1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Devoted Health Plan of Ohio, Inc. (the “Company”) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the “Department”). The Company focuses on Medicare, the health insurance program for retired United States citizens aged 65 and older, qualifying disabled persons, and persons suffering from end-stage renal disease. Medicare is funded by the federal government and administered by the Department of Health and Human Services, Centers for Medicare & Medicaid Services (“CMS”). The Company has contracts with CMS to provide Medicare Advantage (“MA”) and MA preferred provider organization (“MA PPO”) health care services through a network of healthcare providers to Medicare enrollees in all counties in Ohio.

The Department recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners’ (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The state has adopted certain prescribed accounting practices that differ from those found in NAIC SAP. The Commissioner of Insurance has the right to permit other specific practices that deviate from prescribed practices. At this time, there are no prescribed or permitted practices that impact the Company’s statutory basis financial statements.

A reconciliation of the Company’s net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

- Level 1 – Quoted (unadjusted) prices for identical assets in active markets.
- Level 2 – Other observable inputs, either directly or indirectly, including:
- Quoted prices for similar assets in active markets;
 - Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
 - Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
 - Inputs that are derived principally from or corroborated by other observable market data.
- Level 3 – Unobservable inputs that cannot be corroborated by observable market data.

As of March 31, 2023, the Company’s cash equivalents consisted of investments in money market mutual funds. As of March 31, 2023, the carrying value of the money market mutual funds approximated fair value due to the short-term nature of the investments.

- A. Fair Value Measurement

- The following table presents information about the Company’s financial assets that are measured and reported at fair value at March 31, 2023, in the statutory basis statements of admitted assets, liabilities, and capital and surplus according to the valuation techniques the Company used to determine their fair values:
