## Notes to the Financial Statements

### 1. Summary of Significant Accounting Policies and Going Concern

#### A. Accounting Practices

Integrity Insurance Company (the "Company") prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by The Ohio Department of Insurance (the "Department"). The Department requires that insurance companies domiciled in the State of Ohio prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners ("NAIC") Accounting Practices and Procedures Manual ("NAIC SAP") subject to any deviations prescribed or permitted by the Department. The Company does not employ accounting practices that depart from the NAIC SAP.

A reconciliation of the Company's net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below; the reconciliation illustrates that the permitted practice described above has no impact on either net income or surplus:

	SSAP #	F/S Page	F/S Line #	2023	2022
Net Income					
(1) State basis (Page 4, Line 20, Columns 1 & 2) .....	XXX	XXX	XXX	\$ (7,012,481)	\$ (8,109,325)
(2) State prescribed practices that are an increase / (decrease) from NAIC SAP: .....	XXX	XXX	XXX	\$ (7,012,481)	\$ (8,109,325)
(3) State permitted practices that are an increase / (decrease) from NAIC SAP: .....	XXX	XXX	XXX	\$ (7,012,481)	\$ (8,109,325)
(4) NAIC SAP (1-2-3=4) .....	XXX	XXX	XXX	\$ 57,885,403	\$ 64,592,737
Surplus					
(5) State basis (Page 3, Line 37, Columns 1 & 2) .....	XXX	XXX	XXX	\$ 57,885,403	\$ 64,592,737
(6) State prescribed practices that are an increase / (decrease) from NAIC SAP: .....	XXX	XXX	XXX	\$ 57,885,403	\$ 64,592,737
(7) State permitted practices that are an increase / (decrease) from NAIC SAP: .....	XXX	XXX	XXX	\$ 57,885,403	\$ 64,592,737
(8) NAIC SAP (5-6-7=8) .....	XXX	XXX	XXX	\$ 57,885,403	\$ 64,592,737

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with NAIC SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

#### C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by daily pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost, which approximates fair value.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific method.
- (3) Common stocks - None
- (4) Preferred stocks - None
- (5) Mortgage loans - None
- (6) Loan-backed securities are stated at either amortized cost or the lower of amortized cost or fair market value. The retrospective adjustment method is used to value all securities except for interest only securities or securities where the yield had become negative, those are valued using the prospective method.
- (7) Investments in stocks of subsidiaries and affiliates in which the Company has an interest of 20% or more are carried on the statutory equity basis.
- (8) Investments in joint ventures, partnerships and limited liability companies - None
- (9) Derivatives - None
- (10) The Company does not anticipate investment income as a factor in the premium deficiency calculation, in accordance with SSAP No. 53, Property-Casualty Contracts - Premiums.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are necessarily based on assumptions and estimates and while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) Changes in capitalization policy - Not Applicable
- (13) Pharmaceutical rebate receivables - Not Applicable

b. Liabilities										
Total liabilities	\$	\$	\$	\$	\$	\$	\$	\$	\$	\$

(3) The Company's policy is to recognize transfers in and out as of the end of the reporting period.

(4) As of the end of the period, the reported fair value of the entity's investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

**Bonds** – According to statutory accounting rules, fixed-income securities with a rating of NAIC 1 or 2 are reported at amortized cost. Securities with a rating of NAIC 3 thru 6, or non-investment grade ratings, are measured and reported at the lower of amortized cost or fair value on the statement of financial position. At the end of every quarter and at year end, the Company utilizes fair values provided by its custodian. Fair value is determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, credit spreads, interest rate yield curves, and other market-observable information. Thus, any fixed-income securities measured and reported at fair value are included in the amounts disclosed above as Level 2 of the hierarchy.

**Parent, Subsidiaries, and Affiliates** – The Company's investments in two subsidiaries are measured and reported at fair value as of the end of the period, for each respective entity totaling \$21.7 million. Fair value measurement is determined by the individual entity's surplus at the end of a period, or the amount by which assets exceed liabilities. All subsidiaries are in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent payables related to current federal income taxes and deferred taxes. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement and result in disclosure at Level 3.
