Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

The financial statements of Essence Healthcare of Ohio, Inc. ("EHOH" or "the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department). The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, to determine its solvency under the Ohio Department of Insurance Law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual, (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the state of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with the accounting practices prescribed or permitted by the Company's applicable regulatory authorities requires management to make estimates and assumptions. Management's estimates and assumptions affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting periods.

Although the Company regularly assesses these estimates, actual results could differ materially from these estimates. Changes in estimates are recorded in the period in which they become known. The Company bases its estimates on historical experience and various other assumptions that it believes to be reasonable under the circumstances. Actual results could differ from management's estimates if past experience or other assumptions do not turn out to be substantially accurate.

C. Accounting Policy

In addition, the Company uses the following accounting policies.

- (1) The Company does not have any short term investments.
- (2) The Company had no mandatory convertible securities and Securities Valuation Office (SVO) identified securities.
- (3) The Company does not have any common stock.
- (4) The Company does not have any preferred stock.
- (5) The Company does not have any mortgage loans.
- (6) The Company does not have any loaned-back securities.
- (7) The Company does not have any investments in subsidiaries, controlled or affiliated companies.
- (8) The Company does not have any joint ventures, partnerships or limited liability companies.
- (9) The Company does not have any derivatives.
- (10) The Company utilizes anticipated investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include amounts determined from claims estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company's capitalization policy has not changed.
- (13) The Company's pharmaceutical rebate receivables are estimated based on a historical experience. The amount of receivable is calculated as a percent of the cost of brand drugs. This percentage is continually reviewed and adjusted as necessary and any change is reflected in the period determined.

20. Fair Value Measurements

- A. Fair Value Measurement

The Company follows SSAP No. 100, Fair Value Measurements (SSAP No. 100), for the Company's financial assets and liabilities that are measured at fair value.

The Company's financial assets and liabilities carried at fair value have been classified, for disclosure purposes, based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The hierarchy gives the highest priority to fair values determined using unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to fair values determined using unobservable inputs (Level 3). An asset's or liability's classification is determined based on the lowest level input that is significant to its measurement.

For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

- Level 1: Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2: Inputs are other than quoted prices included in level 1 that are observable for the asset or liability through corroboration with market data at the measurement date.
- Level 3: Inputs are unobservable and reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date.

Fair value of actively traded fixed-income and equity securities is based on quoted market prices. Fair value of inactively traded fixed-income securities is based on quoted market prices of identical or similar securities based on observable inputs like interest rates using a market valuation approach is generally classified as Level 2. Investments measured based on the practical expedient being net asset value (NAV), based on the NAV of the fund as provided for in the audited financial statements and other fund reporting, are generally classified as Level 3.
