NOTES TO FINANCIAL STATEMENTS

NOTE 1 Summary of Significant Accounting Policies and Going Concern
A. Accounting Practices

The financial statements of Westfield Insurance Company (the Company) are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices (SAP) prescribed or permitted by the State of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for determining its solvency under the Ohio Insurance law. The National Association of Insurance Commissioners' (NAIC) Accounting Practices and Procedures Manual (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio.

The Company has not implemented any prescribed or permitted accounting practices by the State of Ohio that differ from those found in NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with SAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Premiums are earned over the terms of the related insurance policies and reinsurance contracts. Unearned premium reserves are established to cover the unexpired portion of premiums written. Such reserves are computed by pro rata methods for direct business and are based on reports received from ceding companies for reinsurance.

Expenses incurred in connection with acquiring new insurance business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are reported in the same manner as similar long-term investments per Statements of Statutory Accounting Principles (SSAP) No.2.
- (2) Bonds not backed by other loans are stated at amortized cost using the scientific interest method per SSAP No.26.
- (3) Common stocks are stated at market per SSAP No. 30, except for investments in stocks of uncombined subsidiaries in which the Company has an interest of 20% or more, which are carried on the equity basis per SSAP No.97.

The outstanding balance and accrued interest at December 31, 2024 and December 31, 2023 was \$62.0 million and \$85.0 million and \$7,612 and \$25,406 respectively. NOTE 20 Fair Value Measurements

A. Fair Value Measurements

For assets that are measured and reported at fair value or net asset value (NAV) in the statement of financial position after initial recognition, the valuation techniques and the inputs used to develop those measurements are as follows:

Level 1 - Values are unadjusted quoted prices for identical assets and liabilities in active markets accessible at the measurement date.

Level 2 - Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Such inputs include market interest rates and volatilities, spreads and yield curves.

Level 3 - Certain inputs are unobservable (supported by little or no market activity) and significant to the fair value measurement. Unobservable inputs reflect the Company's best estimate of what hypothetical market participants would use to determine a transaction price for the asset or liability at the reporting date.

The Company has no liabilities that are measured at fair value in the statement of financial position.

(2) At December 31, 2024, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 3.

(3) The Company's policy for determining when transfers between levels is required is based upon change in the inputs used to determine fair value measurement. If an input changes, the Company evaluates the new input(s) and makes the determination whether or not a transfer between levels is appropriate. If an asset or liability is transferred between levels, it is the Company's policy to record the transfer as of the beginning of the quarter in which the transfer occurs. The Company held no assets or liabilities categorized as Level 1, 2 or 3 during the reporting period that were transferred into or out of the level categorization held at January 1, 2024.

(4) As of December 31, 2024, the Company held money market mutual funds, which were reported at fair value and were classified as Level 2. As of December 31, 2024, the Company held no investments in assets or liabilities measured and reported at fair value that were classified as Level 3. Historically, fair values in the Level 2 category are provided by independent pricing services. Where independent pricing services provide fair values, the Company has obtained an understanding of the methods, models and inputs used in pricing and has controls in place to validate that amounts provided represent current fair values. Estimated fair values of investments categorized as Level 3 generally include inputs for which no readily observable inputs are available and require management judgment.

(5) As of December 31, 2024, the Company had no holdings classified as either a derivative asset or liability.

B. Fair Value Reporting under SSAP 100 and Other Accounting Pronouncements - Not required

C. Fair Value Level

The method(s) and significant assumptions used to estimate the fair value of financial instruments are as follows:

Investment Securities - Fair values for bonds, including the aggregate write-ins for invested assets are based on the values prescribed by an independent pricing service or from brokers. For bonds that are not actively traded, estimated fair values are based on values of bonds of comparable yield and credit quality. The fair values for common stocks are based on quoted market prices, where available, which are provided to the Company by an independent pricing service.

Cash Equivalents - Cash equivalents include money market mutual funds, which are reported at fair value. Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes in value due to change in interest rates.

Receivables for securities and Borrowed money - The carrying amounts reported as admitted assets or liabilities for these financial instruments approximate their fair values due to the short-term nature of these financial instruments. For long term borrowed funds, fair value is determined by termination value.

Other Invested Assets - The estimated fair value of publicly traded limited partnerships and trusts is based on the values prescribed by an independent pricing service.

| Type of Financial Instrument | Aggregate Fair Value | Admitted Assets | (Level 1) | (Level 2) | (Level 3) | Net Asset Value (NAV) | Not Practicable (Carrying Value) |

F. Subprime Mortgage Related Risk Exposure

(1) The subprime lending sector is the sector of the mortgage lending industry which lends to borrowers who do not qualify for prime market interest rates because of poor or insufficient credit history. The term also applies to paper taken on property that cannot be sold on the primary market, including loans on certain types of investment properties and certain types of self-employed individuals.

For purposes of this disclosure, subprime exposure is defined as the potential for financial loss through direct investment, or underwriting risk associated with the risk from the subprime lending sector. This includes any direct risk through investments in debt securities, asset backed or structured securities, hedge funds, subsidiaries and affiliates, and insurance product issuance. The Company views the following features as common characteristics of subprime mortgage loans:

- a. An interest rate above prime to borrowers who do not qualify for prime rate
- b. Borrowers with low credit ratings (FICO scores)
- c. Interest-only or negative amortizing loans
- d. Unconventionally high initial loan-to-value ratios
- e. Low initial payments based on a fixed introductory rate that expires after a short initial period, then adjusts to a variable rate plus a margin for the remaining term of the loan
- f. Borrowers with less than conventional documentation of their home and/or assets
- g. Very high or no limits on how much the payment amount or the interest rate may increase at reset periods, potentially causing a substantial increase in the monthly payment amount
- h. Include substantial prepayment penalties

NOTES TO FINANCIAL STATEMENTS

The Company's strategy to manage or mitigate subprime exposure is to avoid making direct investments in, or insuring any of the sources of risk identified above.

NOTE 25 Change in Incurred Losses and Loss Adjustment Expenses

Reserves as of December 31, 2023 were \$1106.6 million. In calendar year 2024, \$388.6 million has been paid for incurred losses and loss adjustment expenses attributable to insured events of prior years. Reserves remaining for prior years are now \$641.5 million. Therefore, there has been a \$76.5 million favorable prior-year development from December 31, 2023 to December 31, 2024. The favorable development is principally from decreases in the estimates of loss and loss adjustment expenses for the following lines of business: Commercial Multi Peril, Reinsurance A - Property, and Auto Physical Damage. This change is generally the result of ongoing analysis of recent loss development trends. Original estimates are increased or decreased, as additional information becomes known regarding individual claims. The estimates are not affected by prior year loss development on retrospectively rated policies, as the Company does not write this type of policy.

ANNUAL STATEMENT FOR THE YEAR 2024 OF THE Westfield Insurance Company
GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
Reinsurance protection was provided by two agreements: the Multiple Line Excess of Loss with three layers (\$3.5M x \$4M, \$7.5M x \$7.5M and \$10M x \$15M); and the Casualty Clash and Contingency Excess with two layers (\$15M x \$25M and \$30M x \$40M). These two contracts total \$66M above a \$4M retention per occurrence.

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
The modeled all perils probable maximum loss at the 250-year return time is \$566M. This is based on AIR Touchstone v10.0 and includes hurricane, earthquake, and severe convective storm. The locations of concentrations are FL, TX, GA, and NC for hurricane; OH, PA, and MN for severe convective storm; and FL, TX, and CA for earthquake. The reinsurance broker, Aon, models the insured exposures on the Company's behalf.

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The 2024 excess catastrophe program consists of four separate underlying structures as follows: 1) \$225 million excess a \$75 million retention covering the admitted Standard Lines portfolio, 2) \$50 million excess a \$45 million retention covering the non-admitted Specialty Excess & Surplus portfolio, net of a 50% quota share, 3) \$43.75 million excess a \$17.5 million retention covering the non-admitted Specialty Direct & Facultative portfolio, and 4) \$17 million excess a \$20 million retention covering the non-admitted Specialty Real Estate Owned/Flood portfolio. An additional \$70 million in umbrella limit is available to cover the Specialty Excess & Surplus, Specialty Direct & Facultative, and Specialty Real Estate Owned/Flood portfolios. Lastly, an additional \$250 million in limit is available to cover all aforementioned underlying portfolios.

Yes [X] No []

7.2 If yes, indicate the number of reinsurance contracts containing such provisions. 2
