B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policy

Direct, assumed and ceded premiums are earned over the related policies and reinsurance contracts. The portion of premiums written applicable to the unexpired periods of the policies is recorded as unearned premiums. Premiums received in advance of the policies’ effective dates are recorded as advance premiums. Premiums written and not yet collected and agents’ balances are shown as a receivable, with balances older than 90 days non-admitted. The Company regularly evaluates this receivable and establishes valuation allowances, as appropriate, for items less than 90 days.

Expenses incurred in connection with acquiring new business, including such acquisition costs as sales commissions, are charged to operations as incurred. Expenses incurred are reduced for ceding allowances received or receivable. In accordance with paragraph 76 of SSAP 62R - "Property and Casualty Reinsurance", the Company defers ceding commissions which exceed the acquisition costs of the business ceded. The liability for deferred ceding commissions will be amortized over the term of the reinsurance agreement.

In addition, the Company uses the following accounting policies:

- (1) Short-term investments are stated at amortized cost.
- (2) Bonds not backed by other loans are generally valued in accordance with the laws of the State of Ohio or the valuations prescribed by the Securities Valuation Office ("SVO") of the NAIC. Generally, investment grade bonds, defined as bonds with NAIC designation 1 and 2, not backed by other loans are stated at amortized cost using the constant yield method. All other bonds not backed by loans are carried at the lower of amortized cost or fair value. For investments carried at fair value, unrealized gains and losses are excluded from net investment income and are reflected in surplus, net of applicable income taxes.
- (3) The Company does not own any common stock.
- (4) The Company has no preferred stock.
- (5) The Company has no mortgage loans on real estate.
- (6) Loan-backed and structured securities are stated at either amortized cost or the lower of amortized cost or fair value. Mortgage-backed and asset-backed securities are valued using the retrospective adjustment method, except for any such impaired securities which use the prospective method. The Company conducts periodic reviews of the its holdings with unrealized losses in order to evaluate whether an impairment is other-than-temporary. See Note 5D for further details.
- (7) The Company has no investments in subsidiaries.
- (8) The Company has no investments in joint ventures, partnerships, or limited liability companies.
- (9) The Company currently holds no derivative instruments.
- (10) The Company has no exposures that require the use of anticipated investment income as a factor in the premium deficiency calculation.
- (11) Unpaid losses and loss adjustment expenses include an amount determined from individual case estimates and loss reports and an amount, based on past experience, for losses incurred but not reported. Such liabilities are based on assumptions and estimates and, while management believes the amount is adequate, the ultimate liability may be in excess of or less than the amount provided. The methods for making such estimates and for establishing the resulting liability are continually reviewed and any adjustments are reflected in the period determined.
- (12) The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The predefined capitalization thresholds under this policy have not changed from those of the prior year.
- (13) The Company has no pharmaceutical rebate receivables.

D. Loan-Backed Securities

For loan-backed securities that are not deemed to be credit impaired, management performs additional analysis to assess whether it intends to sell or has the intent and ability to retain the investment in the security for a period of time sufficient to recover the amortized cost basis. The Company evaluates its intent and ability on an individual security basis. If management intends to sell or does not have the intent and ability to hold a loan-backed security until such time that it has recovered in value, the security's decline in fair value is deemed to be an other-than-temporary impairment, the security's statement value is reduced to its fair value and a realized capital loss is recorded in earnings.

The paragraphs below describe the Company's process for identifying credit impairment for loan-backed and structured securities.

Structured Securities:

When evaluating whether a residential mortgage-backed security, commercial mortgage-backed security, collateralized debt obligation and other asset-backed securities are other-than-temporarily impaired due to credit, the Company examines characteristics of the underlying collateral, such as delinquency and default rates, the quality of the underlying borrower, the type of collateral in the pool, the vintage year of the collateral, subordination levels within the structure of the collateral pool and the quality of any credit guarantors.

Mortgage-backed Securities:

For mortgage-backed securities ("MBS"), other than Government National Mortgage Association ("GNMA"), which are backed by the full faith and credit of the U.S. Government, and Federal National Mortgage Association/Federal Home Loan Mortgage Corporation ("FNMA/FHLMC"), which are Government Sponsored Enterprises ("GSE"), non-interest related impairment is assessed using a cash flow model that estimates the cash flows on the underlying mortgages. The cash flow model incorporates actual cash flows on the MBS and projects the remaining cash flows using a number of assumptions, including default rates, prepayment rates, and recovery rates.

Management obtains assessments from its affiliated asset manager, which develops specific assumptions using as much market data as possible and includes internal estimates as well as estimates published by rating agencies and other third-party sources. If cash flow projections indicate that the Company does not expect to recover its amortized cost basis, the security is deemed to be other-than-temporarily impaired, the security's statement value is reduced to the present value of cash flow projections and a realized capital loss is recognized for the estimated credit loss in earnings.

Asset-backed Securities:

The analysis management utilizes to assess home equity asset-backed securities includes expected cash flow projections provided by the Company's affiliated asset manager which consider default expectations, expected loss severities and slow down prepayment assumptions. For non-home equity asset-backed securities, reports and analysis are used to determine the expected recovery value for such securities. If cash flow projections indicate that the Company does not expect to recover its amortized cost basis, the security is deemed to be other-than-temporarily impaired, the security's statement value is reduced to the present value of cash flow projections and a realized capital loss is recognized for the estimated credit loss in earnings.

Loan-backed and Structured Securities:

- (1) All prepayment rates as well as corresponding principal prepayment start and end dates are provided by the Company's third-party investment accounting service provider using a proprietary prepayment modeling system.
- (2) The Company had no securities within the scope of SSAP No. 43R – "Loan Backed and Structured Securities", with a recognized other-than-temporary impairment ("OTTI"), disclosed in the aggregate, classified on the basis of a) intent to sell or b) inability or lack of intent to retain the investment in the security for a period of time sufficient to recover the amortized cost basis for the OTTI.
- (3) The Company has no securities with a recognized OTTI due to the present value of cash flows expected to be collected being less than the amortized cost basis.
- (4) Loan-backed and structured securities in unrealized loss positions as of year-end, stratified based on length of time continuously in these unrealized loss positions, are as follows:

|                                                                           |              |
|---------------------------------------------------------------------------|--------------|
| a) The aggregate amount of unrealized losses:                             |              |
| 1. Less than 12 Months                                                    | \$ 2,900     |
| 2. 12 Months or Longer                                                    | \$ 734,766   |
| b) The aggregate related fair value of securities with unrealized losses: |              |
| 1. Less than 12 Months                                                    | \$ 81,188    |
| 2. 12 Months or Longer                                                    | \$ 8,286,763 |

- (5) The Company considers several factors in its assessment of whether loan-backed and structured securities in a gross unrealized loss position are temporarily impaired or should be recognized as an OTTI. Factors considered in determining whether impairments exist include: the financial condition and creditworthiness of the issuer, the length of time that the asset value has been less than amortized cost, and the Company's ability and intent to hold such investments until the amortized cost basis is recovered. If a decline in value is attributable to changes in market interest rates, impairment is deemed other-than-temporary when the Company does not have the intent to hold the investment at the reporting date.

NOTES TO FINANCIAL STATEMENTS

B. Assessments

Insurance enterprises are subject to a variety of assessments. The two general types of assessments the Companies are subject to as a result of participation in state mandated plans include Guaranty Fund Assessments and Other Facility Assessments.

Guaranty Funds: Under state insurance guaranty fund laws, insurers doing business in a state can be assessed, up to prescribed limits, for certain obligations of insolvent insurance companies to policyholders and claimants. Amounts assessed for each company are typically in proportion to the amount of business written in that state.

Other Facility Assessments: Assessments are used to cover deficit operating results of various insurance pools, FAIR plans and joint underwriting associations mandated by various states. A portion of these assessments may be recouped through reinsurance programs, direct charges to the policyholders, or increases in rates approved by the state’s department of insurance. As a result of the Company’s participation in these markets, the Company may be exposed to losses that surpass the capitalization of these facilities and/or assessments from these facilities.

The Company is currently monitoring developments with respect to various state facilities for both guaranty funds and other facility assessments. The Company’s policy is to accrue assessments when an assessment is probable, when they can be reasonably estimated and when the event obligating the entity to pay an imposed or probable assessment has occurred. Liabilities for guaranty funds and other insurance-related assessments are not discounted and are included as part of other liabilities in the exhibit of Liabilities, Surplus and Other Funds. The accrual represents management’s best estimate based on information received from the states in which the Company writes business, direct discussions with involuntary plans and pools, and consideration of other publicly available information including plan financial statements to determine the amount to accrue.

There were no significant accrued liabilities for Other Facility Assessments at March 31, 2024 or December 31, 2023. However, assessments could result from the recognition of a financial deficit greater than the level currently estimated by the states’ facilities. The facilities may, in turn, assess participating insurers when financial deficits or insolvencies occur, which could result in additional assessments to the Company.

The Company also participates in various state mandated FAIR plans and underwriting pools. In certain cases, where the state insurance code supports the application of SSAP 63 Underwriting Pools, results are accounted for on a gross basis whereby the Company’s portion of premium, losses, expenses and other operations of the pools are recorded separately in the financial statements. It is reasonably possible that a loss or an additional loss may have been incurred which may result in the adjustment of these items. However, at this time the Company is unable to estimate the possible amounts and the corresponding impact on the financial statements.

At the end of each reporting period, the Company evaluates whether any event has occurred or circumstances have changed which would cause an instrument to be transferred between Levels 1 and 2. This policy also applies to transfers into or out of Level 3 as stated in paragraph 3 below.

During the current reporting period there were no transfers among Levels 1, 2 and 3.

- (2) Fair Value Measurements in (Level 3) of the Fair Value hierarchy  
Not Applicable.

- (3) Policy on transfers into and out of Level 3  
There were no transfers between Levels during the period ended March 31, 2024.

- (4) Valuation techniques and inputs used in fair value measurement

The inputs and valuation techniques used by the Company to measure fair value utilize a price source hierarchy to select which price source it will use in order to determine the fair value. The hierarchy prioritizes pricing sources based on the source's expertise, reliability and availability. Priority is given to established pricing services ahead of broker-dealer price sources. The highest level price source available in the hierarchy is used to measure fair value. The majority of the Company's selected price sources are vendors.

The Company relies on its third-party investment accounting provider to analyze prices received from pricing services and broker-dealers to ensure they represent a reasonable estimate of fair value. The Company performs additional analyses to gain assurance on the overall reasonableness of inputs and valuation methodologies used by those sources. These analyses include an annual review of the respective pricing services methodologies and processes, including quarterly comparison of market prices to prices obtained from different independent pricing sources.
