## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

Integrity Insurance Company (the "Company") prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by The Ohio Department of Insurance (the "Department"). The Department requires that insurance companies domiciled in the State of Ohio prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") subject to any deviations prescribed or permitted by the Department. The Company does not employ accounting practices that depart from the NAIC SAP.

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below; the reconciliation illustrates that the permitted practice described above has no impact on either net income or surplus:

### 20. Fair Value Measurements

#### A. Fair Value Measurement

##### (1) Fair value measurements at reporting date

The Company has categorized its investments that are measured at fair value into the three-level hierarchy or investments reported at net asset value ("NAV") as of the end of the period:

Description for each class of asset or liability	Level 1	Level 2	Level 3	Net Asset Value (NAV)	Total

##### (3) The Company's policy is to recognize transfers in and out as of the end of the reporting period.

##### (4) As of the end of the period, the reported fair value of the entity's investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

**Bonds** – According to statutory accounting rules, fixed-income securities with a rating of NAIC 1 or 2 are reported at amortized cost. Securities with a rating of NAIC 3 thru 6, or non-investment grade ratings, are measured and reported at the lower of amortized cost or fair value on the statement of financial position. At the end of every quarter and at year end, the Company utilizes fair values provided by its custodian. Fair value is determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, credit spreads, interest rate yield curves, and other market-observable information. Thus, any fixed-income securities measured and reported at fair value are included in the amounts disclosed above as Level 2 of the hierarchy.

**Parent, Subsidiaries, and Affiliates** – The Company's investments in two subsidiaries are measured and reported at fair value as of the end of the period, for each respective entity totaling \$21.5 million. Fair value measurement is determined by the individual entity's surplus at the end of a period, or the amount by which assets exceed liabilities. All subsidiaries are in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent payables related to current federal income taxes and deferred taxes. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement and result in disclosure at Level 3.
