Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The statutory Financial statements of OhioHealthy Insurance Company have been prepared on the statutory basis of accounting, in accordance with the accounting practices adopted by the National Association of Insurance Commissioners (NAIC) codification project (Codification), as prescribed or permitted by the Ohio Department of Insurance (DOI). These practices differ in some respects from U.S. generally accepted accounting principles (GAAP).

For statutory purposes, certain assets are accorded no value and thus reduce statutory capital and surplus. Also, short term investments and bonds are recorded at amortized cost for statutory purposes which differ from GAAP whereby short-term investments and bonds may be recorded at fair value. The presentation of the direct method statutory statement of cash flows under Codification is different from what would be presented under GAAP for cash flows from investing and financing activities.

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates

C. Accounting Policy
