NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Ohio Bar Title Insurance Company (“the Company”) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (“ODI”).

The ODI recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, and for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners (“NAIC”) *Accounting Practices and Procedures Manual* (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The state of Ohio has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. Specifically, the timing of amounts released from the statutory premium reserve under Ohio’s required practice differs from NAIC SAP.

A reconciliation of the Company’s capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Title insurance premiums are not fully recognized as revenue on the effective date of the policies. A portion of the premiums received is deferred and amortized in accordance with state mandated requirements, which governs the statutory premium reserve. The reserve for known title losses reflects the estimated cost necessary, based upon the most recent information available, to settle all claims reported to the Company and excludes the reserves for incurred but not reported claims.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds are stated at either amortized cost or lower of amortized cost or fair value using the scientific interest method. The Company had no mandatory convertible securities and/or SVO identified investments.
- (3) Common stocks are stated at fair value.
- (4) Preferred stocks - Not applicable.

F. The Company's federal income tax return is consolidated with the following entities:

The Company's federal income tax return is included in the consolidated return for the group whose members include: First American Financial Corporation, together with those companies owned 80% or more as shown on Schedule Y, Part 1, Organizational Chart.

The method of allocation between the companies is subject to a written agreement, approved by the Board of Directors, whereby the allocation is made primarily on a separate-return basis with current reimbursement for any losses and deferred tax assets generated by insurance subsidiaries if such benefits can be utilized in the consolidated tax returns. Intercompany tax balances are settled annually after the consolidated tax return has been filed.

G. Federal or Foreign Income Tax Loss Contingencies

It is reasonably possible that the amount of the unrecognized benefit with respect to certain of the Company's unrecognized tax positions may significantly increase or decrease within the next 12 months. These changes may be the result of items such as ongoing audits or the expiration of federal and foreign statute of limitations for the assessment of taxes. Based on the status of its current tax audits, the Company estimates that there will be no significant increase or decrease in unrecognized tax benefits within the next 12 months.

- 17. Sale, Transfer and Servicing of Financial Assets and Extinguishments of Liabilities – Not Applicable**
- 18. Gains or Loss to the Reporting Entity from Uninsured Plans and the Uninsured Portion of Partially Insured Plans – Not Applicable**
- 19. Direct Premiums Written/Produced by Managing General Agents/Third Party Administrators – Not Applicable**
- 20. Fair Value Measurements**

The Company's financial assets measured at fair value have been classified, for disclosure purposes, based on a hierarchy. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset's classification is based on the lowest level input that is significant to its measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3).

The levels of the fair value hierarchy are as follows:

Level 1: Observable inputs that reflect quoted prices for identical assets or liabilities in active markets that the company has the ability to access at the measurement date. Level 1 securities include highly liquid money market funds, certain mortgage-backed securities, and exchange traded equity and derivative securities.

Level 2: Quoted prices in markets that are not active or significant inputs that are observable either directly or indirectly. Level 2 inputs include the following:

- a. Quoted prices for similar assets or liabilities in active markets;
- b. Quoted prices for identical or similar assets or liabilities in non-active markets;
- c. Inputs other than quoted market prices that are observable;
- d. Inputs that are derived principally from or corroborated by observable market data through correlation or other means.

Level 3: Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These reflect management's own judgments about the assumptions a market participant would use in pricing the asset or liability.

There were investments requiring fair value measurements as of December 31, 2022.
