NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The financial statements of The Western and Southern Life Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the state of Ohio. The Department has the right to permit other specific practices that deviate from prescribed practices. There are no differences between the Company's net income and capital and surplus following NAIC SAP or practices prescribed and permitted by the state of Ohio.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting practices requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Life premiums are recognized as income over the premium-paying period of the related policies. Annuity considerations are recognized as revenue when received. Amounts received on deposit-type contracts are entered directly as a liability when received. Health premiums are earned ratably over the terms of the related insurance and reinsurance contracts or policies. Expenses incurred in connection with acquiring new insurance business, including acquisition costs such as sales commissions, are charged to operations as incurred.

The amount of dividends to be paid to policyholders is determined annually by the Company's Board of Directors. The aggregate amount of policyholders' dividends is related to actual interest, mortality, morbidity and expense experience for the year and judgment as to the appropriate level of statutory surplus to be retained by the Company.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are stated at either amortized cost using the interest method or the lower of amortized cost or fair market value. All SVO-Identified securities are reported at fair value. The Company has not reacquired any SVO-Identified securities during the reporting period.
- (3) Common stocks of life insurance subsidiaries are carried at statutory equity. Unaffiliated common stocks are stated at fair market value. Common stocks of non-life subsidiaries and non-life affiliates in which the Company has an interest of 10% or more are carried on the GAAP equity basis.
- (4) Preferred stocks are stated at either cost or the lower of cost or fair market value.
- (5) Mortgage loans on real estate are stated at the aggregate unpaid principal balance plus unamortized premium less unaccrued discount.
- (6) Loan-backed and structured securities are stated at amortized cost, except those with an initial NAIC designation of 6, which are stated at the lower of amortized cost or fair value. Loan-backed and structured securities with an initial NAIC designation of 6 could have a final designation of 1 through 5 as determined by the SVO financial modeling process. The retrospective adjustment method is used to determine amortized cost for all loan-backed and structured securities, except for those which an other-than-temporary impairment has been recognized, which use the prospective adjustment method to determine amortized cost.
- (7) The Company owns 100% of the capital stock of its non-life insurance subsidiaries, which are stated at GAAP equity.

(8) The Company has investments in joint ventures organized as limited partnerships or limited liability companies. The Company carries these interests based on the underlying GAAP equity of the investee. Undistributed earnings allocated to the Company are reported in the change in net unrealized capital gains or losses. Distributions from earnings of the entity are reported as net investment income when received. Because of the indirect nature of these investments, there is an inherent reduction in transparency and liquidity and increased complexity in valuing the underlying investments. As a result, these investments are actively managed by Company management via detailed evaluation of the investment performance relative to risk.

(9) The Company did not hold any material investments in derivative financial instruments as of December 31, 2023.

(10) Anticipated investment income is not a factor in calculating deficiency reserves.

(11) Loss liabilities for accident and health contracts are based on industry standard tables for long term disability coverages and historical company experience for other accident and health.

(12) The Company has not changed its capitalization policy from the prior year.

(13) The Company has no pharmaceutical rebate receivables on its books during the statement periods.

(14) The Company monitors investments to determine if there has been an other-than-temporary decline in fair value. Factors management considers for each identified security include the following:

- the length of time and the extent to which the fair value is below the book/adjusted carry value;
- the financial condition and near term prospects of the issuer, including specific events that may affect its operations;
- for equity securities and debt securities with credit related declines in fair value, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
- for debt securities with interest related declines in fair value, the Company's intent to sell the security before recovery of its book/adjusted carry value;
- for loan-backed securities, the Company's intent and ability to hold the security long enough for it to recover its value to book/adjusted carry value;
- for loan-backed securities, the Company's intent to sell the security before recovery of its book/adjusted carry value.

If the decline is judged to be other-than-temporary, an impairment charge is recorded as a net realized capital loss in the period the determination is made.

D. Loan-Backed Securities

(1) Prepayment assumptions are derived from Bloomberg and broker dealer prepayment models or from empirical data.

(2) The Company had no other-than-temporary impairments on loan-backed and structured securities for the year ended December 31, 2023, due to the intent to sell the security or the inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis of the security.

(3) The following is a list of each loan-backed and structured security with a recognized other-than-temporary impairment, for the year ended December 31, 2023, where the present value of future cash flows expected to be collected is less than the amortized cost basis of the securities:

1 CUSIP	2 Book/Adjusted Carrying Value Amortized Cost Before Current Period OTTI	3 Present Value of Projected Cash Flows	4 Recognized Other-Than-Temporary Impairment	5 Amortized Cost After Other-Than-Temporary Impairment	6 Fair Value at time of OTTI	7 Date of Financial Statement Where Reported

Total	XXX	XXX	596	XXX	XXX	XXX

(4) The following is an aggregate total of all impaired loan-backed securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss, including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains as of December 31, 2023:

a. The aggregate amount of unrealized losses:

1. Less than 12 Months	223,358
2. 12 Months or Longer	18,987,559

b. The aggregate related fair value of securities with unrealized losses:

1. Less than 12 Months	10,139,762
2. 12 Months or Longer	159,668,468

(5) See Note 1C (14) for the factors management considers when evaluating for an other-than-temporary decline in fair value.

E. Dollar Repurchase Agreements and/or Securities Lending Transactions

At December 31, 2023, the Company has loaned \$74.5 million and \$23.4 million (fair value) in the general and separate account, respectively, of various debt securities, preferred stocks and common stocks as part of a securities lending program administered by Deutsche Bank. At December 31, 2022, the Company had loaned \$78.7 million and \$59.7 million (fair value) in the general and separate account, respectively, of various debt securities, preferred stocks and common stocks as part of a securities lending program administered by Deutsche Bank. The Company maintains effective control over all loaned securities and, therefore, continues to report such securities as invested assets in the balance sheets. The general account collateral is managed by both an affiliated and unaffiliated agent. The separate account collateral is managed by an unaffiliated agent.

(1) The Company requires at the initial transaction that the fair value of the cash collateral received must be equal to 102% of the fair value of the loaned securities. The Company monitors the ratio of the fair value of the collateral to loaned securities to ensure it does not fall below 100%. If the fair value of the collateral falls below 100% of the fair value of the securities loaned, the Company non-admits that portion of the loaned security. At December 31, 2023 and 2022, the Company did not non-admit any portion of the loaned securities.

(2) Not Applicable.

b. The fair value of that collateral and of the portion of that collateral that it has sold or repledged is \$76.3 million and \$24.1 million in the general and separate accounts, respectively.

c. The Company receives cash collateral in an amount in excess of the fair value of the securities lent. The Company reinvests the cash collateral primarily in investment-grade debt securities and cash equivalents.

(4) The Company reports all collateral on the balance sheet with an offsetting liability recognized for the obligation to return the collateral. Collateral for the securities lending program is either managed by an affiliated agent of the Company or is managed by Deutsche Bank, an unaffiliated agent. Collateral managed by an affiliated agent is invested primarily in investment-grade debt securities and cash equivalents and is included in the applicable amount on the balance sheet because the funds are available for the general use of the Company. Collateral managed by an unaffiliated agent is invested in cash equivalents and is included in securities lending reinvested collateral assets on the balance sheet at December 31, 2023 and 2022.

B. The plan employs a total return investment approach whereby a mix of fixed income and equity investments are used to maximize the long-term return of plan assets for a prudent level of risk. Risk tolerance is established through careful consideration of plan liabilities, plan funded status, and corporate financial condition. The total portfolio is structured with multiple sub-portfolios, each with a specific fixed income or equity asset management discipline. Each sub-portfolio is subject to individual limitations and performance benchmarks as well as limitations at the consolidated portfolio level. Quarterly asset allocation meetings are held to evaluate portfolio asset allocation and to establish the optimal mix of assets given current market conditions and risk tolerance. Investment mix is measured and monitored on an on-going basis through regular investment reviews, annual liability measurements, and periodic asset/liability studies.

The Company applies long-term asset return estimates to the plan's target asset allocation to determine the weighted-average long-term return. The Company's long-term asset allocation was determined through modeling long-term returns and asset return volatilities and is guided by an investment policy statement created for the plan.

Interest on the 0001 Notes is paid semi-annually on January 15 and July 15 of each year. The 0001 Notes were issued pursuant to Rule 144A as defined by the Securities Act of 1933 and are administered by the Bank of New York Mellon.

Subject to the approval of the Director, the Company has the option to redeem the 0001 Notes (i) in whole within 90 days after the occurrence of a "Tax Event" where the Company receives an opinion of tax counsel that there is a more than insubstantial risk that interest payable on the 0001 Notes is not deductible by the Company, at a redemption price equal to the principal amount of the 0001 Notes to be redeemed (the "Par Value Redemption Price"), (ii) in whole or in part, on or after January 23, 2024 but prior to July 15, 2048, at a redemption price equal to the greater of (a) the Par Value Redemption Price or (b) the sum of the present value of the remaining scheduled principal and interest payments on the 0001 Notes from the redemption date to July 15, 2048, discounted to the redemption date on a semi-annual basis at an adjusted treasury rate plus 35 basis points or (iii) in whole or in part, on or after July 15, 2048, at the Par Value Redemption Price, plus, in each case of (i), (ii) and (iii), accrued and unpaid interest payments on the 0001 Notes to be redeemed to the redemption date.

With respect to item 0002, the Company issued surplus notes (the "0002 Notes"), on April 28, 2021, with an aggregate principal amount of \$500.0 million, an annual interest rate of 3.75%, and a maturity date of April 28, 2061 in exchange for \$497.6 million in cash. The 0002 Notes were issued pursuant to Rule 144A as defined by the Securities Act of 1933 and are administered by the Bank of New York Mellon.

Subject to the approval of the Director, the Company has the option to redeem the 0002 Notes (i) in whole within 90 days after the occurrence of a "Tax Event" where the Company receives an opinion of tax counsel that there is a more than insubstantial risk that interest payable on the 0002 Notes is not deductible by the Company, at a redemption price equal to the principal amount of the 0002 Notes to be redeemed (the "Par Value Redemption Price"), (ii) in whole or in part, prior to October 28, 2060, at a redemption price equal to the greater of (a) the Par Value Redemption Price or (b) the sum of the present value of the remaining scheduled principal and interest payments on the 0002 Notes from the redemption date to October 28, 2060, discounted to the redemption date on a semi-annual basis at an adjusted treasury rate plus 25 basis points or (iii) in whole or in part, on or after October 28, 2060, at the Par Value Redemption Price, plus, in each case of (i), (ii) and (iii), accrued and unpaid interest payments on the 0002 Notes to be redeemed to the redemption date.

With respect to both item 0001 and 0002 (collectively the "Notes") the Notes are unsecured and subordinated to all present and future indebtedness, policy claims and "prior claims" (those claims referred to in classes 1 through 7 of Section 3903.42 of the Ohio Revised Code) against the Company. Under Ohio insurance laws, the Notes are not part of the legal liabilities of the Company. Each payment of principal of, interest on or redemption price with respect to the Notes, may be made only with the prior approval of the Ohio Director of Insurance (the "Director"), and only out of surplus earnings.

In the event the Company was subject to a liquidation event, the Notes would have preference over the common shareholders. No affiliates of the Company hold any of the Notes. As of closing, Guggenheim Partners was the only holder of more than 10% of the outstanding Notes on record at the Depository Trust Company.

- (2) The Company guarantees the payment of all policyholder obligations of each of the following wholly-owned subsidiaries, Western-Southern Life Assurance Company, Columbus Life Insurance Company, and Integrity Life Insurance Company. Guarantees on behalf of wholly-owned subsidiaries or on behalf of related parties that are considered to be unlimited (as in the case of the guaranteee on behalf of Lafayette Life Insurance Company) are exempt from the initial liability recognition criteria in SSAP 5R and therefore no liability has been recognized in the financial statements. Due to the unlimited nature of the guarantees, the Company is unable to estimate the maximum potential amount of future payments under the guarantees. In the unlikely event the guarantees would be triggered, the Company may be permitted to take control of the underlying assets to recover all or a portion of the amounts paid under the guarantees.

The Company has guaranteed one mortgage loan in which the borrower is an affiliated limited liability company involved in development of real estate. This guarantee has a maximum exposure to the Company of \$12,774,583 for 506 Phelps Holdings, LLC in the event the real estate collateral of the affiliated limited liability company is not sufficient to cover the payment of the loan. The fair value of the real estate collateral at December 31, 2023, was approximately \$33,100,000. This loan matures in February 2024.

The following discussion describes the valuation methodologies utilized by the Company for assets and liabilities measured or disclosed at fair value. Fair value estimates are made at a specific point in time, based on available market information and judgments about the financial instrument, including discount rates, estimates of timing, amount of expected future cash flows and the credit standing of the issuer. Such estimates do not consider the tax impact of the realization of unrealized gains or losses. For Level 3 investments, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the immediate settlement of the financial instrument. As described below, certain fair values are determined through the use of third-party pricing services. Management does not adjust prices received from third-parties; however, we do analyze the third-party pricing services' valuation methodologies and related inputs and perform additional evaluation to determine the appropriate level within the fair value hierarchy. Care should be exercised in deriving conclusions about the Company's business, its value or financial position based on the fair value information of financial instruments presented below.

Debt Securities, Surplus Notes, Residual Tranche, and Equity Securities

The fair values of actively traded debt securities, asset/mortgage-backed securities, and surplus notes have been determined through the use of third-party pricing services utilizing market observable inputs. Less liquid private placement securities trading in less liquid or illiquid markets with limited or no pricing information are valued using either broker quotes or by discounting the expected cash flows using current market-consistent rates applicable to the yield, credit quality and maturity of each security.

The fair values of actively traded equity securities and exchange traded funds (including exchange traded funds with debt like characteristics) have been determined utilizing publicly quoted prices obtained from third-party pricing services. The fair values of certain equity securities for which no publicly quoted prices are available have been determined through the use of third-party pricing services utilizing market observable inputs. Actively traded mutual funds are valued using the net asset values of the funds. The fair values of preferred stock and common stock included in Level 3 have been determined by utilizing broker quotes or recent financing for similar securities. For investments utilizing NAV, see Note 20E for a description.

Mortgage Loans

The fair values for mortgage loans, consisting principally of commercial real estate loans, are estimated using discounted cash flow analyses, using interest rates currently being offered for similar loans collateralized by properties with similar investment risk. The fair values for mortgage loans in default are established at the lower of the fair value of the underlying collateral less costs to sell or the carrying amount of the loan.

Cash, Cash Equivalents and Short-Term Investments

The fair values of cash, cash equivalents and short-term investments are based on quoted market prices.

Securities Lending Reinvested Collateral Assets

The fair value of securities lending reinvested collateral assets are from third-party sources utilizing publicly quoted prices.

Assets Held in Separate Accounts

Assets held in separate accounts include debt securities, equity securities, mutual funds, surplus notes, private equity, and private debt fund investments. The fair values of these assets have been determined using the same methodologies as similar assets held in the general account. For investments utilizing NAV, see Note 20E for a description.

Life and Annuity Reserves for Investment-type Contracts and Deposit Fund Liabilities

The fair value of liabilities for investment-type contracts is based on the present value of estimated liability cash flows. Present values reflect the Company's margin for uncertainty of the timing of liability cash flows. Key assumptions to the cash flow model include the timing of policyholder withdrawals and the level of interest credited to contract balances.

Fair values for insurance reserves are not required to be disclosed. However, the estimated fair values of all insurance reserves and investment contracts are taken into consideration in the Company's overall management of interest rate risk.

Securities Lending Liability

The liability represents the Company's obligation to return collateral related to securities lending transactions. The liability is short-term in nature and therefore, the fair value of the obligation approximates the carrying amount.

D. Not applicable.

E. Investments that use a net asset value (NAV) as a practical expedient consist mainly of equity interest in limited partnerships and limited liability companies in the separate account. These investments contain fixed income, common stock and real estate characteristics. The interests in these

partnerships can be sold or transferred with prior consent from the general partner. The NAV for these investments is equal to the fair value reported on Schedule BA Part 1. The average remaining life of the investments is 16.7 years. The Company's unfunded commitment for these investments is \$74.5 million.

A collective trust in the separate account utilizing NAV is primarily investing in domestic fixed income securities. Shares in the trust can be redeemed at their net asset value. The NAV for this investment is \$10.91.

Common stock utilizing NAV as a practical expedient consist of an investment in a business development corporation as defined by the Investment Company Act of 1940. The investment can be sold or transferred with prior consent from the corporation. The NAV for this investment is \$15.00.

The Company does not intend to sell any investments utilizing NAV.

- B. Troubled Debt Restructuring. None.
- C. Other Disclosures and Unusual Items. None.
- D. Business Interruption Insurance Recoveries. None.
- E. State Transferable Tax Credits. None.
- F. Subprime Mortgage Related Risk Exposure

The Company does not have any direct investments in subprime mortgage loans. The Company does not have any equity investments in subsidiary, controlled or affiliated entities with significant subprime mortgage related risk exposure. This disclosure does not include an evaluation of mortgage-backed debt securities commonly referred to as Alt A because these debt securities do not generally share all characteristics of subprime mortgage related risk.

The Company invests directly in certain debt securities which are considered to have subprime mortgage related risk. The Company considers the following general characteristics typical of its debt securities with subprime mortgage exposure:

- Underlying borrowers with low credit ratings (FICO score generally lower than 670);
- Underlying loans with interest rates above rates available to prime borrowers;
- Underlying loans with generally higher initial loan-to-value ratios;
- Underlying loans with generally higher concentration of second liens;
- Underlying loans with generally higher concentration of manufactured housing;
- Securities with generally higher spread between collateral interest received and interest payments to investors;
- Securities with generally higher level of overcollateralization

Investments in debt securities with subprime mortgage exposure, similar to other types of investments, can subject an investor to unrealized losses due to changing interest rates or general credit spread widening. Similarly, an investor is exposed to realized losses if actual cash flow of the underlying mortgages is worse than expected due to higher defaults which can result in principal loss for the investor.

In order to manage subprime mortgage related risk the Company uses proprietary risk models to project probability of default and recoveries of underlying collateral, proprietary surveillance systems to monitor credit performance, exposure analysis by risk category and maintenance of a watchlist for higher risk investments.

The following table shows our investments in debt securities with subprime mortgage exposure based on the definition above:

(3) Direct exposure through other investments.

	(1) Actual Cost	(2) Book/Adjusted Carrying Value (excluding interest)	(3) Fair Value	(4) Other-Than- Temporary Impairment Losses Recognized

G. Retained Assets

- (1) The Company offered retained asset accounts as an optional form of settlement for life insurance policy proceeds in 2023. The retained asset account option provided to beneficiaries was not the default method for satisfying life insurance claims in 2023, as a signature of the beneficiary authorizing the creation of such an account was required for this method of settlement. The Company also holds the retained asset accounts of Western-Southern Life Assurance Company, its wholly-owned subsidiary.

The Company's retained asset accounts established after 2004 are serviced internally. The Company's retained asset accounts established prior to 2004 are serviced by an unaffiliated bank. The assets and liabilities related to retained assets accounts remain on the Company's financial statements. These retained asset accounts are included in the liability for deposit-type contracts.

The interest rate paid to retained asset account holders was 0.1% for the first month of 2023 and was then increased to 0.25% for the remainder of the year. Accountholders are not charged for routine administrative fees associated with these retained asset accounts;

provided, however, that accountholders are responsible for certain fees associated with insufficient funds checks/drafts and stop-payment orders.

A. Separate Account Activity

(1) The Company utilizes separate accounts to record and account for assets and liabilities for particular lines of business and/or transactions. For 2023, the Company reported assets and liabilities from the following product lines/transactions into a separate account:

- Deposit Administration Group Annuity Contract for the Company's Pension Plan Customers (Group Annuity Contract)

In accordance with the Ohio Department of Insurance procedures for approving items within the separate accounts, the separate account classification of the Group Annuity contract is supported by Ohio Revised Code §3907.15.

(2) In accordance with the products recorded within the separate accounts, all separate account assets are considered legally insulated from the general account. The legal insulation of the separate account assets prevents such assets from being generally available to satisfy claims resulting from the general account.

As of December 31, 2023 and 2022, the Company's separate account statement included legally insulated assets of \$1,137,428,410 and \$1,131,630,656 respectively. The assets legally insulated from the general accounts as of December 31, 2023 are attributed to the following product:

(1) Product/Transaction	(1) Legally Insulated Assets	(2) Separate Account Assets (Not Legally Insulated)
Group Annuity Contract	1,137,428,410	—
Total	1,137,428,410	—

- (3) In accordance with the products recorded within the separate account, there are no separate account liabilities that are guaranteed by the general account. (See Note 12 for further discussion on the general account's responsibility as it relates to the obligations of the Company's pension plan.)
- (4) The Company engages in securities lending transactions within the separate account. The Company has loaned \$23,436,265 (book/adjusted carrying value) of various debt and equity securities within the separate account as part of the securities lending program administered by Deutsche Bank. In accordance with such transactions conducted from the separate account, the Company follows the same policies and procedures as the general account.

B. General Nature and Characteristics of Separate Account Business

The Company maintains a separate account which holds all of the Company's pension plan assets. The Plan is a non-contributory defined benefit plan that covers substantially all employees. The assets consist primarily of marketable securities which are carried at market value.

C. Reconciliation of Net Transfers To (From) Separate Accounts
