NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Summary of Significant Accounting Policies and Going Concern

A. Accounting Practices

The accompanying statutory financial statements of Allied Insurance Company of America (the Company) have been prepared in conformity with accounting practices prescribed or permitted by the National Association of Insurance Commissioners (NAIC) and the State of Ohio.

The Ohio Department of Insurance (Department) recognizes only statutory accounting practices (SAP) prescribed or permitted by the Department for determining and reporting the financial condition and results of operations of an insurance company, as well as, determining its solvency under the Ohio Insurance Law. The NAIC's *Accounting Practices and Procedures Manual* (NAIC SAP) has been adopted as a component of prescribed or permitted practices by the State of Ohio. The Company has no statutory accounting practices that differ from NAIC SAP.

A reconciliation of the Company's net income and capital and surplus between NAIC SAP and practices prescribed and permitted by the State of Ohio is shown below:

B. Use of Estimates in the Preparation of the Financial Statements

The preparation of statutory financial statements in conformity with Statutory Accounting Principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities. It also requires disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

C. Accounting Policies

Federal Income Taxes. The Company's parent, Nationwide Mutual Insurance Company (Mutual), files a consolidated federal income tax return, which includes all eligible United States (U.S.) subsidiaries and affiliates. In this regard, the Company pays tax due on a consolidated basis. The included subsidiaries and affiliates pay to Mutual the amount of regular tax which would have been payable on a separate return basis. If the consolidated federal income tax return group is an Applicable Corporation and has a Corporate Alternative Minimum Tax (CAMT) liability, all members of the group will be treated as Applicable Corporations subject to CAMT. CAMT is paid by affiliates based on the ratio of the subsidiary's CAMT liability to the total CAMT liabilities of all subsidiaries.

The Company provides for federal income taxes based on amounts the Company believes it will ultimately owe. Inherent in the provision for federal income taxes are estimates regarding the deductibility of certain items and the realization of certain tax credits. In the event the ultimate deductibility of certain items or the realization of certain tax credits differs from estimates, the Company may be required to change the provision for federal income taxes recorded in the financial statements, which could be significant. Management has used best estimates to establish reserves based on current facts and circumstances regarding tax exposure items where the ultimate deductibility is open to interpretation.

In accordance with guidance specified in the NAIC SAP, the Company utilizes the asset and liability method of accounting for income taxes. Under this method, deferred tax assets (DTA), net of any nonadmitted portion and statutory valuation allowance, and deferred tax liabilities (DTL) are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. DTAs and DTLs are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The change in deferred taxes, excluding the impact of taxes on unrealized capital gains or losses and nonadmitted deferred taxes, is charged directly to surplus.

Reinsurance Recoverables. The Company cedes insurance to other companies in order to limit potential losses and diversify its exposure. Such agreements do not relieve the Company of its primary obligation to the policyholder in the event the reinsurer is unable to meet the obligations it has assumed. The Company monitors the financial condition of reinsurers on an ongoing basis and reviews its reinsurance agreements regularly in an attempt to minimize its exposure to significant losses from reinsurer insolvencies. Reinsurance recoverables include amounts billed to reinsurers on losses paid. Estimates of amounts expected to be recovered from reinsurers that have not yet been paid on losses are estimated in a manner consistent with the claim liability associated with the underlying policy. Such reinsurance recoverables and reserve deductions partially offset claim costs in the Company's statutory statements of operations and are included as an offset to losses and loss expense reserves in the accompanying statutory statements of admitted assets, liabilities and surplus. There were no contracts using deposit accounting as of December 31, 2025 and 2024.

Statutory accounting principles require recognition of a minimum liability for certain unsecured or overdue reinsurance recoverables. As of December 31, 2025 and 2024, the Company had no provision related to conditional reinsurance recoverables.

In addition, the Company uses the following accounting policies, when applicable:

- Short-term investments consist of investments with maturities of twelve months or less at acquisition, excluding asset-backed securities, mortgage loans, and investments required to be reported as other long-term invested assets. Short-term investments are stated at amortized cost, which approximates fair value.
- Bonds, excluding asset-backed securities, are stated at amortized cost, except those with a NAIC designation of "3" through "6", which are stated at the lower of amortized cost or fair value. Amortization of premiums and discounts are calculated using the effective yield method. The Company does not hold any mandatory convertible securities or Securities Valuation Office (SVO) identified investments.
- Unaffiliated common stocks are reported at fair value.
- Redeemable preferred stocks are stated at amortized cost, except those with a NAIC designation of "3" through "6", which are stated at the lower of amortized cost or fair value. Perpetual preferred stocks are stated at fair value, not exceeding any currently effective call price.

NOTES TO THE FINANCIAL STATEMENTS

5. Mortgage loans are carried at the unpaid principal balance adjusted for premiums and discounts, less an allowance for credit losses. The allowance for credit losses for mortgage loans reflects management's best estimate of probable credit losses.
6. Asset-backed securities are stated at amortized cost or the lower of amortized cost or fair value in accordance with the provisions of Statement of Statutory Accounting Principles (SSAP) No. 43 – *Asset-Backed Securities* and the *Purposes and Procedures Manual* of the NAIC SVO. The retrospective adjustment method is used to value asset-backed securities where the collection of all contractual cash flows is probable. For all other asset-backed securities, the Company uses the prospective adjustment method. Refer to Note 5(D) for a discussion of the other-than-temporary impairment policy for asset-backed securities.
7. Investments in subsidiary and affiliated companies are stated as follows:

The admitted investments in all subsidiary, controlled, and affiliated (SCA) entities are valued using an equity method approach. Under this approach, investments in insurance affiliated companies are stated at underlying audited statutory surplus adjusted for unamortized goodwill. The equity method of accounting would be discontinued if the investment is reduced to zero, unless the Company has guaranteed obligations of the subsidiary or otherwise committed to provide further financial support. Investments in non-insurance affiliated companies that have no significant ongoing operations other than to hold assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity adjusted to a statutory basis of accounting. Investments in non-insurance affiliated companies that have significant ongoing operations beyond holding assets that are primarily for the direct or indirect benefit or use of the reporting entity or its affiliates are stated at audited GAAP equity. Unaudited affiliated companies of the reporting entity or its affiliates are nonadmitted under prescribed SAP accounting practices. Goodwill arising from the acquisition of subsidiaries or affiliated companies is amortized over a period of ten years. Investments in affiliated companies are generally included in stocks.

8. Other invested assets consist primarily of alternative investments in hedge funds, private equity funds, private and emerging market debt funds, tax credit funds and real estate partnerships. Except for investments in certain tax credit funds, these investments are recorded using the equity method of accounting. Changes in carrying value as a result of the equity method are reflected as net unrealized capital gains and losses as a direct adjustment to surplus. Gains and losses are generally recognized through income at the time of disposal or when operating distributions are received. Partnership interests in tax credit funds are held at amortized cost with amortization charged to investment income over the period in which the tax benefits, primarily credits, are utilized. Refer to Note 1(C)7 above for the accounting treatment for the Company's investments in limited liability companies, which are wholly-owned subsidiaries.
9. Refer to Note 8 for the derivative accounting policy.
10. The Company includes anticipated investment income when calculating its premium deficiency reserves, in accordance with SSAP No. 53 – *Property-Casualty Contracts – Premiums*.

11. The Company establishes losses and loss expense reserves for reported claims and claims incurred but not yet reported (IBNR). Estimating the liability for losses and loss expense reserves involves significant judgment and multiple assumptions. Management considers the Company's experience with similar claims, historical trends, economic factors and judicial, legislative and regulatory changes in establishing reserves. The Company's losses and loss expense reserves are recorded net of reinsurance and amounts expected to be received from salvage (the amount recovered from property after the Company pays for a total loss) and subrogation (the right to recover payments from third parties).

Assumptions and estimates for losses and loss expense reserves are updated as new information becomes available. Due to the inherent uncertainty in estimating losses and loss expense reserves, the actual cost of settling claims may differ materially from recorded amounts. Changes in losses and loss expense reserve estimates are included in results of operations in the period the estimates are revised.

12. The Company has a written capitalization policy for prepaid expenses and purchases of items such as electronic data processing equipment, software, furniture, vehicles, other equipment and leasehold improvements. The Company has not modified its capitalization policy from the prior period.
13. Not applicable – The Company does not write major medical insurance with prescription drug coverage.

D. Going Concern

Not applicable.

Note 2 – Accounting Changes and Corrections of Errors

Effective January 1, 2025, the Company adopted revisions to SSAP No. 26 – *Bonds*, SSAP No. 43 – *Asset-Backed Securities* and SSAP No. 21 – *Other Admitted Assets*, in conformity with the NAIC's revised guidance to develop a principles-based definition for debt securities qualifying for reporting as a bond. The adopted revisions require the assessment of securities to focus on their substance rather than legal form, updated the accounting and reporting guidance for debt securities that qualify for reporting as a bond, updated the accounting and reporting guidance for debt securities that do not qualify for reporting as a bond, and updated guidance for the accounting and reporting of residual interests. There were no material impacts to the Company as a result of the adoption.

4. All impaired securities (fair value is less than cost or amortized cost) for which an other-than-temporary impairment has not been recognized in earnings as a realized loss (including securities with a recognized other-than-temporary impairment for non-interest related declines when a non-recognized interest related impairment remains):

a. The aggregate amount of unrealized losses:

1	Less than 12 Months	\$	-
2	12 Months or Longer	\$	(458,219)

b. The aggregate related fair value of securities with unrealized losses:

1	Less than 12 Months	\$	-
2	12 Months or Longer	\$	2,102,990
			2,102,990

5. The Company periodically reviews asset-backed securities in an unrealized loss position by comparing the present value of cash flows, including estimated prepayments, expected to be collected from the security to the amortized cost basis of the security. If the present value of cash flows expected to be collected, discounted at the security's effective interest rate, is less than the amortized cost basis of the security, the impairment is considered other-than-temporary and a realized loss is recorded.

Note 9 – Income Taxes

Beginning in 2023, the controlled-group of entities of which the Company is a member, has determined that it is an Applicable Reporting Entity for purposes of the Federal CAMT. Applicable Reporting Entities are reporting entities that reasonably expect to be Applicable Corporations for the taxable year, either individually as an unaffiliated corporation or as a member of a tax-controlled group of corporations. An entity is an Applicable Corporation if its rolling average pre-tax adjusted financial statement income over three prior years is greater than \$1 billion. Except under limited circumstances, once an entity is an Applicable Corporation, it is an Applicable Corporation in all future years.

The Company has made an accounting policy election to disregard CAMT when evaluating the need for a valuation allowance for its non-CAMT deferred tax assets.

On July 4, 2025, the One Big Beautiful Bill Act (OBBBA) was signed into legislation. The OBBBA includes various provisions that impact the timing and magnitude of certain tax deductions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act, modifications

NOTES TO THE FINANCIAL STATEMENTS

to the international tax framework and the restoration of favorable tax treatment for certain business provisions. The OBBBA has multiple effective dates, with certain provisions effective in 2025 and others in later years. The Company has incorporated the provisions that were effective in the financial statements for the period ended December 31, 2025 and assessed that the impacts did not have a material impact on total tax. The Company continues to assess any future impacts on the Company's financial statements and will recognize the income tax effects beginning in the period in which they are effective.

Note 10 – Information Concerning Parent, Subsidiaries, Affiliates and Other Related Parties

A. Nature of Relationships

All outstanding shares of the Company are owned by Mutual, domiciled in the state of Ohio

The Company was capitalized as Nationwide Atlantic Insurance Company on May 5, 2005 by Mutual. On February 21, 2006, the name was changed to Atlantic Floridian Insurance Company. On July 13, 2011, the name was changed to Allied Insurance Company of America.

Bonds and stocks, if any, owned, acquired or disposed of in any year by the Company, in any subsidiary or affiliate, are set forth in Schedule D of either this statement or those of prior years. Intercompany relationships and specific holdings are detailed in the Nationwide Corporate Organizational Chart, which appears as Schedule Y of this statement.

Also, see Note 26 for a description of the Company's participation in intercompany reinsurance agreements.

The Company and various affiliates have entered into agreements with Nationwide Cash Management Company (NCMC) a subsidiary of Mutual, under which NCMC acts as a common agent in handling the purchases and sales of short-term investments for the respective accounts of the participants. Amounts on deposit with NCMC were \$553,069 and \$661,895 as of December 31, 2025 and 2024, respectively.

B. Detail of Transactions Greater than ½ % of Admitted Assets

Not applicable.

C. Transactions with Related Party who are not Reported on Schedule Y

Not applicable.

D. Amounts Due to or from Related Parties

NOTES TO THE FINANCIAL STATEMENTS

Affiliate receivables and payables are the result of cost sharing and intercompany service agreements between the Company and its affiliates in which settlement has not yet occurred. Affiliate receivables are presented net of affiliate payables when the Company has the right to offset. The net amounts due from affiliates were \$2,415,079 and \$653,759 as of December 31, 2025 and 2024, respectively. The net amounts due to affiliates were \$3,777,325 and \$5,881,425 as of December 31, 2025 and 2024, respectively. These arrangements are subject to written agreements which require that intercompany balances be settled within a certain time period, generally 30 to 60 days.

E. Management, Service Contracts, Cost Sharing Arrangements

The Company and various affiliates share a home office, other facilities, equipment, common management and administrative services. In addition, Mutual provided data processing, systems development, hardware and software support, telephone, mail and other services to the Company, based on specified rates for units of service consumed pursuant to the enterprise cost sharing agreement. Pursuant to a cost sharing agreement between the companies, the amounts associated with these services are subject to allocation based on standard allocation techniques and procedures acceptable under general cost accounting techniques and procedures in conformity with the NAIC SAP. Measures used to determine the allocation among companies includes individual employee estimates of time spent, special cost studies, claims counts, policies in force, direct written premium, paid losses, pro rata share of employees or their salaries and other methods agreed to by the participating companies. The Company does not believe amounts recognized under the intercompany agreement are materially different than what would have been recognized had the Company operated on a stand-alone basis.

F. Guarantees or Undertakings for Related Parties

The Company has no guarantees or contingent commitments to affiliates other than any indicated in Note 14(A).

Note 14 – Liabilities, Contingencies and Assessments

A. Contingent Commitments

The Company has no commitments or contingent commitment to affiliates or other entities. As indicated in Note 10(F), the Company has made no guarantees on behalf of affiliates.

B. Assessments

The Company is subject to guaranty fund and other assessments by the states in which it writes business. Guaranty fund assessments should be accrued at the time of insolvencies. Other assessments should be accrued either at the time of assessments or in the case of premium based assessments, at the time the premiums were written. In the case of loss-based assessments, the assessments should be accrued at the time the losses are incurred.

As outlined in Note 26, the Company participated in a 100% pooling reinsurance agreement with Mutual. Therefore, the accrued liability for guaranty fund and other assessments and the related premium tax benefit have been ceded to Mutual.

C. Gain Contingencies

Not applicable.

D. Claims Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

Note 20 – Fair Value Measurements

- A. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements are based upon observable and unobservable inputs. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Company's view of market assumptions in the absence of observable market information. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. In determining fair value, the Company uses various methods including market, income and cost approaches.

The Company categorizes its financial instruments into a three-level hierarchy based on the priority of the inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument in its entirety.

The Company categorizes assets and liabilities held at fair value in the statutory statements of assets and liabilities, surplus and other funds as follows:

Level 1. Unadjusted quoted prices accessible in active markets for identical assets or liabilities at the measurement date and mutual funds where the value per share (unit) is determined and published daily and is the basis for current transactions.

Level 2. Unadjusted quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or inputs (other than quoted prices) that are observable or that are derived principally from or corroborated by observable market data through correlation or other means. Primary inputs to this valuation technique may include comparative trades, bid/asks, interest rate movements, U.S. Treasury rates, Secured Overnight Financing Rate, prime rates, cash flows, maturity dates, call ability, estimated prepayments and/or underlying collateral values.

Level 3. Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Inputs reflect management's best estimates of the assumptions market participants would use at the measurement date in pricing the asset or liability. Consideration is given to the risk inherent in both the method of valuation and the valuation inputs. Primary inputs to this valuation technique include broker quotes and comparative trades.

The Company reviews its fair value hierarchy classifications for assets and liabilities quarterly. Changes in the observability of significant valuation inputs identified during these reviews may trigger reclassifications. Reclassifications are reported as transfers at the beginning of the reporting period in which the change occurs.

Independent pricing services are most often utilized, and compared to pricing from additional sources when available, to determine the fair value of bonds and stocks for which market quotations or quotations on comparable securities or models are used. For these bonds and stocks, the Company obtains the pricing services' methodologies and classifies the investments accordingly in the fair value hierarchy.

Corporate pricing matrices are used in valuing certain bonds. The corporate pricing matrices were developed using publicly and privately available spreads segmented by various weighted average lives and credit quality ratings. Certain private placement bonds have adjusted spreads to capture the impacts of liquidity premium based on industry sector. The weighted average life and credit quality rating of a particular bond to be priced using those matrices are important inputs into the model and are used to determine a corresponding spread that is added to the appropriate industry sector or U.S. Treasury yield to create an estimated market yield for that bond. The estimated market yield and other relevant factors are then used to estimate the fair value of the particular bond.

Non-binding broker quotes are also utilized to determine the fair value of certain bonds when deemed appropriate or when valuations are not available from independent pricing services or corporate pricing matrices. These bonds are classified with the lowest priority in the fair value hierarchy as only one broker quote is ordinarily obtained, the investment is not traded on an exchange, the pricing is not available to other entities and/or the transaction volume in the same or similar investments has decreased. Inputs used in the development of prices are not provided to the Company by the brokers, as the brokers often do not provide the necessary transparency into their quotes and methodologies. At least annually, the Company performs reviews and tests to ensure that quotes are a reasonable estimate of the investments' fair value. Price movements of broker quotes are subject to validation and require approval from the Company's management. Management uses its knowledge of the investment and current market conditions to determine if the price is indicative of the investment's fair value.

The Company carries short-term investments at amortized cost, which approximates fair value.

No assets or liabilities were held at fair value as of December 31, 2025.

B. & C. The following table summarizes the carrying value and fair value of the Company's assets not held at fair value as of December 31, 2025:

GENERAL INTERROGATORIES

PART 2 - PROPERTY AND CASUALTY INTERROGATORIES

- 6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss?
The company's net exposure if any ultimately is 100% ceded to the Nationwide Mutual Insurance Company Pool under a quota share reinsurance agreement. No retained exposure.
- 6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process:
The company's net exposure if any ultimately is 100% ceded to the Nationwide Mutual Insurance Company Pool under a quota share reinsurance agreement. The company's property exposures are aggregated with the other Nationwide companies and modeled using Verisk software.
- 6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?
The company's net property-catastrophe exposures, if any, are mitigated through managed coastal growth, purchase of excess of loss reinsurance, policy provisions such as higher deductibles, and enforcement of underwriting guidelines related to building construction, etc.
- 6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence? Yes [X] No []
- 6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophe loss
.....
- 7.1 Has this reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?..... Yes [] No [X]
- 7.2 If yes, indicate the number of reinsurance contracts containing such provisions.
- 7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?..... Yes [] No []
- 8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured? Yes [] No [X]
- 8.2 If yes, give full information
.....
- 9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity. Yes [] No [X]
- 9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract. Yes [] No [X]
- 9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.
- 9.4 Except for transactions meeting the requirements of paragraph 36 of SSAP No. 62 - Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP? Yes [] No [X]
- 9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.
- 9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or, Yes [] No [X]
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or Yes [] No [X]
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement. Yes [] No [X]
10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done? Yes [X] No [] N/A []
