NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern

a. Accounting Practices

The accompanying statutory financial statements of Radian Title Insurance Inc (“RTI”, “Radian Title” or “Company”) have been prepared in conformity with the National Association of Insurance Commissioners’ (“NAIC”) *Accounting Practices and Procedures* manual (“NAIC SAP”), the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the State of Ohio – Ohio Department of Insurance (“ODI”). Radian Title has adopted certain prescribed accounting practices that differ from those found in the NAIC SAP. Specifically, SSAP No. 57, “*Title Insurance*” and the timing of amounts released from the statutory premium reserve. The Company’s accounting practice differs from NAIC SAP resulting in total statutory capital and surplus that was lower by \$2,778,465 and \$2,500,721 at June 30, 2024 and December 31, 2023, respectively, than if reported in accordance with NAIC SAP.

b. Use of estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with NAIC SAP, the NAIC Annual Statement Instructions, and other accounting practices as prescribed or permitted by the ODI requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

c. Accounting Policies

Cash and Short-Term Investments

The Company considers all highly liquid securities with original maturities of twelve months or less when purchased to be cash, cash equivalents and short-term investments. Short-term investments include securities with original maturities of greater than 90 days and twelve months or less. Cash and cash equivalents include money market instruments and highly liquid securities with original maturities of 90 days or less when purchased.

Bonds

Bonds are stated at amortized cost or at values prescribed by the NAIC, and any discounts or premiums are amortized using the scientific (constant yield) interest method. Bonds that are designated highest quality and high-quality (NAIC designations 1 and 2, respectively) are reported at amortized cost and all other bonds (NAIC designations 3 to 6) shall be reported at lower of amortized cost or fair value. For loan- and asset-backed securities, the impacts of changes in expected cash flows, including the effect of updated prepayment assumptions, are recognized using the retrospective adjustment method. Under the retrospective method, the recalculated effective yield will equate the present value of the actual and anticipated cash flows with the original cost of the investment. The current balance is then increased or decreased to the amount that would have resulted had the revised yield been applied since inception, and investment income is correspondingly decreased or increased. Prepayment assumptions are reviewed quarterly using industry data and are based on prepayment rates of the underlying loans.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern (continued)

Interest is recognized on the accrual basis. Realized capital gains and losses are calculated using the specific cost of the investments sold.

The Company conducts a quarterly evaluation of declines in market value of the securities to determine whether the decline is other-than-temporary. If the market value of a security is below the cost basis, and it is judged to be other-than-temporary, the cost basis of the individual security is written down to market value through earnings as a realized loss, and the market value becomes the new basis. The Company's evaluation of market declines for other-than-temporary impairment is based on management's case-by case evaluation of the underlying reasons for the decline in market value. The Company considers a wide range of factors about the security and uses its best judgment in evaluating the cause of the decline in the estimated market value of the security and in assessing the prospects for near-term recovery. Inherent in management's evaluation of the security are assumptions and estimates about the operations of the issuer and its future earnings potential. Considerations used by the Company in the impairment evaluation process include, but are not limited to: (i) the length of time and the extent to which the market value has been below cost or amortized cost; (ii) the potential for impairments of securities when the issuer is experiencing significant financial difficulties; (iii) the potential for impairments in an entire industry sector or sub-sector; (iv) the potential for impairments in certain economically depressed geographic locations; (v) the potential for impairments of securities where the issuer, series of issuers or industry has suffered a catastrophic type of loss or has exhausted natural resources; (vi) the Company's ability and intent to hold the security for a period of time sufficient to allow for the full recovery of its value to an amount equal to or greater than cost or amortized cost; and (vii) other subjective factors, including concentrations and information obtained from regulators and rating agencies. Taxes owed on realized gains for June 30, 2024 and December 31, 2023 were \$4,143 and \$8,715, respectively. Unrealized gains and losses are recorded as increases or decreases, respectively, in unassigned surplus.

Title Plants

Title Plants consist of title records related to regions and are stated at cost. Expenses associated with current maintenance are charged to expense in the year incurred. Properly maintained title plants are not amortized because there is no indication of diminution in their value. The Company reviews title plants for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of June 30, 2024 and December 31, 2023, there was no impairment for Title Plants.

Electronic Data Processing Equipment and Software

Electronic data processing ("EDP") equipment and software are recorded at cost and depreciated using straight-line method over the estimated useful life. As of June 30, 2024 and December 31, 2023, all of the Company's EDP assets were reported as admitted assets. The Company reviews EDP equipment for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable. As of June 30, 2024 and December 31, 2023, there was no impairment for EDP equipment.

Revenue and Expense Recognition

Premiums on title insurance policies issued by the Company, directly and through independent agents, are recognized as revenue when the Company is legally or contractually entitled to collect the premium. Premiums from title policies issued by the Company through independent agents are recognized and are recorded before the deduction of agent commissions and net of ceded premiums and changes in statutory premium reserves. Premium related expenses, including commissions and premium related taxes/assessments are charged to operations, as incurred.

On March 26, 2018, the Company entered into an Agency Agreement and has appointed Radian Settlement Services ("RSS") as an agent. RSS is an affiliate of the Company and a wholly owned subsidiary of Radian Title Services Inc., an ultimate subsidiary of Radian Group Inc. ("RGI"). RSS is authorized to issue commitments, policies, judicial reports, endorsements and other forms of title evidence authorized by the Company, collectively "Title Assurances", on real estate located in 32 states and the District of Columbia. The Agency Agreement identifies Agent's commission for each state ranging from 60% to 85%, with the majority of the commissions being at the 80% rate.

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies and Going Concern (continued)

On June 22, 2018, the Company entered into dual Master Services Agreements ("MSAs") with RSS. The Company will provide title search and underwriting services to RSS and receive support and facilitation services on title insurance policies from RSS. Fees for services are based upon approved pricing and can be changed upon mutual consent of the parties and approval from ODI. The MSAs may be terminated without cause upon seven days written notice.

The Company also provides escrow and settlement services related to residential purchase, sale, or refinancing transactions for which it is paid a fee. Revenues for such services are recognized upon settlement. In certain states where the Company operates, escrow and settlement service fees are prohibited from being collected and the cost of these services is part of an "All-Inclusive Premium."

For premiums written in Ohio, Ohio insurance law requires the Company to establish a statutory premium reserve equal to 10% of the premium retained by the Company for that year. At the end of that year and each succeeding year, the Company may release an amount equal to 0.5% of the original premium until the total amount of the reserve for that year has been withdrawn. For all other states where the Company writes insurance, the Company follows the various state insurance department regulations when determining what statutory premium reserves are established.

Losses and Loss Adjustment Expenses

Generally, title insurance claim rates are lower than for other types of insurance because title insurance policies typically insure against prior events affecting the quality of real estate titles, rather than against unforeseen, and therefore less avoidable, future events. Claims payments generally result from either judgment errors or mistakes made in the title search and examination process or the escrow process, or from other problems such as fraud or incapacity of persons transferring property rights.

When a claim is reported, the Company establishes a "Known Claims" reserve on a case-by-case basis, based upon the best estimate of the total amount necessary to settle the claim and to provide for allocated loss adjustment expenses ("LAE"), including legal defense costs. The estimates are based on all information known to the Company and include consideration of all known legal issues. These reserves are periodically adjusted by management based on its evaluation of subsequent developments regarding the reported claim. Adjustments to these estimates are reported in current operations. Claims and expenses paid are charged against this reserve. While management believes the amount recorded is reasonable and adequate, the ultimate losses may vary from the estimated amount included in the statutory financial statements.

Income Taxes

Current income tax expense is reflected on the statement of operations while changes in Deferred tax assets ("DTA") and Deferred tax liabilities ("DTL") are recorded directly to statutory surplus. The Company has a tax sharing allocation agreement with RGI for the years 2024 and 2023 for which the Companies file a consolidated federal income tax return. The agreement states that tax charges or refunds shall be recorded as if the Company had filed its federal income tax returns on a separate return basis. The Company pays premium taxes on gross premiums written in lieu of most state income or franchise taxes.

As of June 30, 2024 and December 31, 2023, the Company has not recognized a tax liability for uncertain tax positions.

2. Securities with a Recognized Other-than-Temporary-Impairment - None
3. Information Pertaining to Each Security with a Recognized Other-than-Temporary-Impairment - None
4. All impaired securities (fair value is less than amortized cost) for which other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):
 - a. The aggregate amount of unrealized losses:

1.	Less than 12 months	\$ 1,468
2.	12 Months or Longer	<u><u>\$ 104,034</u></u>
 - b. The aggregate related fair value of securities with unrealized losses:

1.	Less than 12 months	\$ 1,514,529
2.	12 Months or Longer	<u><u>\$ 1,121,461</u></u>

5. In evaluating whether a decline in value is other-than-temporary, the Company considers several factors, including, but not limited to the following:

- the extent and the duration of the decline in value;
- the reasons for the decline in value (credit event, interest related or market fluctuations);
- the financial position and access to capital of the issuer, including the current and future impact of any specific events;
- our intent to sell the security, or whether it is more likely than not that the Company will be required to sell it before recovery; and
- the financial condition of and near-term prospects of the issuer.

A debt security impairment is deemed other-than-temporary if:

- The Company either intends to sell the security, or does not have the ability to retain the security for a period of time sufficient to recover the amortized cost basis; or
- The Company will be unable to collect cash flows sufficient to recover the amortized cost basis of the security.

Impairments due to deterioration in credit that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security are considered other-than-temporary. Other declines in fair value (for example, due to interest rate changes, sector credit rating changes or the Company-specific rating changes) that result in a conclusion that the present value of cash flows expected to be collected will not be sufficient to recover the amortized cost basis of the security may also result in a conclusion that other-than-temporary impairment has occurred. To the extent the Company determines that a security is deemed to be other-than-temporarily impaired, an impairment loss is recognized.

7. Investment Income

Investment income is recorded on the accrual basis of accounting with the appropriate adjustments made for amortization of premium and accretion of discounts relating to bonds and notes acquired at other than par value. Dividends on stocks are credited to income on the ex-dividend date. Realized gains or losses on disposition of securities owned are determined on a specific identification basis and are reflected in the statement of income. Unrealized investment gains or losses are credited or charged directly to unassigned surplus net of allowed deferred income taxes. At June 30, 2024, the Company had no bonds or note investments in default as to principal and/or interest. Excluding U.S. Government fixed maturity securities; the Company is not exposed to any significant concentration of credit risk.

- a. At June 30, 2024, the Company has 800 shares of common stock authorized, and 400 shares outstanding with a par value of \$5,000.
- b. The Company has no preferred stock outstanding.
- c. Under Ohio's insurance laws, dividends and other distributions may only be paid out of an insurer's positive unassigned surplus, measured as of the end of the prior fiscal year, unless the ODI approves the payment of dividends or other distributions from another source. While all proposed dividends and distributions to stockholders must be filed with the ODI prior to payment, if an Ohio domiciled insurer had positive unassigned surplus as of the end of the prior fiscal year, then unless the prior approval of the ODI is obtained, such insurer could only pay dividends or other distributions during any 12-month period in an aggregate amount less than or equal to the greater of: (i) 10% of the preceding year-end statutory policyholders' surplus; or (ii) the preceding year's statutory net income. The Company had negative unassigned surplus at December 31, 2023 of \$9.3 million,

- d. Uncollected Reinsurance – None
- e. Commutation of Ceded Reinsurance – None
- f. Retroactive Reinsurance

On March 27, 2018, the Company entered into a Loss Portfolio Transfer Reinsurance Agreement, with a former affiliate, PartnerRe Europe SE, in which all policies issued by the Company as of the effective date, subject to certain limitations, became 100% reinsured for consideration paid by the Company of \$4,231,821. The reinsurance agreement was classified as retroactive reinsurance and a contra liability reserve ("Reserve for Retroactive Reinsurance") was established equal to the total of the Statutory premium reserve ("SPR") and Known Claims Reserves of \$6,297,622 which represented the Company's liabilities for the reinsured policies as of the effective date of the agreement. The difference in the liability transferred and the consideration paid of \$2,065,801, was recorded as a gain from retroactive reinsurance on the statement of operations and the amount was transferred from unassigned deficit and restricted as Special surplus funds.

The Reserve for Retroactive Reinsurance is reduced for covered claims payments made by the Company as well as adjustments for changes in reserve estimates and SPR withdrawals. As of June 30, 2024, changes to the Retroactive Reinsurance Reserve included \$70,255 of ceded paid claims, SPR withdrawals of \$228,409 and additional incurred losses of \$1,211,255. Other assets include \$32,023 of paid losses that are expected to be reimbursed to the Company in accordance with the agreement. The Special surplus funds will be transferred into unassigned deficit when the actual retroactive reinsurance recovered exceeds the consideration paid.
