the employees' 401(k) Plan, regardless of the amount contributed by each employee to the 401(k). This new base contribution is in addition to the 6% company match now available.

The Company's share of expense under this plan was \$0.9 million and \$0.8 million as of December 31, 2022 and 2021, respectively.

Litigation

Certain of the Farmers companies are defendants in certain lawsuits arising in the normal course of business, which are in various stages of development. Some of these matters seek punitive as well as compensatory damages. While it is not possible to predict the outcome of these matters with certainty, management believes that their ultimate disposition will not have a material effect on the Company's financial position or results of operations. In addition, certain of the Farmers companies are, from time to time, involved as parties in various governmental and administrative proceedings.

California Earthquake Authority

Fire is a participant in the California Earthquake Authority ("CEA") on behalf of the Farmers P&C Companies. The CEA was established by the California Legislature to provide earthquake insurance to the owners of residential property in the state of California. Insurers who elect to participate in the program are liable for a portion of aggregate losses up to \$___ billion, contingent on losses exceeding a specified limit. Effective ____, 2022, the latest date for which information was available, the Farmers companies' residential earthquake insurance market share was___%, and its respective share of this contingent liability was \$___ million at December 31, 2022. In the case of a triggering event, and based on its intercompany reinsurance participation of 1.00%, the Company's share of this contingent liability before external reinsurance would be \$___ million. As of December 31, 2022, a triggering event has not occurred, and, therefore, no provision has been made in the accompanying financial statements for any liability or loss that may result from a catastrophic earthquake event.

Revolving Credit Facility Framework Agreement

FIE and certain of the Farmers' companies entered into a Revolving Credit Facility Framework Agreement for the purposes of eliminating the need to maintain large cash balances or unnecessarily liquidating investments during the monthly reinsurance cash settlement process among participating affiliates. The revolving credit framework allows participating affiliates to make short term loans to each other to cover debt arising from the monthly reinsurance settlement process. The loans, executed on an as-needed basis, mature in ninety (90) days and cannot exceed in the cumulative aggregate three percent (3%) of a borrower's or lender's admitted assets. Loans may be collateralized with a pledge of securities at lender's option, and in any event, must be collateralized if the loan crosses from one calendar year into the next calendar year such that the loan is secured and perfected as of December 31 of the year the loan was made. Parties to the agreement will renegotiate the terms of the agreement at least once every three (3) years. The agreement has been non-disapproved by the California Department of Insurance as well as by the regulators of the

All Lines Quota Share Reinsurance Agreement

Farmers began participating in an All Lines Quota Share reinsurance agreement ("ALQS") with Farmers Re and Zurich in 2002, which has been amended over the years with the aggregate participation ratio at 31% effective December 31, 2022.

Following are the participating reinsurers in the ALQS for year's 2022 and 2021, effective December 31, 2022 and 2021, respectively:

NOTES TO FINANCIAL STATEMENTS

<u>Reinsurers</u>	<u>2022</u>	<u>2021</u>
Swiss Reinsurance Company Limited (“Swiss Zurich”)	9.00%	9.00%
Hannover Rück SE (“Hannover Re”)	9.00%	9.00%
Farmers Reinsurance Company (“Farmers Re”)	8.50%	1.75%
Munich Reinsurance America, Inc., (“Munich Re”)	4.50%	9.00%
Catlin Reinsurance Switzerland Limited (“Catlin Re”)	<u>0.00%</u>	<u>2.25%</u>
Total	31.00%	31.00%

The ALQS agreement, effective December 31, 2022, has substantially the same terms as previous agreements but with several features added to certain sections of the treaty. In addition to these changes, the participation ratios of Farmers Re was increased by 6.75%, while those of Munich Re and Catlin Re, were reduced by 4.5% and 2.25%, respectively. Consequently, Catlin Re was removed as a participant to the treaty. Unearned premiums totaling \$744.8 million were transferred from Farmers to Farmers Re as a result of its increased participation in the ALQS agreement effective December 31, 2022. The new treaty calls for Farmers Re to assume an additional 6.75% of the quota share results to 8.50%. The incremental 6.75% is on a funds withheld basis and therefore no additional net funds, refunds, or deposits were required as a result of its increased participation in the ALQS agreement. On the other hand, unearned premiums totaling \$496.5 million and \$248.3 million were transferred from Munich Re and Catline Re, respectively, to Farmers as a result of their decreased participation in the ALQS. Both Munich Re and Catline Re are on a funds withheld basis and therefore no additional net funds, refunds, or deposits were required as a result of their decreased participation in the ALQS agreement.

Additionally, the catastrophe losses subject to this treaty are limited to a provisional maximum of \$2.008 billion annually, adjusted and limited to a pro rata share of 8.0% of the subject net earned premiums. In addition, there is a 3 pts Auto Loss Corridor for all Personal Auto Books (Farmers Brand, 21st, FWS and Bristol West), from 60.52% - 63.52%. Further, this treaty provides for a provisional ceding commission of 38.36% at a provisional loss ratio of 60.14%. For all trading partners, a sliding scale ceding commission is calculated based 1:1 on the difference from the provisional loss ratio, with a minimum of 35.86% and a maximum of 39.36%, after the application of the Auto Loss Corridor, and the Cat Cap.

Concurrent with this change in the ALQS participation ratios for some reinsurers, also effective December 31, 2022, Farmers Re retrocedes a portion of the risk it assumes from the Farmers Exchanges to Zurich Global Ltd (“ZGL”), a subsidiary of the Zurich Holding Company of America, Inc., through a quota share retrocession treaty, the All Lines Quota Share Retrocession reinsurance agreement (“All Lines Retrocession agreement”). The material terms of the All Lines Retrocession agreement mirror the terms of the ALQS agreement. NOTES TO FINANCIAL STATEMENTS

Litigation

Certain of Farmers companies are defendants in certain lawsuits arising in the normal course of business, which are in various stages of development. Some of these matters seek punitive as well as compensatory damages. While it is not possible to predict the outcome of these matters with certainty, management believes that their ultimate disposition will not have a material effect on the Company's financial position or results of operations. In addition, certain of the Farmers companies are, from time to time, involved as parties in various governmental and administrative proceedings.

Farmers Agency Force Deferred Compensation Plan

FIE and certain of the Farmers' companies have established tax-deferred savings plan for their agents and district managers which allowed eligible participants to defer up to 50% of their auto commissions into a deferred compensation program. The program was expanded in recent years to include other agent related initiatives as well as to other books of business such as homeowners, small business insurance, Bristol West auto, Foremost specialty, among others, all at varying deferral rates. To be eligible to participate in the plan, a full-time agent must have completed six months of service and qualifying participants are vested 100% on their accrued benefit at all times. This Plan is not subject to ERISA and is not intended to be a qualified plan.

The program is administered by TBG Financial, a third party administrator, and the maximum qualifying deferred amount allowed in any plan year per each participating Sponsor is \$5.0 million. Fund balances are monitored monthly and investment earnings in the deferred compensation liability account are credited (or debited) to the account balances. At December 31, 2022, the investment earnings was \$0.1 million. At December 31, 2021, the investment loss was \$0.1 million.

Business Owned Life Insurance

In conjunction with the Farmers Agency Force Deferred Compensation Plan, FIE and certain of Farmers' companies purchased a Variable Group Life insurance policy for certain employees, with FIE named as beneficiary. The policy provides a life insurance benefit of \$50,000 at no cost to those qualifying officers and employees who voluntarily chose to become insured. There are no cash surrender values for the participating employees. The cash surrender value of the policy was reported as an asset on the balance sheet of FIE. At December 31, 2022, the investment loss and insurance expenses were \$0.1 million and \$0.0 million, respectively. At December 31, 2021, the investment earnings and insurance expenses were \$0.1 million and \$0.0 million, respectively.

There are no policyholders' funds allocated to the premiums of this group insurance policy.

NOTES TO FINANCIAL STATEMENTS

24. RETROSPECTIVELY RATED CONTRACTS AND CONTRACTS SUBJECT TO REDETERMINATION

- A. Mid Century Insurance Company ("Mid Century"), one of the Farmers' companies, has one workers' compensation policy with Farmers Group Inc. ("FGI"), which is subject to retrospective rating features. Mid Century estimates the accrued retrospective premium adjustment through the review of the individual retrospectively rated risk and by comparing case basis loss development with that anticipated in the policy contract to arrive at the best estimate of return or additional retrospective premium. The total accrued retrospective premiums receivable was recorded at \$0.7 million and \$1.0 million for the years ended December 31, 2022 and 2021, respectively. The Company's share of the accrued retrospective premiums receivable totaled \$0.0 million and \$0.0 million for the years ended December 31, 2022 and 2021, respectively. This policy was cancelled effective January 1, 2011 and is in run-off.
- B. The Company records accrued retrospective premium as an adjustment to written premium.
- C. The amount of net premiums written subject to retrospective rating features for the years ended December 31, 2022 and 2021 for Mid Century was (\$0.7) million and (\$0.7) million, respectively. As of December 31, 2022, the Company's share of the premiums written subject to retrospective rating features was (\$0.0) million, which was (0.0%) of the Farmers' companies' total net workers' compensation premiums written of \$196.0 million. As of December 31, 2021, the Company's share of the premiums written subject to retrospective rating features was (\$0.0) million, which was (0.0%) of the Farmers' companies' total net workers' compensation premiums written of \$166.4 million.
- D. The Company had no medical loss ratio rebates at both December 31, 2022 and 2021.
- E. The Company had no non-admitted retrospective premiums at both December 31, 2022 and 2021.
- F. Not Applicable

25. CHANGE IN INCURRED LOSSES AND LOSS ADJUSTMENT EXPENSES

- A. Reserves for incurred losses and loss adjustment expenses attributable to insured events of prior years have decreased by \$4.8 million as of December 31, 2022, as a result of re-estimation of unpaid losses and loss adjustment expenses principally on the private passenger auto, homeowners and commercial multiple peril lines of insurance. This was partially offset primarily by an increase in auto physical damage and other liability - occurrence. This decrease is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased and decreased as additional information becomes known regarding individual claims.

26. INTERCOMPANY POOLING ARRANGEMENTS

Certain members of Farmers participate in an intercompany reinsurance program (the "Intercompany Program"), with FIE as the lead company, pursuant to which each participant assumes a proportionate share of the Farmers Companies' results from FIE based on their respective participation percentages (see table below). FIE is also a participant in various other reinsurance contracts with affiliates, which occur prior to the Intercompany Program.

First, FIE under 100% quota share reinsurance agreements assumes the business written, net of non-affiliated reinsurance, by all of the Farmers companies, excluding Farmers Re. Next, FIE cedes 31.0% of all lines of business to Farmers Re and seven other reinsurers under the All Lines agreement. Finally, FIE retrocedes the remaining business of the Farmers companies to the insurers participating in the Intercompany Program according to their respective participation percentages.
