Notes to the Financial Statements

5. Investments (Continued)

(5) All loan-backed and structured securities in an unrealized loss position were reviewed to determine whether other-than-temporary impairments should be recognized. The Company asserts that it has the intent and ability to hold these securities long enough to allow the cost basis of these securities to be recovered. These conclusions are supported by a detail analysis of the underlying credit and cash flows of each security. Unrealized losses are primarily attributable to credit spread widening and increased liquidity discounts. It is possible that the Company could recognize other-than-temporary impairments in the future on some of the securities, if future events, information and the passage of time causes it to conclude that declines in value are other-than-temporary.

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years

Reserves as of December 31, 2022 were \$6.62 million. As of June 30, 2023, \$1.34 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$3.71 million as a result of re-estimation of unpaid claims and claim adjustment expenses principally on the surety lines of insurance. Therefore, there has been a \$1.57 million favorable prior year development since December 31, 2022 to June 30, 2023. The change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims.
