NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern

Organization and Operations

Molina Healthcare of Ohio, Inc. (the Plan) was incorporated under the laws of the state of Ohio on November 19, 2003. The Plan is a wholly owned subsidiary of Molina Healthcare, Inc. (Molina, or the Parent), a multi-state managed care organization that arranges for the delivery of healthcare services to persons eligible for Medicaid, Medicare, the state insurance marketplaces (the Marketplace), and other government-sponsored health care programs for low-income families and individuals.

The Plan is a health maintenance organization (HMO), licensed in the state of Ohio, that provides comprehensive health care services to Medicaid enrollees under contracts with the Ohio Department of Medicaid (ODM) and Medicare enrollees under its contract with the Centers for Medicare and Medicaid Services (CMS). The Plan participates in the Medicare-Medicaid Plans (MMP), CMS's demonstration programs to integrate Medicare and Medicaid services for dual-eligible individuals. The Plan's current MMP contract is effective through December 31, 2023. Refer to Note 21C "Other Items" for further information. The Plan also serves individuals through the state's Marketplace. In some instances, the Marketplace allows individuals to purchase health insurance that is federally subsidized. Such contracts represent the majority of the Plan's source of premium income for the years ended December 31, 2024 and 2023.

The Plan contracts with independent physician associations, hospitals and other providers to provide medical services to its members. As an HMO, the Plan is at risk for all covered outpatient and inpatient claims incurred by its beneficiaries.

A. Accounting Practices

The financial statements of the Plan are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance (the Department).

The Department recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio insurance law. The National Association of Insurance Commissioners'

Such prescribed accounting practices have no significant effect on the Plan's statutory basis financial statements for the periods presented.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

C. Accounting Policy

The Plan applies the following accounting policies:

- (1) Basis for Short-Term Investments: Short-term investments consist primarily of U.S. treasury notes and investments in corporate debt securities with maturity dates of greater than three months but less than one year at the time of acquisition. The basis of short-term investments is the same as for bonds as stated in Note 1C(2).
- (2) Basis for Bonds and Amortization Schedule: Bonds include U.S. government and other debt securities with maturity dates of greater than one year at the time of purchase. Bonds not backed by other loans are principally stated at amortized cost using the scientific method. Bonds with NAIC designations of one or two are stated at amortized cost. Bonds with NAIC designations of three or higher are stated at the lower of amortized cost or fair value. Amortization of bond premium or accretion of discount is computed using the scientific (constant-yield) interest method. Realized capital gains and losses are determined using the specific-identification method and were not significant for the years ended December 31, 2024 and 2023. There were no significant unrealized gains or losses on investments, and the Plan recognized no losses from other-than-temporary impairments for the years ended December 31, 2024 and 2023.
- (3) Investments in common stock: None.
- (4) Investments in preferred stock: None.
- (5) Investments in mortgage loans: None.
- (6) Basis for Loan-Backed Securities and Adjustment Methodology: Loan-backed securities are stated at amortized cost or lower of amortized cost or fair value. The Plan's investments in loan-backed securities consist of asset-backed securities and mortgage-backed securities. Prepayment assumptions using a prospective approach were generated using a prepayment model. On an ongoing basis, the Plan monitors the rate of prepayment and calibrates the model to reflect actual experience, market factors, and viewpoint.
- (7) Investments in subsidiaries, controlled and affiliated entities (SCA): None.
- (8) Investments in joint ventures, partnerships and limited liability companies: None.
- (9) Investments in derivatives: None.
- (10) Anticipated Investment Income Used in Premium Deficiency Calculation: The Plan anticipates investment income as a factor in the premium deficiency calculation, in accordance with Statement of Statutory Accounting Principles (SSAP) No. 54R, Individual and Group Accident and Health Contracts. The Plan assesses the profitability of its medical care policies, grouped in a manner consistent with how policies are marketed, serviced and measured. If anticipated future costs exceed anticipated future premiums and investment income, a premium deficiency reserve is recognized. Refer to Note 30, "Premium Deficiency Reserves" for further information.

NOTES TO FINANCIAL STATEMENTS

- (11) Management's Policies and Methodologies for Estimating Liabilities for Losses and Loss/Claim Adjustment Expenses for Accident & Health Contracts: Claims unpaid are based on actual historical experience and estimates of medical expenses incurred but not paid (IBNP). The Plan employs its own actuaries to estimate IBNP monthly. The estimation of the IBNP liability requires a significant degree of judgment in applying actuarial methods, determining the appropriate assumptions and considering numerous factors. Of those factors, the Plan considers estimated completion factors and the assumed healthcare cost trend to be the most critical assumptions. Other relevant factors also include, but are not limited to, healthcare service utilization trends, claim inventory levels, changes in membership, product mix, seasonality, benefit changes or changes in Medicaid fee schedules, provider contract changes, prior authorizations and the incidence of catastrophic or pandemic cases. Because of the significant degree of judgment involved in estimation of our IBNP liability, there is considerable variability and uncertainty inherent in such estimates. Each reporting period, the recognized IBNP liability represents the Plan's best estimate of the total amount of unpaid claims incurred as of the balance sheet date using a consistent methodology in estimating the IBNP liability. The Plan believes its current estimates are reasonable and adequate; however, the development of our estimate is a continuous process that is monitored and updated as more complete claims payment information and healthcare cost trend data becomes available. Actual hospital and medical expenses may be less than previously estimated (favorable development) or more than previously estimated (unfavorable development), and any differences could be material. Any adjustments to reflect favorable development would be recognized as a decrease to hospital and medical expenses, and any adjustments to reflect unfavorable development would be recognized as an increase to hospital and medical expenses, in the period in which the adjustments are determined. Refer to Note 25, "Change in Incurred Claims and Claim Adjustment Expenses," for further information.
- (12) Changes in the Capitalization Policy and Predefined Thresholds from Prior Period: The Plan has not modified its capitalization policy from the prior period.
- (13) Health Care and Other Amounts Receivable: Health care and other amounts receivable primarily consist of amounts receivable for pharmaceutical rebates and claim overpayments. Pharmaceutical rebates are estimated based upon historical and current utilization of prescription drugs and contract terms. The Plan admits estimated pharmaceutical rebate receivables relating to the three months immediately preceding the reporting date in accordance with SSAP No. 84, Health Care and Government Insured Plan Receivables. Claim overpayment receivables are admitted to the extent they meet the admissibility requirements under NAIC SAP. Income from pharmaceutical rebates and the recovery of claim overpayments is reported as a reduction of hospital and medical expenses in the statutory basis statements of revenue and expenses. Refer to Note 28, "Health Care Receivables" for further information.

D. Going Concern

The Plan is not aware of any relevant conditions or events that raise substantial doubt about its abilities to continue as a going concern.

NOTE 2 Accounting Changes and Corrections of Errors

There were no accounting changes or corrections of errors during the years ended December 31, 2024 and 2023, respectively.

NOTE 3 Business Combinations and Goodwill

NOTE 4 Discontinued Operations

- C. Reverse Mortgages: None.
- D. Loan-Backed Securities:

NOTES TO FINANCIAL STATEMENTS

(1) Prepayment assumptions for mortgage-backed securities, collateralized mortgage obligations and other structure securities were generated using a purchased prepayment model. The prepayment model uses a number of factors to estimate prepayment activity including the time of year (seasonally), current levels of interest rates (refinancing incentive), economic activity (including housing turnover) and term and age of the underlying collateral (burnout, seasoning). On an ongoing basis, the rate of prepayment is monitored and model is calibrated to reflect actual experience, market factors and view point.

(2), (3) Recognized other-than-temporary impairment (OTTI) securities: None.

(4) All impaired securities (fair value is less than cost or amortized cost) for which an OTTI has not been recognized in earnings as a realized loss (including securities with a recognized OTTI for non-interest related declines when a non-recognized interest related impairment remains):

a) The aggregate amount of unrealized losses:		
1. Less than 12 Months	\$	1,103,557
2. 12 Months or Longer	\$	4,451,218
b)The aggregate related fair value of securities with unrealized losses:		
1. Less than 12 Months	\$	60,356,319
2. 12 Months or Longer	\$	52,971,623

(5) Because the decline in the market values of the securities was not due to the credit quality of the issuers, and because the Plan does not intend to sell nor does it expect to be required to sell these securities before a recovery in their cost basis, the Plan does not consider the securities to be other-than-temporarily impaired at December 31, 2024.

Federal income taxes are paid to or refunded by Molina pursuant to the terms of a tax-sharing agreement, approved by the Board of Directors, under which taxes approximate the amount that would have been computed on a separate company basis, with the exception of net operating losses and capital losses. For these losses the Plan receives a benefit at the federal rate in the current year for current taxable losses incurred in that year to the extent losses can be utilized in the consolidated federal income tax return of Molina.

Effective tax year 2024, the controlled group was deemed an applicable corporation subject to the Corporate Alternative Minimum Tax (“CAMT”). In accordance with the amended and restated tax sharing agreement, the Plan is excluded from charges for any portion of the group’s CAMT and is not allocated any portion of the group’s CAMT credit carryover.

NOTE 13 Capital and Surplus, Dividend Restrictions and Quasi-Reorganizations

- A. The Plan has 1,500 shares of \$1 par value common stock authorized, 1,500 shares issued and outstanding. All issued and outstanding shares of common stock are held by Molina.
- B. Preferred stock: None.
- C. Dividend restrictions: The payment of dividends by the Plan to Molina is limited and can only be made from earned profits unless prior approval is received from the Department. The amount of dividend that may be paid by insurance companies without prior approval of the Ohio Insurance Commissioner is also subject to restrictions relating to statutory surplus and net income. At December 31, 2024 and 2023, no extraordinary dividends were paid without the Department's approval. A dividend/distribution cannot decrease unassigned funds below zero. Ordinary dividends do not require prior approval by the Department.
- D. Dividends paid by the Plan to Molina during the years 2024 and 2023, respectively, were as follows: Refer to Note 10B.
- E. Subject to the limitations of 13(C), no restrictions have been placed on the portion of the Plan's profits that may be paid as ordinary dividends to Molina.

NOTE 14 Liabilities, Contingencies and Assessments

- A. Contingent Commitments: The Plan has no contingent commitments.
- B. Assessments: None.
- C. Gain Contingencies: None.
- D. Claims related extra contractual obligations and bad faith losses stemming from lawsuits: None.
- E. Joint and Several Liabilities: None.
- F. All Other Contingencies: From time to time, the Plan may be involved in legal actions in the normal course of business, some of which involve a demand for both compensatory and punitive damages not covered by insurance. Currently, there are no pending or threatened actions which, to the knowledge and in the opinion of management and the Plan's counsel, would have a material adverse effect on the Plan's financial position, results of operations or cash flow.

The Plan routinely evaluates the collectability of all receivable amounts included in the statutory basis statements of admitted assets, liabilities, and capital and surplus. Impairment reserves are established for those amounts where collectability is uncertain. Based on the Plan's past experience, exposure related to uncollectible balances and the potential of loss for those balances not currently reserved for is not material to the Plan's financial position, results of operation or cash flow.

The Plan recognizes the financial statement benefit of a tax position after determining that the relevant tax authority would more likely than not sustain the position following an audit, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than 50% likely of being realized upon ultimate settlement. Interest and penalties, if incurred, are recognized in the statutory basis statements of revenue and expenses as federal income tax expense. The Plan did not have any tax loss contingency liability as of December 31, 2024. The Plan has not recognized any interest or penalties for the years ended December 31, 2024 and 2023.

There are no assets that the Plan considers to be impaired at December 31, 2024 and 2023.

NOTE 15 Leases

- A. Lessee Operating Lease:
- (1) The Plan leases office facilities and equipment under noncancelable long-term operating leases. Some of the leases contain escalation clauses and renewal options. Rental expense relating to these leases totaled \$1,442,911 and \$1,460,563 for the years ended December 31, 2024 and 2023, respectively.
- (2) a. At January 1, 2025, the minimum aggregate rental commitments are as follows:

NOTE 20 Fair Value Measurements

The NAIC SAP defines fair value, establishes a framework for measuring fair value, and outlines the disclosure requirements related to fair value measurements. The fair value hierarchy is as follows:

Level 1 – Certain inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 – Certain inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specific (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets in active markets;
- Quoted prices for identical or similar assets in nonactive markets (few transactions, limited information, noncurrent prices, high variability over time, etc.);
- Inputs other than quoted prices that are observable for the asset (interest rates, yield curves, volatilities, default rates, etc.);
- Inputs that are derived principally from or corroborated by other observable market data.

Level 3 – Certain inputs are unobservable inputs for the asset or liability. Unobservable inputs shall be used to measure fair value to the extent that relevant observable inputs are not available, thereby allowing for situations in which there is little, if any, market activity for the asset or liability at the measurement date.

Bonds and short-term investments are based on quoted market prices, where available.

A. Fair Value Measurements

(1) Fair Value Measurements at Reporting Date: The Plan's assets measured and reported at fair value on a recurring basis are listed in the tables below. The Plan receives monthly statements from investment brokers that provide market pricing. There were no transfers between Level 1 and Level 2 of the fair value hierarchy.

(2) Fair Value Measurements in Level 3 of the Fair Value hierarchy: None.

(3) Policies for Determining when Transfers Between Levels are Recognized: The actual date of the event or change in circumstances that caused the transfer.

NOTES TO FINANCIAL STATEMENTS

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement: Level 2 financial instruments include investments that are traded frequently though not necessarily daily. Fair value for these securities is determined using a market approach based on quoted prices for similar securities in active markets or quoted prices for identical securities in inactive markets.

(5) Derivative assets and liabilities: None.

B. Fair Value Reporting under SSAP No. 100, Fair Value Measurements, and Other Accounting Pronouncements: In addition to the financial instruments listed below, the Plan's statutory basis balance sheets typically include the following financial instruments: investment income due and accrued, federal income tax recoverable (payable), receivables, and current liabilities. The Plan believes the carrying amounts of these financial instruments approximate the fair value of these financial instruments because of the relatively short period of time between the origination of the instruments and their expected realization or payment.

C. Aggregate fair value for all financial instruments and the level within the fair value hierarchy in which the fair value measurements in their entirety fall.

The aggregate fair value hierarchy of all financial instruments as of December 31, 2024 and 2023 are presented in the tables below:

NOTE 21 Other Items

A. Unusual or Infrequent Items: None.

B. Troubled Debt Restructuring: Debtors: None.

C. Other Disclosures

The Consolidated Appropriations Act of 2023 authorized states to resume redeterminations and terminate Medicaid coverage for ineligible enrollees starting on April 1, 2023, irrespective of the status of the Public Health Emergency. Consequently, during the second quarter of 2023, the state began disenrolling members.

Pursuant to the 2023 CMS Medicare Final Rule, which requires MMP plans to end no later than December 2025, the state has filed a transition plan with CMS to move to Dual Eligible Special Needs Plan (D-SNPs) by January 1, 2026. The state has included a plan to transition to Fully Integrated D-SNP (FIDE D-SNP). The economic impact of the transition to D-SNP on the Plan's premium revenue is uncertain

In November 2024, the Plan was awarded a contract to provide benefits to the state's Next Generation MyCare program. The new contract is expected to commence on January 1, 2026 in the 29 counties where MyCare Ohio is currently available, with statewide expansion of the program to follow as quickly as possible.

Stock Plans

Under an equity incentive plan adopted by Molina, the Plan's employees may be awarded Molina restricted stock or other equity incentives. Restricted stock awards generally vest in equal annual installments over periods of up to four years from the date of grant.

Molina has an employee stock purchase plan under which the eligible employees of the Plan may purchase common shares at 85% of the lower of the fair market value of Molina's common stock on either the first or last trading day of each six-month offering period. Each participant is limited to a maximum purchase of \$25,000 (as measured by the fair value of the stock acquired) per year through payroll deductions.

D. Business Interruption Insurance Recoveries: None.

E. State Transferable and Non-transferable Tax Credits: None.

F. Subprime Mortgage Related Risk Exposure: None.

NOTES TO FINANCIAL STATEMENTS

Type II – Nonrecognized Subsequent Events: None.

The Plan evaluated its December 31, 2024 statutory basis financial statements for subsequent events through February 28, 2025, the date the statutory basis financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in these statutory basis financial statements.

NOTE 23 Reinsurance

A. Ceded Reinsurance Report

Section 1 – General Interrogatories

- (1) Are any of the reinsurers, listed in Schedule S as non-affiliated, owned in excess of 10% or controlled, either directly or indirectly, by the company or by any representative, officer, trustee, or director of the company? No.
- (2) Have any policies issued by the company been reinsured with a company chartered in a country other than the United States (excluding U.S. Branches of such companies) that is owned in excess of 10% or controlled directly or indirectly by an insured, a beneficiary, a creditor or any other person not primarily engaged in the insurance business? No.

Section 2 – Ceded Reinsurance Report – Part A

- (1) Does the company have any reinsurance agreements in effect under which the reinsurer may unilaterally cancel any reinsurance for reasons other than for nonpayment of premium or other similar credits? No.
- (2) Does the reporting entity have any reinsurance agreements in effect such that the amount of losses paid or accrued through the statement date may result in a payment to the reinsurer of amounts that, in aggregate and allowing for offset of mutual credits from other reinsurance agreements with the same reinsurer, exceed the total direct premium collected under the reinsured policies? No.

Section 3 – Ceded Reinsurance Report – Part B

- (1) What is the estimated amount of the aggregate reduction in surplus, (for agreements other than those under which the reinsurer may unilaterally cancel for reasons other than for nonpayment of premium or other similar credits that are reflected in Section 2 above) of termination of ALL reinsurance agreements, by either party, as of the date of this statement? Where necessary, the company may consider the current or anticipated experience of the business reinsured in making this estimate. \$0
- (2) Have any new agreements been executed or existing agreements amended, since January 1 of the year of this statement, to include policies or contracts that were in force or which had existing reserves established by the company as of the effective date of the agreement? No.

- B. Uncollectible Reinsurance: None.
- C. Commutation of Reinsurance Reflected in Income and Expenses: None.
- D. Certified Reinsurer Rating Downgraded or Status Subject to Revocation: None.
- E. Reinsurance Credit:

- (2) For 2024 the Plan has a reinsurance agreement with Odyssey Reinsurance Company, a non- affiliated company which provides coverage of 90% of individual claims above deductibles of \$1,000,000 for Medicaid and \$500,000 for Medicare business up to \$2,000,000 per member per agreement period. The reinsurance agreement provides coverage for calendar year 2024.

Reinsurance contracts do not relieve the Plan from its obligations to subscribers. The Plan remains liable to its subscribers for the portion reinsured to the extent that the reinsurance company does not meet the obligations assumed under the reinsurance contract.

Reinsurance expense is reported as a reduction of net premium income and amounted to \$6,428,678 and \$8,909,173 for the years ended December 31, 2024 and 2023, respectively.

NOTE 24 Retrospectively Rated Contracts & Contracts Subject to Redetermination

A.-C. The business of the Plan that is subject to retrospective rating features is as follows:

Medicaid Program

Medical Cost Floors (Medical Loss Ratio, or MLR) and Corridors: For certain Medicaid premiums, amounts may be returned to (ODM), if certain minimum amounts are not spent on defined medical care costs, or the Plan may receive additional premiums if amounts spent on medical care costs exceed a defined maximum threshold.

The Plan had net premiums written of \$2,329,791,647 and \$2,337,198,060 for its Medicaid business for the years ended December 31, 2024 and 2023, representing 73.6% and 77.1% of total net premiums written in 2024 and 2023, respectively.

Medicare Program

Minimum MLR: The Affordable Care Act (ACA) established a minimum annual medical loss ratio (“Minimum MLR”) of 85% for Medicare. The medical loss ratio represents medical costs as a percentage of premium revenue. Federal regulations define what constitutes medical costs and premium revenue. If the Minimum MLR is not met, the Plan may be required to pay rebates to the federal government. The Plan recognizes estimated rebates under the Minimum MLR as an adjustment to net premium income in the statutory basis statements of revenue and expenses.

Risk Adjustment: The Plan’s Medicare revenue is subject to retroactive increase or decrease based on the health status of its Medicare members (as measured by member risk score). The Plan estimates its members’ risk scores and the related amount of Medicare revenue that will ultimately be realized for the periods presented based on its knowledge of its members’ health status, risk scores and CMS practices.

The Plan had net premiums written of \$370,333,287 and \$420,029,476 for its Medicare business for the years ended December 31, 2024 and 2023, representing 11.7% and 13.9% of total net premiums written in 2024 and 2023, respectively.

Marketplace Program

Minimum MLR: The ACA has established a Minimum MLR of 80% for the Marketplace. If the Minimum MLR is not met, the Plan may be required to pay rebates to its Marketplace policyholders. The Marketplace risk adjustment program is taken into consideration when computing the Minimum MLR. The Plan recognizes estimated rebates under the Minimum MLR as an adjustment to net premium income in the statutory basis statements of revenue and expenses.

NOTES TO FINANCIAL STATEMENTS

Risk Adjustment: Under this program, the Plan’s composite risk scores are compared with the overall average risk score for the state and market pool. Generally, the Plan will make a risk adjustment payment into the pool if its composite risk scores are below the average risk score (risk adjustment payable) and will receive a risk adjustment payment from the pool if their composite risk scores are above the average risk score (risk adjustment receivable). Beginning in 2018, the risk adjustment program also includes the Federal high-cost risk pool. The high-cost risk pool provides compensation for high dollar claims. The Plan began serving members through the Marketplace in January 2014. The Plan estimates its ultimate premium based on insurance policy year-to-date experience and recognizes estimated premiums relating to the risk adjustment program as an adjustment to net premium income in the statutory basis statements of revenue and expenses.

The Plan had net premiums written of \$464,519,049 and \$272,842,017 for its Marketplace business for the years ended December 31, 2024 and 2023, representing 14.7% and 9.0% of the total net premiums written in 2024 and 2023, respectively.

Estimated accrued retrospective premiums due from the Plan are recorded in aggregate health policy reserves on Page 3 Line 4 and as an adjustment to change in reserve for rate credits on Page 4 Line 3.

NOTE 25 Change in Incurred Claims and Claim Adjustment Expenses

A. The liabilities for claims unpaid and accrued medical incentive pool and bonus amounts, net of health care receivables and reinsurance recoverables, as of December 31, 2023 were \$181,679,582. As of December 31, 2024, \$199,437,489 has been paid for incurred claims attributable to insured events of prior years. Reserves remaining for prior years, net of health care receivables and reinsurance recoverables, are in a payable position and are now \$19,547,232, as a result of re-estimation of unpaid claims principally on Medicaid, Medicare, and Marketplace lines of business. Therefore, there has been a \$37,305,138 unfavorable prior-year development since December 31, 2023 to December 31, 2024. The unfavorable development is generally the result of ongoing analysis of recent loss development trends primarily due to higher than expected utilization of medical services. Consequently, the ultimate costs recognized in 2024, as claims payments were processed, were higher than the Plan’s original estimates in 2023.

The liabilities for claim adjustment expenses as of December 31, 2023 were \$1,563,052. As of December 31, 2024, the Plan incurred and paid claims adjustment expenses of \$117,721,397 and \$117,719,281, respectively. The liabilities for claims adjustment expenses are now \$1,565,168.

B. Information about Significant Changes in Methodologies and Assumptions: The Plan did not make any significant changes in methodologies and assumptions used in the calculation of the liability for claims unpaid and unpaid claim adjustment expenses in 2024 or 2023.
