Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

Grange Insurance Company (the “Company”) prepares its statutory financial statements in conformity with accounting practices prescribed or permitted by The Ohio Department of Insurance (the “Department”). The Department requires that insurance companies domiciled in the State of Ohio prepare their statutory basis financial statements in accordance with the National Association of Insurance Commissioners (“NAIC”) Accounting Practices and Procedures Manual (“NAIC SAP”) subject to any deviations prescribed or permitted by the Department. The Company does not employ accounting practices that depart from the NAIC SAP.

A reconciliation of the Company’s net income and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below; the reconciliation illustrates that the permitted practice described above has no impact on either net income or surplus:

- (3) The Company’s policy is to recognize transfers in and out as of the end of the reporting period.
- (4) As of the end of the period, the reported fair value of the entity’s investments categorized within Level 2 and Level 3 of the fair value hierarchy are as follows:

Bonds – According to statutory accounting rules, fixed-income securities with a rating of NAIC 1 or 2 are reported at amortized cost. Securities with a rating of NAIC 3 thru 6, or non-investment grade ratings, are measured and reported at the lower of amortized cost or fair value on the statement of financial position. At the end of every quarter and at year end, the Company utilizes fair values provided by its custodian. Fair value is determined by evaluations that are based on observable market information rather than market quotes. Inputs to the evaluations include, but are not limited to, market prices from recently completed transactions and transactions of comparable securities, credit spreads, interest rate yield curves, and other market-observable information. Thus, any fixed-income securities measured and reported at fair value are included in the amounts disclosed above as Level 2 in the hierarchy.

Common Stocks, Industrial & Misc. – According to statutory accounting rules, common stocks are reported at fair value. The Company holds two positions not actively traded. One represents membership in the National Association of Mutual Insurance Company and is valued by the SVO. The other represents membership with FHLB of Cincinnati. Therefore, these securities are included in level 2.

Parent, Subsidiaries, and Affiliates – The Company’s investments in four subsidiaries are measured and reported at fair value as of the end of the period, for each respective entity totaling\$252.3million. Fair value measurement is determined by the individual entity’s surplus at the end of a period, or the amount by which assets exceed liabilities. All subsidiaries are in the insurance industry, whereby its assets are largely comprised of fixed income securities carried at amortized cost and its liabilities represent payables related to current federal income taxes and deferred taxes. Some inputs to the valuation methodology are unobservable and significant to the fair value measurement and result in disclosure at Level 3.

E. Nature and Risk of Investments Reported at NAV

Mutual Funds

- Columbia Pyrford International Stock Fund (\$47.4 million)** – In Q4 2021, Columbia Threadneedle Investments completed its acquisition of BMO's EMEA asset management business announced in April 2021. As a result, the BMO Pyrford International Stock Fund is now the Columbia Pyrford International Stock Fund. No changes to the portfolio management team occurred as a result of the acquisition. The fund seeks capital appreciation by investing in equity securities of companies located in a number of countries outside the United States. The fund may meet redemption requests by redeeming shares in-kind, especially in stressed market conditions, although the fund does not intend to do so.
- DFA International Core Equity Portfolio (\$50.7 million)** – The portfolio purchases a broad and diverse group of securities of non-U.S. companies in developed markets. The portfolio invests in companies of all sizes, with increased exposure to smaller capitalization, lower relative price, and higher profitability companies as compared to their representation in the international universe. The portfolio reserves the right to meet redemption requests through an in-kind redemption, typically in response to a particularly large redemption, at the request of a client or in stressed market conditions.
- MFS Emerging Markets Debt Fund (\$78.0 million)** – The fund invests primarily in debt securities issued or guaranteed by companies, financial institutions and government entities in emerging market countries. The fund reserves the right to make a "redemption in kind" (payment in portfolio securities) rather than cash if the amount redeemed in any 90-day period is large enough to effect fund operations.
- Transamerica International Equity Fund (\$49.9 million)** – The fund seeks maximum long-term total return, consistent with reasonable risk to principal, by investing in a diversified portfolio of common stocks of primarily non-U.S. issuers. Shares will normally be redeemed for cash, although each fund retains the right to wholly or partly redeem its shares in kind, under unusual circumstances (such as adverse or unstable market, economic, or political conditions), in an effort to protect the interests of shareholders by the delivery of securities selected from its assets at its discretion.
- TCW Emerging Markets Debt Fund (\$5.3 million)** – The fund invests primarily in debt securities issued or guaranteed by companies, financial institutions and government entities in emerging market countries. The fund reserves the right to make a "redemption in kind" (payment in portfolio securities) rather than cash if the amount redeemed in any 90-day period is large enough to effect fund operations.

Other Invested Assets

- Eaton Vance Institutional Senior Loans Fund (\$99.8 million)** – The Fund's investment objective is to provide as high a level of current income as is consistent with the preservation of capital, by investing in a portfolio primarily of senior floating-rate loans. The Company does not have any unfunded commitments as of the end of the period. Redemption requests must be for amounts of \$100,000 or more. Upon commencement of redemption privileges, a Shareholder may redeem its Shares upon advance written notice to the Fund pursuant to the following schedule: for amounts up to one-third of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than thirty (30) days after the Fund receives the redemption request (the "Notice Date"); for amounts up to two-thirds of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than sixty (60) days after the Notice Date; and for amounts greater than two-thirds of a Shareholder's account, Shares of an equivalent amount in value will be redeemed and the redemption proceeds resulting therefrom will be paid no later than ninety (90) days after the Notice Date. For the avoidance of doubt, a Notice Date must be a day on which the NYSE is open for trading. Notwithstanding the foregoing, if cash is available to pay redemption requests sooner than hereinbefore provided, the Fund may do so to remain more fully invested. Redemption proceeds will equal the net asset value of Shares redeemed on the date of redemption and will be paid by wire.
- Adams Street Senior Private Credit Fund II, LP (\$46.6 million)** – The Partnership's objective is to invest primarily in directly originated first lien, privately negotiated debt of private equity-backed middle-market companies. The Partnership seeks to generate current income with attractive risk-adjusted returns and strong downside protection focusing primarily across regions in North America and, to a lesser extent, parts of Europe. The Company has committed \$60.0 million to the partnership and has unfunded commitments as of the end of the period, totaling \$14.5 million. The Company agrees to pay the balance of its remaining commitment when capital is called by the Partnership. Distributions shall be apportioned among the Partners in proportion to their capital contribution. The term of the Partnership is 6 years from its final closing, subject to two consecutive additional one-year extensions by the General Partner. The Partnership will allocate its available capital over a three-year period from the initial capital call.
- Commonfund Capital Global Private Equity Partners III, LP (\$18.4 million)** – The Partnership's objective is to offer investors a multi-manager, multi-strategy fund focused primarily on investing in global private equity. The fund serves as a complete global private equity investment program that enables investors to make one commitment to gain exposure to private equity opportunities in the U.S., Europe and other developed markets and in select emerging markets through a single partnership. The Company has committed \$20.0 million to the partnership and has unfunded commitments as of the end of the period, totaling \$6.0 million. The Company agrees to pay the balance of its remaining commitment when capital is called by the Partnership. Distributions shall be apportioned among the Partners in proportion to their capital contribution. The term of the Partnership will end 12 years from its initial closing, unless extended, not more than once, by the General Partner for a period not exceeding three years. The Partnership will allocate its available capital over a two-year period from the initial capital call.
- Mesirow Financial Private Equity Fund VI, LP (\$5.9 million)** – The primary objective of Fund VIII-A is to generate attractive absolute returns for its investors that exceed the relevant private equity industry and public benchmarks and are commensurate with asset class risk. Mesirow Financial Private Equity will seek to achieve this objective by assembling a diversified portfolio of primary partnership commitments, secondary investments and co-investments. By investing in private investment funds of highly sought-after managers and co-investing directly in companies alongside those managers, Mesirow Financial Private Equity will seek to produce consistently strong investment performance with low loss rates on invested capital. The Company has committed \$10.0 million to the partnership and has unfunded commitments as of the end of the period, totaling \$4.3 million. The Company agrees to pay the balance of its remaining commitment when capital is called by the Partnership. Distributions shall be apportioned among the Partners in proportion to their capital contribution. The term of the Partnership will end 12 years from its initial closing, with the potential for three one-year extensions.
