Notes to the Financial Statements

1. Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying financial statements of Stonewood Insurance Company ("the Company") are presented on the basis of accounting practices prescribed or permitted by the Ohio Department of Insurance.

The Ohio Department of Insurance recognizes only statutory accounting practices prescribed or permitted by the state of Ohio for determining and reporting the financial condition and results of operations of an insurance company, for purposes of determining its solvency under the Ohio Insurance Law. The National Association of Insurance Commissioners ("NAIC") *Accounting Practices and Procedures Manual* has been adopted as a component of prescribed or permitted practices by the state of Ohio.

The accompanying financial statements contain no differences as a result of practices prescribed or permitted by Ohio that differ from the NAIC's *Accounting Practices and Procedures Manual* as noted in the table below:

C. Accounting Policy

(2) Basis for Bonds, Mandatory Convertible Securities, SVO-Identified Investments and Amortization Method

Investment-grade non-loan-backed bonds are stated at amortized cost using the interest method. Non-investment-grade non-loan-backed bonds are stated at the lower of amortized cost or fair value. The Company does not have any investments in mandatory convertible securities or SVO-Identified investments.

(6) Basis for Loan-Backed Securities and Adjustment Methodology

Loan-backed securities are stated at either amortized cost using the interest method, or the lower of amortized cost or fair value. The retrospective adjustment method is used to value all securities except for interest-only securities or securities where the yield has become negative, which are valued using the prospective method.

D. Going Concern

Based upon its evaluation of relevant conditions and events, management does not have substantial doubt about the Company's ability to continue as a going concern.

2. Accounting Changes and Corrections of Errors - No Significant Changes

3. Business Combinations and Goodwill - Not Applicable

4. Discontinued Operations - Not Applicable

5. Investments

D. Loan-Backed Securities

(1) Description of Sources Used to Determined Prepayment Assumptions

For fixed rate agency mortgage-backed securities, prepayment speeds are calculated utilizing Mortgage Industry Advisory Corporation (MIAC) Mortgage Industry Medians (MIMs). MIMs are derived from a semi-monthly dealer consensus survey of long-term prepayment projections.

For other mortgage-backed, loan-backed and structured securities, prepayment assumptions are obtained from Moody's Analytics. Moody's applies a flat economic credit model and utilizes a vector of multiple monthly speeds as opposed to a single speed for more robust projections. If Moody's projections are not available, data is obtained from Reuters, which utilizes the median prepayment speed from contributors' models. Prepayment assumptions for fixed rate agency mortgage-backed securities were generated using the prepayment speeds.

(2) Loan-backed and structured securities with a recognized other-than-temporary impairment (OTTI) - Not Applicable

(3) Securities held that were other-than-temporarily impaired due to the present value of cash flows expected to be collected was less than the amortized cost of securities - Not Applicable

Notes to the Financial Statements

5. Investments (Continued)

(4) All impaired securities for which an OTTI has not been recognized in earnings as a realized loss

a. The aggregate amount of unrealized losses:	
1. Less than 12 months	\$ 19,745
2. 12 months or longer	730,139
b. The aggregate related fair value of securities with unrealized losses:	
1. Less than 12 months	\$ 8,071,584
2. 12 months or longer	9,083,730

(5) Information Investor Considered in Reaching Conclusion that Impairments are Not Other-Than-Temporary

The Company’s management regularly reviews the value of investments. If the value of an investment falls below its cost basis, the decline is analyzed to determine whether it is an other-than-temporary decline in value. To make this determination, the following are considered:

- (a) How long and by how much the fair value has been below its cost;
- (b) The financial condition and near-term prospects of the issuer of the security, including any specific events that may affect its operations;
- (c) Management’s intent to hold the security long enough for it to recover its value;
- (d) Any downgrades of the security by a rating agency; and
- (e) Any nonpayment of scheduled interest payments.

Based on that analysis, management makes a judgment as to whether the loss is other-than-temporary. If the loss is other-than-temporary, the impairment is recognized as a realized capital loss in the Statement of Income in the period the determination is made.

20. Fair Value Measurements

- A. Fair Value Measurement

For statutory accounting, certain investments are carried at fair value, while others may periodically be carried at fair value based on certain factors such as the NAIC’s lower of cost or market rule or an impairment. Assets recorded at fair value are categorized based on an evaluation of the various inputs used to measure the fair value.

Three levels of inputs are used to measure fair value:

- Level 1: Quoted prices in active markets for identical assets,

Notes to the Financial Statements

20. Fair Value Measurements (Continued)

- Level 2: Indirect observable inputs, including prices for similar assets and market corroborated inputs, and
- Level 3: Unobservable inputs reflecting assumptions that market participants would use, including assumptions about risk.

Supporting documentation received from pricing vendors detailing the inputs, models and processes used in the vendor's evaluation process is used to determine the appropriate fair value hierarchy. Documentation from each pricing vendor is reviewed and monitored periodically to ensure they are consistent with pricing policy procedures. Market information obtained from brokers with respect to security valuations is also considered in the pricing hierarchy.

(2) Fair value measurements in Level 3 of the fair value hierarchy - Not Applicable

(3) Policies when Transfers Between Levels are Recognized

Transfers in and out of Level 3 are recognized based on the beginning of the reporting period.

(4) Description of Valuation Techniques and Inputs Used in Fair Value Measurement

Fair value measurements for fixed income and equity securities are based on values published by independent pricing services such as Refinitiv and IHS Markit. These sources have been evaluated and approved by the investment manager's pricing policy committee. Under certain circumstances, if a vendor price is not available, a price may be obtained from a broker. Short-term securities are valued at amortized cost. Cash Equivalents, excluding money market mutual funds, are valued at amortized cost. Money market mutual funds are valued using a stable Net Asset Value (NAV) of one dollar per share.

Generally, independent pricing service vendors use a pricing methodology involving the market approach, including pricing models, which use prices and relevant market information regarding a particular security or securities with similar characteristics to establish a valuation.

Investments for which external sources are not available or are determined by the investment manager not to be representative of fair value are recorded at fair value as determined by the investment manager. In determining the fair value of such investments, the investment manager considers one or more of the following factors: type of security held, convertibility or exchangeability of the security, redeemability of the security (including timing of such redemptions), application of industry accepted valuation models, recent trading activity, liquidity, estimates of liquidation value, purchase cost, and prices received for securities with similar terms of the same issuer or similar issuers. As of September 30, 2024, there were no investments for which external sources were unavailable to determine fair value.

The Company does not have any Level 3 assets.

C. Fair Values for All Financial Instruments by Level 1, 2 and 3

The table below reflects the fair values and admitted values of all admitted assets and liabilities that are financial instruments excluding those accounted for under the equity method (subsidiaries). The fair values are also categorized into the three-level fair value hierarchy as described above in Note 20A.

21. Other Items

A. Unusual or Infrequent Items

On November 8, 2023, the Company's ultimate parent James River Group Holdings, LTD. ("JRGH") entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") with Fleming Intermediate Holdings LLC, a Cayman Islands limited liability company (the "Buyer"). Pursuant to the Stock Purchase Agreement, and on the terms and subject to the conditions therein, the Buyer agreed to purchase from JRGH all of the common shares of JRG Re, the Company's sister company (the "Transaction"). The Transaction, which closed on April 16, 2024, resulted in the JRGH's disposition of its casualty reinsurance business and related assets.

Notes to the Financial Statements

22. Events Subsequent

On November 10, 2023, the Company’s ultimate parent James River Group Holdings, LTD. (“JRGH”) announced that its Board of Directors has initiated an exploration of strategic alternatives. As part of this process, the Board considered a wide range of options for JRGH including, among other things, a potential sale, merger, or other strategic transaction. As of November 11, 2024, the Board of Directors has concluded the strategic review process and has entered into a strategic partnership with Enstar Group Limited (“Enstar”). This partnership includes an agreement for Enstar to purchase \$12.5 million of newly issued common shares, executing an adverse development cover (“ADC”) agreement with James River Insurance Company and James River Casualty Company for a limit of \$75 million, and having an ongoing informal consulting relationship and best practices dialogue with Enstar leadership across a myriad of industry topics.

The executed ADC agreement with Enstar, through their subsidiary Cavello Bay Reinsurance Limited (“Cavello Bay”), is effective January 1, 2024 and will cover accident years 2010 through 2023 for the Company’s E&S segment net reserves and is placed at 100%. This transaction provides an additional \$75 million in adverse development coverage on top of the existing LPT-ADC agreement described in Note 23. It excludes exposure to property and the commercial auto segment already included in a previously executed loss portfolio transfer described in Note 23. The transaction is subject to closing conditions, including receipt by Cavello Bay of regulatory approval of the ADC. The transaction is expected to be reflected in the results for the fourth quarter of 2024 if regulatory approvals are received as expected.

There were no subsequent events occurring through November 11, 2024 that merited recognition or disclosure in these statements.

23. Reinsurance

F. Retroactive Reinsurance

- (1) Retroactive reinsurance agreements that transfer liabilities for losses that have already occurred and that will generate special surplus transactions

The Company is a party to an intercompany pooling agreement (“the Pool”) (see note 26 of Annual Statement). Two of the pooling participants, James River Insurance Company and James River Casualty Company, collectively (“the Ceding Companies”), have entered into two Loss Portfolio Transfer agreements (“LPTs”) that are accounted for as retroactive reinsurance.

1) **LPT – Aleka:** The Ceding Companies entered into a loss portfolio transfer (“LPT”) reinsurance transaction with Aleka Insurance, Inc. (“Aleka”), a wholly-owned captive insurer of Uber Technologies, Inc. (“Uber”), under which Aleka reinsures substantially all of the Company’s legacy portfolio of commercial auto policies related to Uber’s ridesharing business on September 27, 2021. The coverage provided by Aleka is fully collateralized and not subject to an aggregate limit.

2) **LPT – ADC:** On July 2, 2024, the Ceding Companies entered into a Combined Loss Portfolio Transfer and Adverse Development Cover Reinsurance Contract (the “LPT-ADC Agreement”) with State National Insurance Company, Inc. (“State National”). The transaction closed upon signing and is reflected in the results for the third quarter of 2024. The LPT-ADC Agreement is effective January 1, 2024 (the “Effective Date”) and applies to the Ceding Companies’ losses attaching to premium earned during 2010-2023 (both years inclusive), excluding, among others, losses related to property lines of business and commercial auto policies issued to a former large insured or its affiliates (the “Subject Business”). Pursuant to the LPT-ADC Agreement, (a) State National reinsured 85% of losses paid on and after the Effective Date in respect of the Subject Business in excess of \$716.6 million up to an aggregate limit of \$467.1 million (with State National’s share of the aggregate limit being \$397.0 million) in exchange for consideration paid by the Ceding Companies equal to \$313.2 million, (b) the Ceding Companies will continue to manage claims and to manage and collect the benefit of other existing third-party reinsurance on the Subject Business, which third-party reinsurance shall inure to the benefit of the LPT-ADC Agreement.

The LPTs are considered retroactive reinsurance contracts. The Loss and LAE reserves ceded under the LPTs are reflected as a contra-liability “Retroactive Reinsurance Reserve Ceded” within Aggregate Write-Ins for Liabilities. When the cumulative loss and LAE ceded under each of the LPTs exceed the consideration paid, the resulting gains are reflected as an Aggregate Write-In for Special Surplus Funds.

Development on the Ceding Companies’ business subject to the LPTs is ceded to the Pool. Any gain on the LPTs related to development is shared by the pooling participants at their respective pooling percentages. Each company’s share of the gain on LPTs is immediately settled through recoveries on paid losses.

Any balance in the Aggregate Write-In for Special Surplus Funds resulting from a gain on the LPTs is transferred to Unassigned Funds to the extent the retroactive reinsurance recovered exceeds the initial consideration paid under the contracts.

25. Changes in Incurred Losses and Loss Adjustment Expenses

A. Reasons for Changes in the Provision for Incurred Loss and Loss Adjustment Expenses Attributable to Insured Events of Prior Years

The following table provides an analysis of the change in loss and loss adjustment expense reserves net of reinsurance recoverables for the indicated periods:

	Sep. 30, 2024	Dec. 31, 2023
Reserves, Net of Reinsurance Recoverables at Beginning of Period	\$ 185,505,400	\$ 157,257,884
Loss and loss adjustment expense incurred:		
Current accident year	46,554,210	64,850,095
Prior accident years	12,470,042	13,489,471
	59,024,252	78,339,566
Loss and loss adjustment expense payments made for:		
Current accident year	2,625,729	4,537,332
Prior accident years	40,736,570	45,554,718
	43,362,299	50,092,050
Reserves, Net of Reinsurance Recoverables at End of Period	\$ 201,167,353	\$ 185,505,400

The Company participates in an intercompany pooling arrangement ("the Pool") as further described in Note 26 of the Annual Statement. The Company's participation is 14% of the entire pool. The development across the entire pool is described below.

Losses Incurred

During 2024, the companies participating in the Pool experienced \$89 million of adverse development on prior years.

The development was primarily related to James River Insurance Company and James River Casualty Company (collectively "James River"). As discussed in Note 23, James River entered into a LPT Agreement with State National effective January 1, 2024. For the period ending September 30, 2024, James River ceded \$71.4 million of year-to-date adverse reserve development to State National under the LPT-ADC agreement, primarily related to the other liability lines of business in accident years 2019-2021. James River paid \$52.2 million as part of the LPT-ADC agreement resulting in a net gain of \$19.2 million which is recorded as retroactive reinsurance benefit in Aggregate Write-ins for Miscellaneous income which is pooled among the companies participating in the Pool. The LPT-ADC was placed at 85%. James River retained the remaining 15% of the applicable adverse development totaling \$12.7 million.

Additionally, James River also recognized prior year adverse development of \$2.8 million on the reserves subject to the Commercial Auto LPT as described in Note 23. Because the reserves were fully subject to the agreement that provides unlimited coverage, the Pool does not expect any economic impact from this development. The Pool has recorded a year-to-date retroactive reinsurance benefit of \$2.8 million in Aggregate Write-Ins for Miscellaneous Income which is pooled among the companies.
