NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of Great American Alliance Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices as prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners' ("NAIC") Accounting Practices and Procedures Manual has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Company has no prescribed or permitted practices that would result in differences between NAIC Statutory Accounting Principles (SAP) and the state of Ohio, as shown below:

C. Accounting Policy

(2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Schedule

Bonds with a NAIC rating 1 or 2 are stated at amortized cost using the interest method; all others are stated at the lower of amortized cost or fair value. Mandatory convertible bonds are stated at the lower of book value or fair value, regardless of the NAIC designation. The Company does not own any SVO-Identified Exchange Traded Funds.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

For residential mortgage-backed securities (RMBS), commercial mortgage-backed securities (CMBS), and loan-backed and structured securities (LBASS), the NAIC has retained a third-party investment management firm to assist in the determination of the appropriate NAIC designations and Book Adjusted Carrying Values based on not only the probability of loss, but also the severity of loss. The RMBS, CMBS, and LBASS securities that are not modeled but receive a current year NAIC Credit Rating Provider (CRP) rating equal to NAIC 1 or 2 are stated at amortized cost and NAIC 3-6 are stated at lower of amortized cost or fair value.

D. Going Concern

After review of the Company's financial condition, management does not have any doubts about the Company's ability to continue as a going concern.

D. Loan-Backed Securities

(1) Description of Sources Used to Determine Prepayment Assumptions

The Company uses dealer-modeled prepayment assumptions for mortgage-backed securities and asset-backed securities at the date of purchase to determine effective yields; significant changes in estimated cash flows from the original purchase assumptions are accounted for on a prospective basis.

(2) Other-Than-Temporary Impairments ("OTTI")

The Company had no loan-backed securities with a recognized OTTI due to either the intent to sell or lack of intent to hold to recovery during the current year.

(3) Recognized OTTI Securities

The Company had no loan-backed securities with a credit-related OTTI recognized during the current year.

(4) All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:	
1. Less than 12 Months	\$ (87,139)
2. 12 Months or Longer	\$ (769,917)
b)The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 Months	\$ 4,027,985
2. 12 Months or Longer	\$ 9,693,853

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

Based on cash flow projections received from independent sources (which reflect loan to collateral values, subordination, vintage and geographic concentration), implied cash flows inherent in security ratings and analysis of historical payment data, management believes that the Company will recover its cost basis in all securities with unrealized losses as of June 30, 2023. The Company has the intent to hold such securities until they recover in value or mature.

NOTE 20 Fair Value Measurements

- A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date
The Company does not have any assets carried at fair value.

(2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy
The Company does not have any Level 3 securities carried at fair value.

(3) Policies when transfers between levels are recognized:
The Company recognizes and records the transfer of securities into and out of Level 3 due to changes in availability of market observable inputs. All transfers are reflected in the table above at fair value as of the end of the reporting period.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement
The Company categorizes its financial instruments based on the degree of subjectivity inherent in the method by which they are valued into a fair value hierarchy of three levels as follows:

Level 1 - Quoted prices for identical assets or liabilities in active markets (markets in which transactions occur with sufficient frequency and volume to provide pricing information on an ongoing basis). The Company's Level 1 financial instruments consist primarily of publicly traded equity securities and highly liquid government bonds for which quoted market prices in active markets are available.

NOTES TO FINANCIAL STATEMENTS

Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar assets or liabilities in inactive markets (markets in which there are few transactions, the prices are not current, price quotations vary substantially over time or among market makers, or in which little information is released publicly); and valuations based on other significant inputs that are observable in active markets. The Company's Level 2 financial instruments include corporate and municipal fixed maturity securities, asset-backed securities, mortgage-backed securities, and non-affiliated common stocks priced using observable inputs. Level 2 inputs include benchmark yields, reported trades, corroborated broker/dealer quotes, issuer spreads, and benchmark securities. When non-binding broker quotes can be corroborated by comparison to similar securities priced using observable inputs, they are classified as Level 2.

Level 3 - Valuations derived from market valuation techniques generally consistent with those used to estimate fair value of Level 2 financial instruments in which one or more significant inputs are unobservable or when the market for a security exhibits significantly less liquidity relative to markets supporting Level 2 fair value measurements. The unobservable inputs may include management's own assumptions about the assumptions market participants would use based on the best information available at the valuation date. The Company's Level 3 is comprised of financial instruments whose fair value is estimated based on non-binding broker quotes or internally developed using significant inputs not based on, or corroborated by, observable market information.

The Company's investment manager, American Money Management Corporation ("AMMC"), is responsible for the valuation process and uses data from outside sources (including nationally-recognized pricing services and brokers/dealers) in establishing fair value. Valuation techniques utilized by pricing services and prices obtained from external sources are reviewed by AMMC's internal investment professionals who are familiar with the securities being priced and the markets in which they trade to ensure the fair value determination is representative of an exit price. To validate the appropriateness of the price obtained, these investment managers consider widely published indices (as benchmarks), recent trades, changes in interest rates, general economic conditions, and the credit quality of the specific issuers. In addition, AMMC communicates directly with the pricing service regarding the methods and assumptions used in pricing, including verifying, on a test basis, the inputs used by the service to value specific securities.

(5) Fair Value Disclosures
Not applicable

B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements
The Company has no additional fair value disclosures.

C. Fair Value Level
The table below reflects the fair value and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries, joint ventures, partnerships, and limited liability corporations). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A.
